**Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Thrasher 33 Fed Com #706H well in the W/2 E/2 of Sections 28 and 33, Township 24 South, Range 34 East, N.M.P.M., Lea County, New Mexico.**

Dear Ms. Sandoval:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Thrasher 33 Fed Com #706H well** (API No. 30-025-48395) to be completed within the WC-025 G-09 S243336I; Upper Wolfcamp Pool [98092], underlying the W/2 E/2 of Sections 28 and 33, Township 24 South, Range 34 East, N.M.P.M., Lea County, New Mexico.

This well is to be drilled and completed as follows:

- the surface location is located 200 feet from the south line and 1,716 feet from the east line (Unit O) of Section 33,
- the bottom hole location is located 100 feet from the north line and 2,315 feet from the east line (Unit B) of Section 28,
- the first take point is located 100 feet from the south line and 2,315 feet from the east line (Unit O) of Section 33, and
- the last take point is located 100 feet from the north line and 2,315 feet from the east line (Unit B) of Section 28.

Since this acreage is governed by the Division's statewide rules, the completed interval for this well will be unorthodox because it is closer than the standard offsets to the western boundary of the spacing unit and encroaches on the E/2 W/2 of Section 33. Approval of the unorthodox

T 505.988.4421 F 505.983.6043

Alaska	Montana	Utah
Colorado	Nevada	Washington, D.C.
Idaho	New Mexico	Wyoming

completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

**Exhibit A** is a Form C-102 showing the completed interval of the proposed **Thrasher 33 Fed Com #706H well** encroaches on the spacing unit/tracts to the east in the E/2 W/2 of said Sections 28 and 33.

**Exhibit B** is a plat for Sections 28 and 33 that shows the proposed **Thrasher 33 Fed Com #706H well** in relation to adjoining spacing unit/tracts to the west.

Ownership is diverse between the subject spacing unit and the affected spacing unit/tracts to the west. **Exhibit C** is a list of the “affected parties” to this application and proof that a copy of this application with all attachments has been sent by certified mail to each affected party advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

**Exhibit D** is a statement from a petroleum engineer providing justification for the needed exception.

Your attention to this matter is appreciated.

Sincerely,

Kaitlyn A. Luck

Re: EOG Resources NSL Application  
Thrasher 33 Fed Com #706H

To whom it may concern:

A non-standard location is necessary to develop the Wolfcamp formation in this section efficiently and in an economic manner. Because of other existing Wolfcamp formation wells, a non-standard location optimizes pressures related to the completion and production drawdown of the wells and is expected to yield a higher ultimate recovery than a standard location, thereby preventing waste and protecting correlative rights.

Sincerely,

A handwritten signature in black ink, appearing to read "David Carlos Sonka", written over a horizontal line.

EOG Resources  
David Carlos Sonka  
Sr. Reservoir Engineer
