Jabalina; Wolfcamp, Southwest [96776]  
API No. 30-025-50857

Dear Mr. Fuge:

Devon Energy Production Company, L.P. (“Devon”) (OGRID No. 6137), pursuant to Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC and applicable rules governing acreage and well location requirements for the Jabalina; Wolfcamp, Southwest [96776], seeks administrative approval of an unorthodox well location for its drilled and completed Arena Roja 28-33 Fed Com 701H well (API No. 30-025-50857), in a 233.58-acre, more or less, spacing unit underlying the W/2 W/2 of Section 28, and the NW/4 NW/4 and Lot 4 (W/2 NW/4 equivalent) of Section 33, Township 26 South, Range 35 East, Lea County, New Mexico.

The location for the as-drilled **Arena Roja 28-33 Fed Com 701H** well is as follows:

- Surface location: 250’ FNL and 318’ FWL (Unit D) of Section 28
- First take point: 476’ FNL and 1,001’ FWL (Unit D) of Section 28
- Last take point: 149’ FSL and 1,001’ FWL (Lot 4) of Section 33
- Bottom location: 82’ FSL and 1,058’ FWL (Lot 4) of Section 33

Since this acreage is governed by the Division’s statewide rules, the completed interval for this well is unorthodox because it is closer than the standard offsets to the eastern boundary of the

spacing unit; thus, encroaching on Devon's offsetting spacing unit comprising the E/2 W/2 of Section 28, and the NE/4 NW/4 and Lot 3 (E/2 NW/4 equivalent) of Section 33, T26S-R35E.

Devon respectfully requests administrative approval of a non-standard location for the drilled and completed **Arena Roja 28-33 Fed Com 701H** well. The as-drilled completed interval is less than 330 feet from the eastern boundary of the existing 240.00-acre offsetting horizontal well spacing unit. This well is located in the Jabalina; Wolfcamp, Southwest [96776]. In order to optimize spacing and maximize lateral drainage, the **Arena Roja 28-33 Fed Com 701H** was adjusted to be and is less than 330 feet from the eastern boundary of the spacing unit. Devon requests approval of this non-standard location because it is necessary to avoid causing wasted resources and reducing production from current and future well development in the area.

**Exhibit A** is a Form C-102 showing the **Arena Roja 28-33 Fed Com 701H** well encroaches on the unit to the east in the E/2 W/2 of Section 28, and the NE/4 NW/4 and Lot 3 (E/2 NW/4 equivalent) of Section 33, T26S-R35E.

**Exhibit B** is a plat for Sections 28 and 33, T26S-R35E, that shows the drilled and completed Arena Roja 28-33 Fed Com 701H well in relation to the adjoining unit to the east. Exhibit B also includes an ownership list for the affected unit to the east, showing that it is operated by Devon, and lists Chevron USA Inc., Northern Oil & Gas Inc., NHPP Permian LLC, and Civitas Resources, Inc. as the other working interest owners in the offsetting unit. In addition, the exhibit identifies that these include Federal leases. Accordingly, the "affected persons"<sup>1</sup> are Chevron USA Inc., Northern Oil & Gas Inc., NHPP Permian LLC, Civitas Resources, Inc., and the Bureau of Land Management ("BLM"). Also, included is a copy of Devon's courtesy notification sent to the other working interest owners stating its intent to file this administrative application.

**Exhibit C** is a spreadsheet listing all affected persons Devon provided notice and includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application. The following are the affected persons:

---

<sup>1</sup> See NMAC §§ 19.15.2.7.A(8) [defining "affected persons" as, "in the absence of an operator, or with respect to an application wherein the operator of the spacing unit or identified tract is the applicant, each working interest owner"] and 19.15.4.12.A(2)(a).
