Attachments: approved_COG Cuatro Hijos Fee #4H Work Plan -1RP 4781 Final.pdf

Ms. Gonzales:

NMOCD approves of the delineation completed for 1RP-4781 and proposed remediation with these stipulations:

1. Confirmation sidewall samples must demonstrate permissible levels of chlorides (≤ 600 mg/kg).
2. On an appropriately scaled map, demarcate the confirmation sample locations with GPS coordinates.
3. Provide photo documentation of the remedial activities.

Please confirm or inform for clarification.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: COG Cuatro Hijos Fee #4H Work Plan Approval Request (1RP-4781)

Good Afternoon,

Attached is the work plan for the above referenced site located in Lea County, New Mexico. Once approved, COG will implement the proposed work plan. Let me know

if you have any questions or concerns.

Thank you,

Clair Gonzales
