Eddy County, New Mexico

Dear Mr. Lowe:

Pursuant to Division Rule 19.15.16.15(B)(5), Mewbourne Oil Company ("Mewbourne") respectfully requests administrative approval of a non-standard proration unit for its proposed OXBOW 23/24 FED COM #555H, OXBOW 23/24 FED COM #455H, OXBOW 23/24 FED COM #557H, and the OXBOW 23/24 FED COM #457H wells listed above. These wells will be drilled as horizontal oil wells in the Willow Lake Southeast Bone Spring Field pool (Pool Code 96217).

The OXBOW 23/24 FED COM #555H, OXBOW 23/24 FED COM #455H, OXBOW 23/24 FED COM #557H, and the OXBOW 23/24 FED COM #457H wells will be dedicated to 640-acre proration unit comprising the S2 of Section 23 and the S2 of Section 24, T-25-S, R-28-E, Eddy County, New Mexico. There are currently two existing Bone Spring Oil wells producing from within the proposed spacing unit. They are both operated by Mewbourne Oil Company. Please specifically exclude these wellbores from this NSP. They are the Oxbow 23/24 B2MP Federal Com #1Y well bearing API No. 30-015-46751 and the Oxbow 23/24 Fed Com #525H well bearing API No. 30-015-53907.

The affected offset acreage comprises the E/2 of Sec. 22, the N/2 of Sec. 23, the N/2 of Sec. 24, the W/2 of Sec. 19 (T25S, R29E), the NW/4 of Sec. 30 (T25S, R29E), the N/2 of Sec. 25, the N/2 of Sec. 26, and the NE/4 of Sec. 27 (See attached map). All the mentioned lands are in T25S-R28E, Eddy County, New Mexico unless otherwise noted within the parenthesis after the described tract. Consequently, notice of this application is being provided to all parties listed on the attached list of affected parties.

Mewbourne is seeking approval of this NSP to eliminate the need for separate production facilities and additional administrative approvals. Therefore, reducing waste while protecting correlative rights within the referenced horizontal spacing unit.

Notice by certified mail, return receipt requested, has been given to the affected parties listed in the notification list attached.

Thank you for your consideration of this application. Should you have any questions regarding the above, please email me at [bdunn@mewbourne.com](mailto:bdunn@mewbourne.com) or call me at (432) 682-3715.

Sincerely,

**MEWBOURNE OIL COMPANY**

Brad Dunn  
Landman

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is a directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is a directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

To Whom It May Concern:

Enclosed is a copy of Mewbourne Oil Company's (MOC) Application for a Non-Standard Proration Unit for the OXBOW 23/24 FED COM #555H, OXBOW 23/24 FED COM #455H, OXBOW 23/24 FED COM #557H, and the OXBOW 23/24 FED COM #457H wells covering the S/2 of Section 23 & the S/2 of Section 24, T-25-S, R-28-E, Eddy County, New Mexico. You are being sent a copy of this Application per OCD's requirements to notify the interest owners in the affected offset acreage. If you have any objection to this Application, notification should be given within 20 days of the date of this letter. The Application has been filed with the OCD as of this date.

MOC is seeking approval of the non-standard proration unit to eliminate the need for separate production facilities and additional administrative approvals. Therefore, reducing waste while protecting correlative rights with the referenced horizontal spacing unit.

If you have any questions regarding this application, please contact me via telephone at 432-682-3715 or via email at [bdunn@mewbourne.com](mailto:bdunn@mewbourne.com).

Sincerely,

**MEWBOURNE OIL COMPANY**
