17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well was making approximately 0.3 BOPD and 2.4 BWPD. It was shut-in during June 1980 so that we could salvage the pumping unit for use elsewhere. The tubing and sucker rods are still in the well at this time.

The casing has no leaks and thus poses no threat to contamination of fresh water resources.

Permission is requested to leave subject well in a temporarily abandoned status because the well may have some utility for future secondary recovery operations. In the event we salvage the tubing and rods for use elsewhere, and feel the well would have no utility in a waterflood, permission to permanently abandon would be requested.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
