RE: LOWE #1, UNIT O-S26-T22S-R37E

Attn: Herb Spencer

According to production data, the above referenced well has been shut in since January 1994. The most current wellfile information is Sundry Notice C103 intent to P&A, dated January 1986. To this date no procedure has been carried through. The OCD requests that you temporary abandon this well according to Rule 203, and request a 5 year TA status.

If you cannot concur with the above, contact Gary Wink at the above address.

Enclosed is a copy of the intent to plug and abandon.

Another inspection will be made on the above well, to insure compliance to our request.

Sincerely,

CHRIS WILLIAMS
District I Supervisor
