---

Mr. Hitchcock:

NMOCD approves of the delineation completed for 1RP-4904 and the proposed remediation with these clarifications:

1. Sidewall confirmation samples taken in the impacted pasture area must be no greater than 75 ft. apart.
2. On an appropriately scaled map (or tabulate), demarcate confirmation sample locations with GPS coordinates.
3. Include dated photo documentation of delineation and remediation in the subsequent report.

Like approval from BLM required.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

---
