**Re:** Chevron U.S.A. Inc.

Request for Administrative Approval of Unorthodox Well Location

SND Javelina Unit 10 15 P610 #611H well Sections 10 and 15, T24S, R31E Eddy County, New Mexico Purple Sage; Wolfcamp (Gas) pool [98220] API No. TBD

Dear Ms. Sandoval:

Chevron U.S.A. Inc. (OGRID No. 4323), pursuant to Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC and applicable rules governing acreage and well location requirements for the Purple Sage; Wolfcamp (Gas) pool [98220], seeks administrative approval of an unorthodox well location for its **SND Javelina Unit 10 15 P610 #611H well** (API No. TBD), in a 1280-acre, more or less, spacing unit underlying Sections 10 and 15, T24S, R31E, Eddy County, New Mexico.

The proposed location is as follows:

- Surface location: 1280' FNL and 2163' FEL (Unit B) of Section 10
- Bottom hole location: 25' FSL and 1430' FEL (Unit O) of Section 15
- First take point: 330' FNL and 1430' FEL (Unit B) of Section 10
- Last take point: 100' FSL and 1430' FEL (Unit O) of Section 15

Since this acreage is governed by the Division's statewide rules, the completed interval for this well will be unorthodox because it is closer than the standard offsets to the southern boundary of

T 505.988.4421 F 505.983.6043 110 North Guadalupe, Suite 1, Santa Fe, NM 87501-1849 Mail to: P.O. Box 2208, Santa Fe, NM 87504-2208 www.hollandhart.com

Alaska Colorado

Montana Nevada New Mexico Utah Washington, D.C. Wyoming the spacing unit – thus encroaching on the E/2 of Sections 22 and 27, T24S, R31E. We note that the adjacent SND Javelina Unit 10 15 P610 #610H well is a proximity well that pulls in the W/2 of Sections 10 and 15 to become part of this Purple Sage, Wolcamp spacing unit, thus creating a 1280-acre spacing unit consisting of the entirety of Sections 10 and 15. The highlighting in Exhibit B (below) is limited to the E/2 of the spacing unit, because the captioned well is located in the E/2 of Sections 10 and 15, and the encroachment only affects the E/2 of Sections 22 and 27.

Approval of the unorthodox, completed interval will allow Chevron to use its preferred well spacing plan for horizontal wells in this area, which will maximize recovery and prevent waste.

**Exhibit A** is a Form C-102 showing the proposed SND Javelina Unit 10 15 P610 #611H well encroaches on the spacing unit/tracts to the south in the E/2 of Sections 22 and 27, T24S, R31E.

**Exhibit B** is a plat showing the E/2 of the SND Javelina spacing unit in relation to the adjoining spacing unit/tracts to the south. The affected spacing unit is operated by XTO Permian Operating, LLC. In addition, the affected spacing unit contains BLM leases. Accordingly, the "affected persons" are XTO and the United States Bureau of Land Management.

**Exhibit** C is a Mutual Release Agreement whereby XTO granted Chevron a waiver and agreed to allow Chevron to extend the laterals for six (6) Wolfcamp wells in Section 15, so long as the last take point is no closer than 100 feet from the south line of Section 15, Township 24 South, Range 31 East. The Mutual Release Agreement requires that Chevron provide notice to XTO prior to commencing completion operations.

**Exhibit D** is a spreadsheet listing all affected persons and includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application. The following are the affected persons:

Type	Affected Party	Location
Operator/	XTO Permian Operating, LLC	E/2 of
Working		Sections 22
Interest		and 27
Federal/State	United States Bureau of Land	E/2 of
Mineral	Management	Sections 22

### **MUTUAL RELEASE AGREEMENT**

This Release Agreement (the "Agreement") dated effective as of September 27, 2021 (the "Effective Date") by and between Chevron U.S.A. Inc. ("Chevron") and XTO Permian Operating, LLC ("XTO"). XTO and Chevron are sometimes referred to individually as a "Party" and collectively as the "Parties".

### RECITALS

WHEREAS, XTO and Chevron entered into that certain offsite waiver dated September 27. 2017 (the "Offsite Waiver") to provide for the location of the PLU 15 Twin Wells Ranch 907 H Well (the "Welf") from within the following lands operated by Chevron: Section 15 of Township 24 South, Range 31 East, Eddy County, New Mexico (the "Lands");

WHEREAS, following the drilling and completion of the Well, XTO discovered errors in the completion of the Well at three most heel stages near the southern boundary of Section 15 of Township 24 South, Range 31 East, Eddy County, New Mexico; and

WHEREAS, the Parties desire to enter into this Agreement to resolve and settle the errors in the completion of the Well in order to avoid the risk, hazards and burden of litigation, and as an alternate means of resolving the Parties' differences with respect to the Well.

NOW THEREFORE, for and in consideration of the mutual covenants, promises and conditions set forth herein, the receipt and sufficiency of which is acknowledged, and subject to the terms and provisions hereof, the Parties hereto agree to the following terms:

- Within sixty (60) days from the execution of this Agreement, XTO shall commence the work for remediation of the Well as described on Exhibit A, attached hereto and made a part hereof (collectively, the "Well Work"). In the event the initial data gathering described on Exhibit A requires changes to the Well Work as determined by XTO, XTO shall provide a Revised Exhibit A to Chevron and upon the mutual agreement of the Parties, such Revised Exhibit A shall replace Exhibit A attached hereto.
- Upon XTO's completion of the Well Work, XTO shall file with the Bureau of Land Management (the "BLM"), a completed Form 3160-5 reporting the subsequent Well Work operations; Form 3160-4, Well Completion or Recompletion Report and Log (the "Form 3160-4") and an updated as-drilled plat (Form C-102). Upon the BLM's approval of the Form 3160-4, XTO shall file with the New Mexico Oil Conservation Division (the "NMOCD") the updated completion document (Form 3160-4), an updated as-drilled plat (Form C-102) and a new authority to transport (Form C-104). Upon the BLM's approval of the Form 3160-4 and the NMOCD's approval of Form C-104, the Well Work shall be deemed complete and the date of the NMOCD's approval of Form C-104 shall be the "Work Completion Date". Chevron shall cooperate with XTO as reasonably necessary to support the regulatory filings described in this Section 2. XTO shall provide Chevron prompt notice of the Work Completion Date.
- Upon the Work Completion Date, XTO shall have the right to return the Well as remediated by the Well Work back to production. Chevron waives, and agrees to formally waive, any objections to the location of the wellbore of the Well as remediated by the Well Work.
- After the Well has produced for a period of one (1) year following the Work Completion Date, XTO shall conduct a positive pressure test to confirm the integrity of the patch described on Exhibit A. For such positive pressure test, the test pressure will be 500 psi over current pore pressure, held for thirty (30) minutes with no more than 10% bleed off. In the event the Well fails such positive pressure test, XTO shall (a) immediately shut-in the Well, and (b) conduct additional tests and/or remediation work as mutually agreeable to the Parties to restore and/or confirm the integrity of the patch. The Well shall remain shut-in and not be returned to production until the Parties mutually agree that the additional testing and remediation work has been successful.
- XTO hereby grants to Chevron a waiver, and agrees that it will not protest any nonstandard proration unit application filed with the NMOCD, for the six (6) Wolfcamp wells as

Page 1 of 5

# **EXHIBIT C**

Received by OCD: 6/15/2022 4:09:02 PM

approximately described on Exhibit B, attached hereto and made a part hereof, (the "Chevron Wells") to allow Chevron to extend the laterals of the Chevron Wells such that the last take point of any Chevron Well is no closer than 100 feet from the south line of Section 15 of Township 24 South, Range 31 East, Eddy County, New Mexico and the bottom hole location of any Chevron Well does not cross the south line of Section 15 of Township 24 South, Range 31 East, Eddy County, New Mexico. Prior to commencing completion operations for the Chevron Wells, Chevron shall provide at least 30 days' prior written notice to XTO.

- In consideration of the recitals, covenants and agreements set forth in this Agreement, the receipt and sufficiency of which is hereby acknowledged, Chevron hereby forever and fully releases and discharges XTO and its affiliates, and all of its and their officers, directors, agents, employees, personal representatives, agents, contractors, subcontractors, affiliates, successors and assigns, of and from any and all claims, demands, controversies, actions or causes of action, of any nature, type or character whatsoever, whether known or unknown, for compensatory damages, consequential damages, past and future interest, attorneys' fees and expenses, or any other loss or expense, whether known or unknown, arising out of or resulting from the (a) drilling, completion, location and presence of the Well on the Lands, and (b) the operation of the Well on the Lands prior to the Effective Date. The Parties acknowledge that this Release does not discharge XTO from any claims, demands, controversies, actions or causes of action, of any nature, type or character whatsoever, whether known or unknown, for compensatory damages, consequential damages, past and future interest, attorneys' fees and expenses, or any other loss or expense, which may arise from the operation of the Well after the Effective Date, including compensatory damages, consequential damages, past and future interest, attorneys' fees and expenses, or any other loss or expense arising after the Effective Date from the Well failing the positive pressure test referenced in Section 4.
- 7. In consideration of the recitals, covenants and agreements set forth in this Agreement, the receipt and sufficiency of which is hereby acknowledged, XTO hereby forever and fully releases and discharges Chevron and its affiliates, and all of its and their officers, directors, agents, employees, personal representatives, agents, contractors, subcontractors, affiliates, successors and assigns, of and from any and all claims, demands, controversies, actions or causes of action, of any nature, type or character whatsoever, whether known or unknown, for compensatory damages, consequential damages, past and future interest, attorneys' fees and expenses, or any other loss or expense, whether known or unknown, arising out of or resulting from (a) the Well Work, (b) the test to confirm the integrity of the patch described in Section 4, and (c) any additional tests and/or remediation work as mutually agreeable to the Parties to restore and/or confirm the integrity of the patch referenced in Section 4.
- 8. The Parties understand that the agreements set forth herein are done solely to compromise doubtful and disputed claims and causes of action, and that no agreement made or other consideration given shall be construed as an admission of liability on the part of the Parties, liability being expressly denied by each of them.
- 9. The Parties represent and warrant that each of them is the sole owner of their respective claims, causes of action, and rights made the subject of this Agreement, or as the Operator of Section 15 of Township 24 South, Range 31 East, Eddy County, New Mexico, Chevron is otherwise authorized to enter in to this Agreement on behalf the other non-operator owners, and they have duly authorized the representatives signing this agreement to execute it on their behalf.
- 10. This Agreement shall be governed by, construed, enforced in accordance with, and subject to, the laws of the State of Texas.
- 11. This Agreement contains the entire agreement between the Parties, with regard to the matters set forth herein, and shall be binding upon the Parties and their heirs, successors, and assign and shall inure to the benefit of the administrators, personal representatives, heirs, successors and assigns of the parties.
- 12. If any provision of this Agreement is held to be unenforceable or invalid by any court of competent jurisdiction, the validity and enforceability of the remaining provisions shall not be affected thereby. The Parties expressly agree to cooperate fully and execute any and all supplementary instruments and to take all additional actions as may be necessary or appropriate to

Received by OCD: 6/15/2022 4:09:02 PM

give full effect to the terms and intent of this Agreement, which are not inconsistent with its terms.

- 13. Each Party shall keep confidential the terms of this Agreement, except that (1) the Parties may disclose the terms of this Agreement to their respective attorneys, accountants, auditors, tax advisors, regulatory personnel, and operations personnel on a need to know basis, on the condition that such persons pledge to maintain and preserve the confidentiality of such terms and agree not to disclose such terms to any other person or entity; (2) the Parties may make such disclosures to its officers, directors, and shareholders to the extent reasonably related to the reporting of business and financial matters; (3) the Parties may make such disclosures to any person or entity to the extent reasonably necessary for the purpose of regulatory compliance, tax treatment or tax law compliance; and (4) the Parties may make such disclosures if otherwise required by law or regulation.
- 14. This Agreement, which may be executed in identical counterparts, shall be effective as of the Effective Date following the execution by all of the parties.

### The Well Work

### **Initial Data Gathering**

1. Run tractor/caliper/camera to ~13,050'

### Remediation Work

- 1. Kill Well
- 2. Pull tubing/GLVs/packer
- 3. Cleanout to 13,000'
- 4. Tractor 5-1/2" cast iron bridge plug (CIBP) and set at 12,855'
- 5. Run cement retainer and set at 12,220'
- 6. Cement squeeze interval per vendor recommendation
- 7. Drillout cement, pressure test as set forth in (i) and (ii) below and drill out CIBP
  - i. 500 psi cement squeeze pressure test prior to running the patch
  - Test pressure will be 500 psi over Pore Pressure, held for 30 minutes with no more than 10% decline
- 8. Run prep mills and prep casing for patch
- 9. Tractor 5-1/2" CIBP and set at 12,860'
- 10. Run Mohawk ReLine HYD patch and set from 12,220'-12.845' (625')
- 11. Positive test patch and upper seal element to 1,000 psi
- 12. Drillout shoe and pressure test entire patch assembly to 1,000 psi
- 13. Drill depth control plug and cleanout well
