

New Mexico State Land Office  
Santa Fe, New Mexico.  
Department of the State Geologist

NOTICE OF INTENTION TO TEST WATER SHUT-OFF

Notice must be given to the State Geologist or to the proper Oil and Gas Inspector at least five days before test. It is desirable that a representative of the Department of the State Geologist witness the water shut-off before drilling into the productive sand whenever possible. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to sender. Submit this notice in triplicate.

Wink, Texas. July 13, 1934.

Mr. T. A. Stancliff,  
State Geologist,  
Santa Fe, New Mexico.

Dear Sir:

You are hereby notified that we intend to test the shut-off of water in W. D. Grimes Well No. 3 in NW/4 Sec. 28, T. 18S, R. 38E, N. M. P. M., Hebbs Oil Field, Lea County, on June 8, 1934 15-1/2" in. 70 lb. casing was cemented in Caliche & Sand formation at a depth of 296 feet on June 6, 1934 200 sacks of El Tero cement were used.

DUPLICATE

The method used in placing the cement was as follows:  
Halliburton Oil Well Cementing Company  
Mud level will be bailed to a depth of Bailed dry feet

and left undisturbed for at least 12 hours before your inspection.

Adjacent property owners have been notified as follows:
