13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well is shut in pending the completion of an engineering study by Prime of the Wells A & B Lease wells.

Prime hereby requests the approval of the BLM to conduct a casing integrity test of the Wells A#2 wellbore as soon as the necessary equipment becomes available. Prime proposes to conduct the test by running and setting a retrievable bridge plug in the well within 50' of the uppermost perforation and pressure testing the well's production casing to 500 psig.
