17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work, SEE RULE 103.)

On August 23, 1988, in Order No. R-8722, the Oil Conservation Commission authorized Horizon Oil & Gas Co. to down-hole commingle the Monument-Paddock, Monument-Blinebry and Undesignated Monument-Iubb production in this well.

Starting August 30, 1988 and ending September 7, 1988, the following work was done:

1. Retrievable Bridge Plugs were removed from wellbore.
2. Hydrostatic Bailer ran and cleaned out wellbore to 6485'.
3. Ran Production Tubing with Seating Nipple at 6348'.
4. Hung well back on pump 9-7-88.

The well is now commingled and producing from all three of the above discussed formations.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
