RE: Results for chloride sampling for cells #4, 6, 7, & 11

Gentleman,

Included are the test results for the high chloride sampling program to locate and isolate the high chlorides in cells #4, 6, 7, & 11. We broke each cell down into 3 stages to locate the impacted areas. The area's that we have identified total to be approximately 510 yds. Upon approval we will hire a truck to start hauling to WCA Bondad landfill.

Sample results with an \* by them are test results that was low, we retested on stage 3 because we knew it was high in this area from stage 1 test results.

Sincerely,

Craig Schmitz  
Tony Schmitz
