RE: Administrative Order SWD-2539 First Extension of Injection Authority

Well: Le Mans SWD No. 1
Surface location: 343 feet FSL and 340 feet FEL, Unit P of Section 19,
Township 20 South, Range 27 East, NMPM, Eddy County, New Mexico
Lat: 32.552862, Long: -104.313012; NAD83
Order Date: May 3, 2024
Injection formation: Cisco Formation; 8,219 feet to 8,669 feet

Dear Kanicia,

Reference is made to your April 3, 2025, request on behalf of Permian Resources Operating, LLC (the current "operator") to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection due to a previous Extension of Injection Authority approval is: May 3, 2025.

The Oil Conservation Division ("OCD") has reviewed your correspondence which states that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the half-mile Area of Review ("AOR"). Additionally, no new Affected Parties have been identified within the half-mile AOR. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until May 3, 2026.**

SWD-2539: First Extension of Injection Authority
Permian Resources Operating, LLC
Page 2 of 2

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order and the operator shall be required to submit a new application to obtain injection authority for the referenced well.
