It is requested that the TA'd status of this well be extended. The well is a twin to the J. M. Denton # 12 which currently produces from the Wolfcamp Zone. Legacy Reserves Operating LP would like to keep this wellbore to utilize as a replacement well in the event the #12 wellbore becomes incapable of use. Legacy is also currently investigating this well to determine if it is economic for reactivation or if it needs to be plugged and abandoned.

This Approval of Temporary  
Abandonment Expires 8-6-2013
