Tubb Oil & Gas Pool

Gentlemen:

According to the recently submitted gas/oil ratio test the above-referenced wells will be reclassified from gas wells to oil wells in the Tubb Oil and Gas Pool effective January 1, 1992, and the gas allowables cancelled effective that date.

If for some reason you feel these tests do not reflect the proper classification of these wells, please submit another test for our consideration by November 15, 1991.

If these wells are to be reclassified from gas to oil, please file the following:

- 1) C-102, acreage dedication plat, outlining 40 acres for oil
- 2) C-104 if gas transporter changes due to reclassification

Very truly yours,

OIL CONSERVATION DIVISION
