13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

All surface piping and debris will be removed from location; a Dry Hole Marker will be installed according to BLM provisions; the caliche on the location will be pushed to two sides, 3 feet of underlying topsoil will be pushed to two opposite sides, caliche will be pushed into excavated area, 3' of excavated topsoil will be pushed into excavated area covering the caliche and contoured to grade; the road to the north will be flipped and buried in the same manner; a 2-3' berm will be constructed on the north end of the road to block access after reseeding; 2-3' of topsoil will be used to cover the old pit area on the south side of the location; reseeding of the location, covered pit area, and road will be in accordance with BLM approved methods and grass mixes; BLM will be notified at least 24 hrs before any operations commence. BLM will be notified when completed for inspection

COAs: Notify the private landowner prior to start to be sure he has no objections to the reclamation procedure or seed mix. Mix #2.
