**Re: Application of Tap Rock Operating, LLC, for administrative approval of an unorthodox well location for its Nailed It Fed Com #222H Well in the SW/4 of Section 25 and W/2 of Section 36, Township 26 South, Range 30 East, N.M.P.M., Eddy County, New Mexico.**

Dear Ms. Sandoval:

Tap Rock Operating, LLC (“Tap Rock”) (OGRID No. 372043) seeks administrative approval of an unorthodox well location for its **Nailed It Fed Com #222H Well** (API No. 30-015-46887) to be completed within the Purple Sage; Wolfcamp Pool (98220) underlying the SW/4 of Section 25 and W/2 of Section 36, Township 26 South, Range 30 East, N.M.P.M., Eddy County, New Mexico. The unorthodox location in this application encroaches on the state line of New Mexico and Texas.

This well is to be drilled at the following location:

- Surface location: 230 feet from the south line and 1,970 feet from the west line (Lot 3) of Section 36;
- Bottom hole location: 2,464 feet from the south line and 1,590 feet from the west line (Unit K) of Section 25;
- First take point: 100 feet from the south line and 1,590 feet from the west line (Lot 3) of Section 36;
- Last take point: 2,334 feet from the south line and 1,590 feet from the west line (Unit K) of Section 25.

Pursuant to Division Order R-14262, this acreage is governed by the Special Rules for the Purple Sage; Wolfcamp (Gas) Pool, which provide for wells in the Wolfcamp formation in Eddy

Idaho	New Mexico	Wyoming

County to be located no closer than 330 feet to the outer boundary of the spacing unit. The completed interval for the **Nailed It Fed Com #222H Well** will be unorthodox because it is closer than 330 feet to the southern boundary of the horizontal spacing unit. Approval of the unorthodox completed interval will allow Tap Rock to use its preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

**Exhibit A** is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Nailed It Fed Com #222H Well** encroaches on the tracts to the south, in Texas.

**Exhibit B** is a land plat for Sections 25 and 36 that shows the proposed **Nailed It Fed Com #222H Well** in relation to the adjoining tracts to the south in Sections 2 and 3, Block 56, Township 1 North, Loving County, Texas.

Ownership is diverse between the subject spacing unit and the tracts to the south in Texas. **Exhibit C** is a list of the parties affected by the encroachment to the south together with the tracking information reflecting notice has been provided. Since this application involves an encroachment only on the state line of Texas, Tap Rock understands the Division does not require a 20-day waiting period for approval of the unorthodox location. However, a copy of this application with all attachments has been sent by certified mail to each of the following affected parties, as defined in the Division’s Rules:

Type	Affected Party	Location	Date Sent
Operator	WPX Energy Permian, LLC 3500 One Williams Center Tulsa, OK 74172	N/2 Section 2, Blk. 56, Township 1 North (Loving County, Texas)	9/3/21
Operator	Anadarko E&P Onshore, LLC 5 Greenway Plaza, Suite 110 Houston, TX 77046	N/2 Section 3, Blk. 56, Township 1 North (Loving County, Texas)	9/3/21
Operator	SWEPI, LP P.O. Box 576 Houston, TX 77001	N/2 Section 3, Blk. 56, Township 1 North (Loving County, Texas)	9/3/21

**Exhibit D** is a statement from Tap Rock's petroleum engineer confirming that Tap Rock's requested unorthodox location is necessary to optimize well spacing, thereby preventing waste.

Your attention to this matter is appreciated.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kaitlyn Luck", written over a horizontal line.

**RE: Non-Standard Location Request**  
**Nailed It Fed Com #202H, #211H, #212H, #215H, #222H, #231H (the "Wells")**

Dear Ms. Sandoval:

Tap Rock Operating, LLC ("Tap Rock") hereby requests administrative approval of a non-standard location for the Wells referenced above by decreasing the first take point from 330 feet to 100 feet from the horizontal plane outer boundary. The Wells are located in the Purple Sage – Wolfcamp Gas Pool (Pool Code 98220). It is Tap Rock's responsibility as a prudent operator to maximize lateral length and to minimize reserves left in the ground. Decreasing the first take point will increase the Wells effective lateral length by 230 feet thereby increasing ultimate recovery of reserves and thereby preventing waste of natural resources.

Sincerely,

**TAP ROCK OPERATING, LLC**
