**Re: Renewal of Temporary Permission to Discharge Hydrostatic Test Water
Holly Energy Partners - Operating, L.P. - OGRID 282505
Permit: HBP - 41**

Ms. Nolan:

The Oil Conservation Division (OCD) has completed its review of Holly Energy Partners - Operating, L.P.'s (HEP) request, dated April 23, 2024, to renew the 120-day temporary permission to discharge small quantities of hydrostatic test wastewater generated from the testing of new transmission pipelines of oil and gas or products thereof throughout the State of New Mexico, which expires on June 14, 2024. OCD acknowledges receipt of the filing fee (\$100.00) and temporary permission fee (\$50.00) within a separately mailed submittal received by OCD on April 25, 2024.

Based on the information provided in the request, *temporary permission is hereby granted to HEP for the discharge of the hydrostatic test wastewater generated from all new pipeline hydrostatic tests* an operator may perform during the approved 120-day period with the following understandings and conditions:

1. the volume of the discharge is less than 25,000 gallons per hydrostatic test;
2. water from a public/municipal water supply or other OCD approved sources, by written request and analytical results, is used for each hydrostatic test;
3. email or written notification must be provided to the OCD 72 hours prior to each hydrostatic discharge event. The notice shall contain the following information:

Holly Energy Partners - Operating, L.P.

Permit: HBP - 41

April 26, 2023

Page 2 of 3

- a.the proposed location of hydrostatic test discharge (Section/Township/Range or GPS coordinates);
 - b.the date of the proposed discharge;
 - c.the volume of the proposed discharge; and
 - d.the source of hydrostatic test water;
4. no discharge shall enter any lake, perennial stream, river, or their respective tributaries that may be seasonal;
5. no discharge shall occur:
 - a.where ground water is less than 10 feet below ground surface.
 - b.within 200 feet of a watercourse (19.15.2.7.W(4) NMAC), lakebed, sinkhole, or playa lake (19.15.2.7.P(4) NMAC);
 - c. within an existing wellhead protection area (19.15.2.7.W(8) NMAC);
 - d.within 500 feet of a wetland (19.15.2.7.W(9) NMAC); or
 - e.within 500 feet from the nearest permanent residence, school, hospital, institution, or church;
6. no discharge shall occur to a surface water body without obtaining a National Pollution Discharge Elimination Systems (NPDES) permit from the US EPA, NMED, and OCD prior to the discharge;
7. best management practices must be implemented to contain the discharge onsite, to ensure that the discharge does not impact adjacent property, and to control erosion;
8. the discharge does not cause any fresh water supplies to be degraded or to exceed standards as set forth in Subsections A, B, and C of the 20.6.2.3103 NMAC (the Water Quality Regulations);
9. HEP shall report all unauthorized discharges, spills, leaks, and releases of hydrostatic test wastewater and conduct corrective action pursuant to the Water Quality Regulations of 20.6.2.1203 NMAC and release notification pursuant to OCD Rule 29 (19.15.29 NMAC);
10. the landowner(s) of each proposed discharge and/or collection/retention or alternative discharge location must be properly notified of the activities prior to each proposed hydrostatic test event; and
11. a report, summarizing each test of new pipeline with less than 25,000 gallons per hydrostatic test per discharge event performed within the approved 120-day period, shall be submitted to OCD within 45 days after the temporary permission expiration date and shall contain the following information:
 - a.the location of hydrostatic test discharge (Section/Township/Range or GPS coordinates);
 - b.the date of each discharge;
 - c.the volume of each discharge; and
 - d.the source and quality of test water (laboratory analysis, if necessary).

Holly Energy Partners - Operating, L.P.
Permit: HBP - 41
April 26, 2023
Page 3 of 3

This temporary permission shall expire 120-days after June 14, 2024. **This temporary permission will expire on October 12, 2024.** Renewal requests for a 120-day temporary permission to discharge shall be submitted forty-five (45) days prior to the expiration date. A 120-day temporary permission may be revoked or suspended for violation of any applicable provisions and/or conditions of this approval.

Please be advised that approval of this request does not relieve HEP of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve HEP of its responsibility to comply with any other applicable governmental authority's rules and regulations.

If there are any questions, please do not hesitate to contact me at (505) 469-7486 or brad.a.jones@emnrd.nm.gov.

Respectfully,

RE: Holly Energy Partners Operating, L.P. Request for 120-Day Temporary Permission to Discharge Hydrostatic Test Water
OGRID 282505
Permit Number: HBP-041

Dear Mr. Jones,

On behalf of Holly Energy Partners Operating L.P. (HEP), I am submitting this request for renewal of the 120-Day Temporary Permission to discharge hydrostatic test water resulting from the testing of new pipelines for HEP.

Discharges will be done in a manner to control erosion and prevent sediment discharging from the site. Methods of controlling sediment include: filter bags, detention basins, utilizing a water truck to spray test waters for dust suppression on the right-of-way, working the test water into the trench spoils to aid with compaction, placing the water in the trench and allowing it to soak or evaporate.

HEP acknowledges that conditions below must be satisfied for the use of the 120-Day Temporary Permission:

- a. the volume of the discharge is less than 25,000 gallons per hydrostatic test;
- b. water from a public/municipal water supply or other OCD approved sources, by written request and analytical results, is used for each hydrostatic test;
- c. email or written notification must be provided to the OCD 72 hours prior to each hydrostatic discharge event. Each notice shall contain the following information:
 - i. the proposed location of hydrostatic test discharge (Section/Township/Range or GPS coordinates);
 - ii. the date of the proposed discharge;
 - iii. the volume of the proposed discharge; and
 - iv. the source of hydrostatic test water;

d. the discharge will not enter any lake, perennial stream, river, or their respective tributaries that may be seasonal;

e. no discharge shall occur:

- i. where ground water is less than 10 feet below ground surface.
- ii. within 200 feet of a watercourse (defined in 19.15.2.7.W(4) NMAC), lakebed, sinkhole, or playa lake (defined in 19.15.2.7.P(4) NMAC);
- iii. within an existing wellhead protection area (defined in 19.15.2.7.W(8) NMAC);
- iv. within 500 feet of a wetland (defined in 19.15.2.7.W(9) NMAC); or
- v. within 500 feet from the nearest permanent residence, school, hospital, institution, or church;

f. best management practices must be implemented to contain the discharge onsite, to ensure the discharge does not impact adjacent property, and to control erosion;

g. the discharge does not cause any fresh water supplies to be degraded or to exceed standards as set forth in Subsections A, B, and C of the 20.6.2.3103 NMAC;

h. the landowner(s) of each proposed discharge and/or collection/retention or alternative discharge location must be properly notified of the activities prior to each proposed hydrostatic test discharge event; and

i. A report, summarizing all hydrostatic test wastewater discharges of less than 25,000 gallons per hydrostatic test event, will be submitted to the OCD within 45 days after the temporary permission expiration date and shall contain the following information:

- i. the location of each hydrostatic test water discharge (Section/Township/Range or GPS coordinates);
- ii. the date of each discharge;
- iii. the volume of each discharge; and
- iv. the source and quality of test water (laboratory analysis, if necessary).

Enclosed is a check for the \$100.00 filing fee and \$50.00 for the temporary permission fee made out to the Water Quality Management Fund – New Mexico Oil Conservation Division. If you have any questions or comments, please feel free to contact me.
