Re: New Mexico "BO" State No. 3 SWD  
Moore Devonian Field  
Unit Letter D, Section 24, T-11-S, R-32-E  
Lea County, New Mexico

Dear Mr. Sexton:

As per your request, the annual injection survey was run on the subject well on December 9, 1987. Mr. Eddy Seay witnessed the survey. No significant change in the injection profile has occurred in the past year. Channel checks at the 5 1/2" casing shoe (10,600') and squeezed perfs (10,536'-10,600') indicated that no upward channels existed. A packer check showed that no packer leak existed. Attached for your review is a copy of the survey.

If you have any questions, please contact us at 397-3571.

Sincerely,

J. A. Head  
Hobbs Area Superintendent
