---

Dear Mr. Bruening:

NMOCD approval is given for the proposed Devon Rattlesnake Recycling Facility and Containment. Please be advised that this email message serves as documentation for approval. A hard copy will not be sent. Please see the attachments for your records: 1) the letter of approval indicates the specific variances approved and 2) signed C-147 application with the permit number issued for the Rattlesnake Recycling Containment.

The Recycling Containment is issued an identifier **1RF-22**.

Monthly usage reports on the form C-148 are expected electronically to NMOCD- District I office. NMOCD also may ask for periodic updates on containment conditions and inspection logs. For future communications, please remember to include the identifier **1RF-22** for tracking and record-keeping purposes.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**Subject:** C-147

Olivia,

Following up to my voice message left today.

We submitted this through the proper channels and Dr. Oberding was reviewing. We are waiting on the review and approval to start construction. We have a Business Lease on the facility and have received approval for amending the Business Lease. The variance is been previously approved and is for a larger mil liner than is required by the rule.

Can you provide me with some timeline when the C-147 will be approved?
