Subject: Goodnight Midstream Permian, LLC
Injection Permit Extension Request
Rocket SWD #1 (SWD-2392)

Mr. Fuge,

Goodnight Midstream Permian, LLC (Goodnight) is requesting a one-year extension of the Injection Authority for their Rocket SWD #1 in Lea County, NM. Per the approved Injection Order (SWD-2392), the current authorization to inject expires March 2, 2024. Due to a third-party's ongoing attempts to revoke the injection authority for 10 of Goodnight's SWDs, maintaining the replacement injection capacity offered by the Rocket SWD #1 is critical to Goodnight's ability to continue supporting oil and gas production operations in the region; therefore, Goodnight is requesting the one-year extension to maintain this capacity and does intend to drill this well within the extension period.

New Mexico Oil Conservation Division (NMOCD) records were reviewed and indicated that there are no wells penetrating the injection interval within the 1/2-mile Area of Review (AOR); however, two new Affected Parties were identified within the 1/2-mile AOR and those parties have been notified of this extension request.

Attached are the approved Injection Order, 1/2-mile AOR Well Map, the 1/2-mile AOR Well Detail List, updated Statement of Notification List, and Affected Party Notice mailing confirmations (Green Sheets).
