New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Attention Mr. A. L. Porter, Jr.
Secretary & Director

Gentlemen:

Please consider this application of Shell Oil Company for an 80-acre non-standard gas proration unit to be dedicated to Shell State No. 2A in the Jalmat Gas Pool. As shown on the attached plat, this well is located in Unit H, Section 36, T-24-S, R-36-E, Lea County, New Mexico.

Shell State 2A was completed in the Langlie Mattix Oil Field in 1949. It is our intention to produce the Jalmat gas through the casing-tubing annulus and the Langlie Mattix oil through the tubing. Please refer to our application for dual completion of Shell State 2A dated January 24, 1961. The outline of the requested 80-acre gas unit is shown on the attached plat. All offset operators will be sent copies of this application for their information.

Please advise if further information is desired concerning this request.

Very truly yours,

[Signature]
for E. L. Rankin
Division Production Manager
