13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

A CIBP was set @ 3250' above all perms. on 8-21-85. Well tested okay for TA status in 1995. We plan to re-test casing to 500 psi for TA status. We request TA status be granted as this well has potential to be re-completed as gas well, or SWD well, when economic conditions are more favorable.
