It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in financial operations. This section also highlights the role of internal controls in preventing fraud and errors.

8. The eighth part of the document focuses on the implementation of robust risk management strategies. It outlines various risk assessment techniques and provides guidance on how to identify, measure, and mitigate potential risks. The text stresses the need for a proactive approach to risk management to protect the organization's assets and reputation.

9. The ninth part of the document addresses the importance of effective communication and reporting. It discusses the need for clear and concise communication channels and the role of regular reporting in keeping stakeholders informed. This section also touches upon the importance of maintaining accurate financial statements and providing timely updates to investors and other interested parties.

10. The tenth part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in financial operations. This section also highlights the role of internal controls in preventing fraud and errors.

Edith D. Fanning "A" No. 1 in the NW NE of Sec. 33, T. 23S, R. 37 E.

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

A retainer was set @ 6400'. 45 sacks of cement were squeezed below retainer with 600# pressure, and 5 sacks were dumped on top of retainer. Estimated top of cement @ 6350'. Mudded hole through tubing w/230 sacks Ezmix mud, filled to top. Shot 7" casing @ 3800', 3600', 3500', 3400', and 3360'. Casing came loose at 3360', left 3492' of 7" casing in hole from 3360' to 6852'. Cemented w/25 sacks cement through tubing @ 3350' and spotted 25 sacks of Ezmix mud. Cemented w/25 sacks of cement @ 2850' and spotted 25 sacks of Ezmix mud. Shot 9-5/8" casing @ 1750', 1650', 1600', and 1500'. Casing came loose at 1500', left 1450' of 9-5/8" casing in hole from 1500' to 2950'. 302' of 13-3/8" casing was also left in hole. Spotted 25 sacks of cement @ 1075'. Filled hole to surface with 50 sacks of Ezmix mud. Capped well w/15 sacks cement and installed 4" pipe marker extending 4' above surface. Work started on July 13, and was completed on July 27, 1948.
