ADMINISTRATIVE NON-STANDARD LOCATION

Administrative Order NSL – 9076

XTO Energy, Inc. [OGRID 5380] Corral 22 34 Federal State Com Well No. 204H API No. 30-015-56560

Reference is made to your application received on August 7th, 2025.

Proposed Location

	Footages	Unit/Lot	Sec.	Twsp	Range	County
Surface	882 FNL & 1960 FWL	C	22	25S	29E	Eddy
First Take Point	100 FNL & 2130 FWL	\mathbf{C}	22	25S	29E	Eddy
Last Take Point	330 FSL & 2130 FWL	N	34	25S	29E	Eddy
Terminus	280 FSL & 2130 FWL	N	34	25S	29E	Eddy

Proposed Horizontal Units

Description	Acres	Pool	Pool Code
Section 22	1920	Purple Sage; Wolfcamp	98220
Section 27			
Section 34			

You have requested to complete this horizontal well described above in the referenced pool or formation. This well is governed by special rules R-14262, for the Purple Sage; Wolfcamp (Gas) Pool and governs wells to be located at least 330 feet from the unit outer boundary of a spacing unit and no closer than 10 feet to any quarter – quarter section line. The completed intervals of horizontal wells are to be located no closer than 330 feet to the exterior boundary of a standard 320 - acre spacing unit.

Administrative Order NSL – 9076 XTO Energy Inc. Page 2 of 2

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of First and Last Take Points referenced above within the described Horizontal Spacing Unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 100 feet to the northern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 15, encroachment to the SW/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location as your preferred well spacing plan for horizontal wells within the Wolfcamp formation underlying the entirety of Section 22, Section 27, and Section 34. Thereby maximizing recovery of resources and preventing waste.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, Division approves this unorthodox location.

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

Albert Chang

Division Director

Albert Chang, Acting Division Director Oil Conservation Division Energy, Minerals and Natural Resources Department 1220 South Saint Francis Drive Santa Fe, New Mexico 87505

Re: XTO Energy Inc.

Request for Administrative Approval of Unorthodox Well Location

Corral 22-34 Fed Com 204H well All of Sections 22, 27 and 34, T25S-R29E, Eddy County, New Mexico Purple Sage; Wolfcamp [98220] API No. 30-015-56560

Dear Mr. Chang:

XTO Energy Inc. (OGRID No. 5380), pursuant to Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC and applicable special rules governing acreage and well location requirements for the Purple Sage; Wolfcamp [98220], seeks administrative approval of an unorthodox well location for its **Corral 22-34 Fed Com 204H** well (API No. 30-015-56560), in a 1,920-acre, more or less, spacing unit underlying All of Sections 22, 27 and 34, Township 25 South, Range 29 East, Eddy County, New Mexico.

The Corral 22-34 Fed Com 204H well is an infill well. The Corral 22-34 Fed Com 203H is the defining well, creating the enlarged spacing unit.

The location of the Corral 22-34 Fed Com 204H well is as follows:

- Surface location: 882' FNL and 1,960' FWL (Unit C) of Section 22
- First take point: 100' FNL and 2,130' FWL (Unit C) of Section 22
- Last take point: 330' FSL and 2,130' FWL (Unit N) of Section 34
- Bottom hole location: 280' FSL and 2,130' FWL (Unit N) of Section 34

Since this acreage is governed by the Division's Special Pool Rules for the Purple Sage, the interval for this well is unorthodox because the proposed first take point is closer than the standard

offsets to the northern boundary of the spacing unit—thus, encroaching on the spacing unit to the north comprising All of Sections 3, 10 and 15 (XTO's Shanghai Rooster spacing unit).

XTO respectfully requests administrative approval of a non-standard location for the **Corral 22-34 Fed Com 204H**. Approval of the unorthodox interval is necessary to allow XTO to use its preferred well spacing plan for horizontal wells in this area, which will maximize recovery and prevent waste.

Exhibit A is a Form C-102 showing that the proposed first take point of the Corral 22-34 Fed Com 204H well encroaches on the spacing unit to the north in All of Sections 3, 10 and 15 (XTO's Shanghai Rooster spacing unit). Also, included is the Form C-102 for the Corral 22-34 Fed Com 203H, the defining well for the spacing unit.

Exhibit B is a plat for the subject area that shows the proposed Corral 22-34 Fed Com 204H well in relation to the offsetting adjoining spacing unit to the north, which is operated by XTO. The exhibit also identifies the other working interest owners in the offsetting adjoining spacing unit, which include: T.C. Energy, LLC, Sonic Oil & Gas, LP, G.E. Rogers, LLC, the Allar Company, and B.F. Albritton, LLC. In addition, the exhibit identifies that these are Bureau of Land Management ("BLM") leases. Accordingly, the "affected persons" are the other working interest owners and BLM.

Exhibit C is a spreadsheet listing all affected persons and includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application. The following are the affected persons:

Type	Affected Party	Location
Federal Mineral Interest	Bureau of Land Management	All of Sections 3, 10 and 15, T25S- R29E
	T.C. Energy, LLC	S/2 of Section
	Sonic Oil & Gas, LP	10 and All of
WIO	G.E. Rogers, LLC	Section 15,
	The Allar Company	T25S-R29E
	B.F. Albritton, LLC	

¹ See NMAC §§ 19.15.2.7.A(8) [defining "affected persons" as, "in the absence of an operator, or with respect to an application wherein the operator of the spacing unit or identified tract is the applicant, each working interest owner"] and 19.15.4.12.A(2)(a).

_

Your attention to this matter is appreciated.

Sincerely,

Paula M. Vance

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.
