1 YEAR ONLY!  
MIT

Hello Mr. Brown,

This email is in reference to our conversation on 4/1/15. We have a TA'd well, the Byers B #35 (30-025-26647) that was denied a TA extension. Oxy respectfully requested to extend the TA for a year to evaluate completing the well in deeper pay zones or bring the well into the South Hobbs Unit. Both of these options require time to evaluate and coordinate with facilities and land.

The most recent MIT was run on 5-5-15 and is attached with a C-103. The original is being mailed to your office.

If you have any questions or concerns, please feel free to contact me. Also, for clarification, is the 1 year TA extension until May 5, 2016? Thank you again Mr. Brown.

Warm Regards,

Kelley
