(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

Above well was converted to injection well for waterflood as follows:

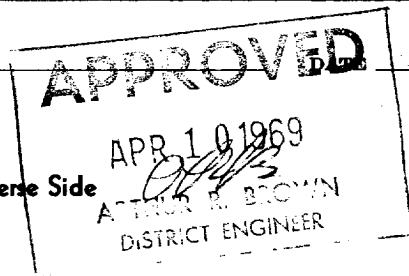

1. Moved in, rigged up. Pulled rods and tubing. Cleaned out to 3427'.
2. Logged 2500-3427'. Ran tubing and packer. Spotted 300 gal. NE acid in open-hole. set packer at 3180'.
3. Acidized with 1500 gal. 15% NE acid. Swabbed back load.
4. Pulled and ran 104 jts. plastic coated tubing and packer. Packer at 3203'.
5. Connected up well head according to standard well head injection diagram.

Work completed 12-4-66.

18. I hereby certify that the foregoing is true and correct

CONDITIONS OF APPROVAL, IF ANY:

*See Instructions on Reverse Side

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
