3. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Nadel and Gussman requests an extension of this well's TA status for ~~period of 2 years~~. This well was TA'D on Feb. 27, 2002. At that time a MFT test (copy attached) indicated no leaks. The BLM approved TA status for 12 months which ended on 2/27/2003. We would like to request that the TA status be granted until 2/27/07. The last flow test on this well averaged 16 mcf/d. At the moment it is not economical for us to return this well to production. If we lost the Big Lucky Lake #2 and could utilize most of the used equipment from that well then we could economically return this well to production.

APPROVED FOR 12 MONTH PERIOD
