Re: Revised Acreage Dedication
GETTY'S STATE "S" WELL NO. 3
Blinebry Field
Lea County, New Mexico

Gentlemen:

On December 20, 1971 Getty Oil Company made application for a Non-Standard Gas Proration Unit to the New Mexico Oil Conservation Commission. Getty's State "S" Wells Nos. 3 and 8 were reclassified from Oil Wells to Gas Wells. Getty requested that the 80 acres be allocated to their State "S" Well No. 3. State "S" Well No. 8 was shut-in. This application was granted by NMOCC Administrative Order No. NSP-853 on January 21, 1972.

On March 28, 1973 Getty made application to amend this unit to include Getty's State "S" Well No. 8. This application was granted by an Amendment to NMOCC Administrative Order NSP-853 on April 30, 1973.

Getty's State "S" Well No. 8 was put on production on February 18, 1975. This production test classifies Well No. 8 as an Oil Well. See C-116 attached.

Getty Oil Company respectfully requests an Amendment to Administrative Order NSP-853 to reduce the allocated acreage to 40 for Getty's State "S" Well No. 3 in Unit B; Section 15 T-21-S, R-37-E.

The Offset Operators have been furnished with copies of this letter with the attachments.

Very truly yours,
GETTY OIL COMPANY
