Attention: Mr. A. L. Porter, Jr.

Re: Application to Dual
S. J. Sarkeys Well No
Blinebry Oil & Drinkard
Lea County, New Mexico

Gentlemen:

Sinclair Oil & Gas Company respectfully requests administrative approval to dual complete its S. J. Sarkeys Well No. 1 as a Blinebry - Drinkard oil-oil dual. The well is located in Unit J, Section 23, T 21 S, R 37 E, Lea County, New Mexico.

The well is presently completed as a Blinebry gas well. Plans are to squeeze cement the Blinebry gas zone and complete in the Blinebry Oil interval. It is proposed to dually complete the well in such a manner as to permit the Drinkard and Blinebry oils to be produced through parallel strings of 2" OD tubing.

Very truly yours,

Sinclair Oil & Gas Company

Fred Burns
District Superintendent

APPLICATION FOR DUAL COMPLETION OFFICE D. C. C.

Field Name	Blinebry Oil & Drinkard		County	Lea	Date	JUN 18 52 AM 1964	
Operator	Sinclair Oil & Gas Company		Lease	S. J. Sarkeys		Well No.	1
Location of Well	Unit	Section	Township	Range			
	J	23	21 S	37 E			

1. Has the New Mexico Oil Conservation Commission heretofore authorized the dual completion of a well in these same pools or in the same zones within one mile of the subject well? YES NO
2. If answer is yes, identify one such instance: Order No. MC 1451; Operator, Lease, and Well No.: Shell Oil Company, Sarkeys No. 3, L 23-21-37

3. The following facts are submitted:

	Upper Zone	Lower Zone
a. Name of reservoir	Blinebry Oil	Drinkard
b. Top and Bottom of Pay Section (Perforations)	5650-5950	6450-6610
c. Type of production (Oil or Gas)	Oil	Oil
d. Method of Production (Flowing or Artificial Lift)	Flow	Flow

4. The following are attached. (Please mark YES or NO)
- Yes a. Diagrammatic Sketch of the Dual Completion, showing all casing strings, including size and setting, top of cement, perforated intervals, tubing strings, including diameters and setting depth, location and type of packers and side door chokes, and such other information as may be pertinent.
- Yes b. Plat showing the location of all wells on applicant's lease, all offset wells on offset leases, and the names and addresses of operators of all leases offsetting applicant's lease.
- NO c. Waivers consenting to such dual completion from each offset operator, or in lieu thereof, evidence that said offset operators have been furnished copies of the application.*
- NO d. Electrical log of the well or other acceptable log with tops and bottoms of producing zones and intervals of perforation indicated thereon. (If such log is not available at the time application is filed, it shall be submitted as provided by Rule 112-A.)

5. List all offset operators to the lease on which this well is located together with their correct mailing address.
- Gulf Oil Corporation, Box 2167, Hobbs, N.M.; Tidewater Oil Co., Box 547, Hobbs, New Mexico
- Mobil Oil Company, Box 2406, Hobbs, New Mexico
- Shell Oil Company, Box 1858, Roswell, New Mexico
- Kirby Petroleum Company, Box 1745, Houston 1, Texas
- Texas Pacific Coal & Oil Company, Box 1688, Hobbs, New Mexico
- Lakeland Petroleum Corporation, 1803 Cent. Life Bldg., Fort Worth 2, Texas

6. Were all operators listed in Item 5 above notified and furnished a copy of this application? YES NO . If answer is yes, give date of such notification Currently

CERTIFICATE: I, the undersigned, state that I am the District Superintendent of the Sinclair Oil & Gas Company (company), and that I am authorized by said company to make this report; and that this report was prepared under my supervision and direction and that the facts stated therein are true, correct and complete to the best of my knowledge.

* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest or request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard perforation unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
