Gentlemen:

According to our records, as of December 1, 1963 your Federal McCurdy No. 1-29 located in Unit G of Section 29, T-18-S, R-32-E had produced 4,025 barrels of oil with no allowable assigned to the well. Further, our records also reflect that 1,615 barrels had been sold to a transporter.

As you know, our rules stipulate that no oil can be sold from a lease unless the oil is produced against an assigned allowable. You are, therefore, in violation of our rules and regulations, as is your transporter, McCurdy-Trammell Joint Account. By copy of this letter McCurdy-Trammell Joint Account is also advised of this violation.

At your earliest convenience, please advise this office as to the current status of the well, and also furnish an explanation as to why you have violated our rules and regulations.

Yours very truly,

OIL CONSERVATION COMMISSION
