**Re: Request for Extension of Administrative Order SWD-2444  
Choate Davis 23 State SWD No. 4**

Jerry W. Sherrell:

The Oil Conservation Division (“OCD”) has reviewed your September 28, 2022, request to extend the deadline in the referenced order to commence injection into referenced well. The request, which was received prior to the deadline, states the reasons for granting an extension, that no additional wells penetrating the approved injection interval have been drilled within the Area of Review since the referenced order was granted, and that additional affected parties in the AOR, if any, were notified of your extension request and did not protest the extension. Accordingly, OCD reviews your request administratively.

The Division finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is hereby extended for one year from the signing of this order.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order and the operator shall be required to submit a new application to obtain injection authority for the referenced well

Adrienne Sandoval  
Director
