Dear Mr. Ericson:

Please be advised that a deferral will not require a final C-141, since there is still a portion of the impacted pipeline area to be remediated at time of abandonment, retrofit, or inactivity.

NMOCD accepts the closure report for 1RP-4621 for the area that is remediated. The deferral request is approved for the area identified in the report.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
