Twp. 2-S Range 26-E Meridian N.H.F.U.
Pecos (Field) Lea (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 3577 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Continuing telephone conversation with Mr. M. H. Soyster on 3-10-51, Meyer 3-4 No. 6 has ceased to produce oil.

In an effort to resume production, and in accordance with our telephone conversation with Mr. Soyster, it is proposed to treat the subject well with 1500 gallons acid from 3782' to 3864'.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Continental Oil Company
