Midland, Texas 79704

Dear Sir:

The Commission finds you have filed a Form C-103, Plugging Report, on the below listed well in 1965, but since this date we have not received a notice that it is ready for final surface inspection.

Attached is a copy of a form letter listing things which must be done before said well can pass final inspection and the plugging bond can be released.

We would like to clear this well from our P & A hold file as soon as possible. Notify us when the well is actually ready for inspection.

25 "A" Unit No. 1
Unit 0, Section 25, T24S, R36E

Very truly yours,

OIL CONSERVATION COMMISSION

OIL CONSERVATION COMMISSION
HOUSTON, NEW MEXICO

February 11, 1957

International Petroleum Corporation
1000 Main Building
Houston, Texas 77004

Dear Sir:

The Commission finds you have filed a Form 100-103, Application for a permit to drill for oil and gas, in the State of Texas, and we have given a notice that it is ready for final inspection.

Attached to a copy of your letter is a form which must be filled out and will be used for final inspection. The original form can be released.

We would like to see the well from our own well file as soon as possible. Notify us when the well is actually ready for inspection.

Very truly yours,
Director, Division of Conservation, New Mexico
