Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Heartthrob 17 State Com #205H well in the E/2 of Section 17, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico.

Dear Ms. Sandoval:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Heartthrob 17 State Com #205H well** (API No. 30-025-47141) to be completed within the Triple X; Bone Spring, West Pool [96674], underlying the E/2 Sections 17 and 14, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico.

This well is to be drilled and completed at a surface location 680 feet from the north line and 1,354 feet from the east line (Unit B) of Section 17. The first take point is located 100 feet from the north line and 2,313 feet from the east line (Unit B) of Section 17, and the last take point is located 100 feet from the south line and 2,313 feet from the east line (Unit O) of Section 17.

Since this acreage is governed by the Division’s statewide rules, the completed interval for this well will be unorthodox because it is closer than the standard offsets to the western boundary of the spacing unit. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Exhibit A is a Form C-102, together with an as-drilled plat, showing the completed interval of the proposed **Heartthrob 17 State Com #205H well** encroaches on the spacing unit/tracts to the west in the W/2 of said Section 17.

Exhibit B is a plat for Section 17 that shows the proposed **Heartthrob 17 State Com #205H well** in relation to adjoining spacing unit/tracts to the west.

Ownership is diverse between the subject spacing unit and the affected spacing unit/tracts to the west. **Exhibit C** is a list of the “affected parties” to this application and proof that a copy of this application with all attachments has been sent by certified mail to each affected party advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

Exhibit D is a statement from a petroleum engineer providing justification for the needed exception.

Your attention to this matter is appreciated.

Sincerely,

Kaitlyn A. Luck

Re: EOG Resources NSL Application
Hearthrob 17 State Com #205H

To whom it may concern:

A non-standard location is necessary to develop the Leonard formation in this section in an efficient and economic manner. A non-standard location optimizes pressures related to the completion and production drawdown of the wells and is expected to yield a higher ultimate recovery than a standard location, thereby preventing waste and protecting correlative rights.

Sincerely,

EOG Resources
