13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BTA respectfully requests the following changes to this APD, as was approved:

Change target depths, as follows:

End of Curve was 9380' TVD - is now 9510' TVD

End of Lateral Curve was 9380' TVD - is now 9500' TVD

Projected Total Depth was 13942' MD 9380' TVD - is now 14079' MD 9500' TVD

Revised Directional Plan is attached

Will drill the vertical/curve from the 9-5/8" intermediate at 5100' (per BLM COA) to End of Curve at 9784' MD/9510' TVD with 8-3/4" hole size instead of 7-7/8".

In the lateral at 9784' MD/9510' TVD, reduce hole size from 8-3/4" to 7-7/8" to TD (14079' MD/9500')

|                                                                                                                                                                                                                                                                                            |                                |
