

MULTI-POINT SURFACE USE AND OPERATIONS PLAN
SANTA FE ENERGY RESOURCES, INC.
Mesa Verde "6" FEDERAL NO. 10
SECTION 6, T-24-S, R-32-E
LEA COUNTY, NEW MEXICO

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effects associated with the operation.

1. EXISTING ROADS.

- A. Exhibit E is a 15 minute topographic map which shows the location of the proposed wellsite and roads in the vicinity. The proposed location is situated approximately 24 miles east of Loving, New Mexico.

DIRECTIONS:

1. From the intersection of State Hwy 128 & Hwy 31, (east of Carlsbad, N.M.) go east on Hwy 128 for 19 miles. Turn left (northeast) onto caliche road, go northeast for 1.0 mile and turn left for 0.5 miles to the Mesa Verde "6" Fed #14 location. The proposed location is 1320' west of the existing #14 location.

2. PLANNED ACCESS ROAD.

1320' of new access will be required.

3. LOCATION OF EXISTING WELLS.

- A. The well locations in the vicinity of the proposed well are shown in Exhibits E & F.

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES.

- A. There are six producing Bone Spring oil wells on the lease at this time.
- B. In the event the well is productive, a flowline will be laid along the road ROW to the battery at the Mesa Verde "6" Federal No. 2 location. If the well is productive of oil, electricity will be run from the Mesa Verde "6" Fed #14 to the location to supply the necessary power to run a pump jack.
