Oklahoma City, Oklahoma

Dear Mr. Olsen:

Reference is made to your letter of June 14, 1955, in which you requested Mr. Stanley of this Commission to check the allowable assigned to your Hodge Well No. 2, located in unit location B of Section 8, Township 24 South, Range 37 East, NMPM, Lea County, New Mexico. This letter has been referred to this office for investigation and handling.

Order No. R-559, dated December 16, 1954, granted a 160-acre unit allowable to your Hodges Well No. 2. However, the last paragraph in the Order specifically provided that for said Order to be valid and to take effect, it would be necessary for you to completely shut-off the gas zones of the Jalmat Gas Pool, which is open in your Hodge Well No. 1, located in the SE/4 NE/4 of Section 8, Township 24 South, Range 37 East. To the best of our knowledge no remedial work has been performed upon your Hodge Well No. 1. Therefore, until such work is performed the provisions of Order R-559 cannot take effect and your Hodge Well No. 2 will be assigned a 40-acre allowable.

We enclose a copy of Order R-559 for your inspection.

Very truly yours,

C. M. Rieder
District Engineer
