Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

**RECEIVED**  
By OCD District 1 at 1:49 pm, Aug 07, 2015

Describe Cause of Problem and Remedial Action Taken.\*

*Removed old tank from jobsite. Soil underneath the tank appears to be contaminated. Soil was removed from the area and disposed. Samples were taken every 4 ft, and a total of 8 ft was removed from the entire battery area. At 8 ft the samples yielded good results, and caliche and topsoil was brought back in and filled the hole. After, the area was seeded with BLM seed.*

**APPROVED**  
By OCD District 1 at 1:49 pm, Aug 07, 2015

Describe Area Affected and Cleanup Action Taken.\*

*Inside of a berm. Cleanup action was to haul contaminated soil to proper disposals and performed soil tests to ensure all affected soil was removed. Fresh dirt was brought in to fill back in the area, and the area was seeded.*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
