Farmington, NM 87402

Re: Application to surface commingle and for the Off-Lease
Measurement/sale of produced natural gas for wells
to be added to Dugan Production's Sesamee Street
Gas Gathering System
San Juan County, New Mexico

Dear. Ms. Sandoval, Mr. Mankiewicz, and Ms. Garcia Richard,

Dugan Production Corp. is seeking your agency's approval to expand Dugan Production Corp.'s Sesame Street Gas Gathering System (SSGS). Dugan is adding 9 wells and 1 pool to the gathering system. We are requesting approval for surface commingling, off-lease measurement and beneficial off lease use of produced gas within Dugan's SSGS. At this time Dugan has approval for such operations for 340 wells approved for the SSGS. We have drilled 9 new wells and include Bisti Pictured Cliffs (97073) with this application. To ensure accurate allocation of production each well will be equipped with an allocation meter that will measure production from each well.

By adding these wells to the gathering system, it will allow for maximum recovery of natural resources, minimize industry footprint on the land, minimize waste through the elimination and reduction of needed equipment to operate and reduce emissions of greenhouse gases and other pollutants.

NMOCD Form 107-B is attached for this application to add the wells and pool to the gathering system. These 9 wells were drilled in the latter part of 2021.

A summary presenting the wells and production for each pool is presented on Attachment No. 4. Gas sales for the SSGS will occur at 5 separate sales meters/FMPs. Attachment No. 7 details the locations of the sales meters as well as the meter numbers.

We are also requesting the NMOCD to continue to include a provision pursuant to NMAC 19.15.12.10.C.(4)(g) in the order. Dugan will notify all new interest owners of newly acquired or drilled wells of our intentions to commingle. Interest owners of existing wells and leases of already existing assets will not be notified of any future additions. This provision will be very helpful and will significantly reduce the work effort necessary to add future wells to the gathering system.

A description of each attachment has been included for clarity and informational purposes:

Attachment No. 1 presents maps of the SSGS with the wells and proposed locations to be added highlighted in blue. The leases, meters, compression, and water disposal facilities are also identified on the map.

Attachment No. 2 presents information for the wells currently approved and the wells to be added to the SSGS. At the time of this application there are 340 wells approved to be connected to the SSGS. Dugan seeks approval for 9 more wells for the system, plus the Bisti Pictured Cliffs pool.

Attachment No. 3 presents the interest ownership for the wells to be added to the SSGS.

Attachment No. 4 presents a summary of the pools, wells, production, and leases for the SSGS. No additional leases are being added with this application.

Attachment No. 5 presents the allocation procedure being used for the SSGS.

Attachment No. 6 presents an economic comparison of connecting the proposed wells to the existing SSGS as opposed to operating each system as presently permitted. This analysis was done to illustrate the benefits connecting wells to the gathering system and to satisfy requirements set forth in 43 CFR 3173.

In addition to increasing the value of the asset there is an additional component by eliminating surface facility footprints through the elimination of excess compression as well as eliminating engine emissions that potentially contribute to climate change.

Attachment No. 7 presents facility diagrams for compression and saltwater disposal facilities needed to operate the SSGS and Juniper gathering systems. Water is piped to each SWD. This greatly optimizes operational efficiency as well as eliminates water hauling traffic and vehicle emissions.

Since the water disposal and central compression are a critical part of operating our gathering systems, we are requesting that the fuel gas needed to operate the equipment be considered a "beneficial off-lease use" for the wells connected to the gathering system.

Attachment No. 8 presents copies of our efforts to provide the required notice to all interest owners in the wells being added to the gathering system.

In summary, Dugan Production is requesting approvals to:

1. Add 9 wells and the Bisti Pictured Cliffs pool to Dugan's Sesamee Street Gathering System
2. Limit future notification efforts through NMAC 19.15.12.10 (C) (4) (g)
3. Authorize the beneficial use of off-lease fuel used by equipment necessary to operate the gathering system
4. Authorize the surface commingling of produced gas and produced water
5. Authorize the off-lease measurement of gas

Should you need additional information or have questions regarding this application, please feel free to contact me at the letterhead address.

Sincerely,

Kevin Smaka
Production Engineer

**ADMINISTRATIVE APPLICATION CHECKLIST**

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND
 REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

Applicant: Dugan Production Corp. **OGRID Number:** 006515
Well Name: Multiple (Sesamee Street Gathering System) **API:** Multiple
Pool: Various **Pool Code:** see attached application

**SUBMIT ACCURATE AND COMPLETE INFORMATION REQUIRED TO PROCESS THE TYPE OF APPLICATION
 INDICATED BELOW**

- 1) **TYPE OF APPLICATION:** Check those which apply for [A]
 A. Location – Spacing Unit – Simultaneous Dedication
☐ NSL ☐ NSP (PROJECT AREA) ☐ NSP (PRORATION UNIT) ☐ SD

B. Check one only for [I] or [II]

[I] Commingling – Storage – Measurement

☐ DHC ☒ CTB ☐ PLC ☐ PC ☐ OLS ☐ OLM

[II] Injection – Disposal – Pressure Increase – Enhanced Oil Recovery

☐ WFX ☐ PMX ☐ SWD ☐ IPI ☐ EOR ☐ PPR

- 2) **NOTIFICATION REQUIRED TO:** Check those which apply.

- A. ☐ Offset operators or lease holders
 B. ☒ Royalty, overriding royalty owners, revenue owners
 C. ☒ Application requires published notice
 D. ☒ Notification and/or concurrent approval by SLO
 E. ☒ Notification and/or concurrent approval by BLM
 F. ☐ Surface owner
 G. ☒ For all of the above, proof of notification or publication is attached, and/or,
 H. ☐ No notice required

FOR OCD ONLY

- ☐ Notice Complete
☐ Application
 Content
 Complete

- 3) **CERTIFICATION:** I hereby certify that the information submitted with this application for administrative approval is **accurate** and **complete** to the best of my knowledge. I also understand that **no action** will be taken on this application until the required information and notifications are submitted to the Division.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: Dugan Production Corp.
OPERATOR ADDRESS: P. O. Box 420, Farmington, NM 87499-0420
APPLICATION TYPE:

☐ Pool Commingling ☒ Lease Commingling ☐ Pool and Lease Commingling ☒ Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE: ☐ Fee ☒ State ☒ Federal & Navajo Allotted

Is this an Amendment to existing Order? ☒ Yes ☐ No If "Yes", please include the appropriate Order No. CTB-560-D

Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling

☒ Yes ☐ No

(A) POOL COMMINGLING

Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production		Calculated Value of Commingled Production	Volumes
See Attachments					

(2) Are any wells producing at top allowables? ☐ Yes ☐ No

(3) Have all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No.

(4) Measurement type: ☒ Metering ☐ Other (Specify)

(5) Will commingling decrease the value of production? ☐ Yes ☒ No If "yes", describe why commingling should be approved

(B) LEASE COMMINGLING

Please attach sheets with the following information

(1) Pool Name and Code.

(2) Is all production from same source of supply? ☐ Yes ☐ No

(3) Have all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No

(4) Measurement type: ☐ Metering ☐ Other (Specify) Each well will be equipped with an allocation meter or an approved method of alternative measurement

(C) POOL and LEASE COMMINGLING

Please attach sheets with the following information

(1) Complete Sections A and E.

(D) OFF-LEASE STORAGE and MEASUREMENT

Please attached sheets with the following information

(1) Is all production from same source of supply? ☒ Yes ☐ No See Attachment No. 2

(2) Include proof of notice to all interest owners. See Attachment No. 3 & 8

(E) ADDITIONAL INFORMATION (for all application types)

Please attach sheets with the following information

(1) A schematic diagram of facility, including legal location. See Attachment No. 3 & 8

(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved. Attachment No. 1

(3) Lease Names, Lease and Well Numbers, and API Numbers. See Attachment No. 2

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

Re: Dugan Production's Application dated 5/5/22
To add 9 wells/locations to Dugan Production's
Sesamee Street Gathering System
San Juan & Sandoval County, New Mexico

Dear Commissioner Garcia-Richard,

Attached are the captioned application and our check for the \$150.00 application fee.

Should you have questions or need additional information, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kevin Smaka', is written over a light blue horizontal line.

**NEW MEXICO
STATE
LAND OFFICE**

**APPLICATION FOR
COMMINGLING AND OFF-LEASE STORAGE
ON STATE TRUST LANDS**

This application form is required for all commingling applications requiring approval by the Commissioner of Public Lands.

Applicant: Dugan Production Corp.

OGRID #: 006515

Well Name: Multiple - Sesamee Street Gathering System

API #: Multiple

Pool: Basin Fruitland Coal; Mancos; WC D3; Pictured Cliffs

OPERATOR NAME: Dugan Production Corp.

OPERATOR ADDRESS: PO Box 420, Farmington, NM 87499-0420

APPLICATION REQUIREMENTS – SUBMIT:

1. New Mexico Oil Conservation Division (NMOCD) application packet (or equivalent information if no application is required by NMOCD),
2. Commingling application fee of \$150.

CERTIFICATION: To the best of my knowledge,

- All business leases and rights-of-way necessary for conducting the proposed operation on State Trust lands have been applied for or obtained,
- The information submitted with this application is **accurate** and **complete**, and
- No loss will accrue to the state of New Mexico as a result of the proposed operation.

I also understand that **no action** will be taken on this application until the required information and fee are submitted to the State Land Office.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

Notes:

- 1 - Status of well 11/1/22
- Loc = proposed general location
LOC A = proposed location - staked
LOC B = proposed location - APD submitted
NC = not connected to gathering system
P = producing, includes wells temporarily shut in but able to produce
WOC = well drilled and casing cemented but not completed. Waiting on securing a gas sales connection.
- 12 - Production from September 2021 - November 2021
- 13 - The Sesamee Street Gas Gathering System currently has 147 wells or locations approved for surface commingling and off-lease measurement & sale of gas at two central delivery sales meters:
(CDP 1) located in NESW (Unit K), Section 30, T-25N, R-10W on Enterprise Field Service Lateral 10A-1 at Enterprise Meter No. 86238.
(CDP 2) located in NWSE (Unit J), Section 2, T-24N, R-10W on Enterprise Field Services Lateral 10A-2 at Enterprise Meter No. 91083. Current regulatory approvals: for CDP 1 & 2) - BLM 3/13/17; NMOSD 3/23/17; NMOSD 3/23/17 (Commingling Order CTB-560-D)
(CDP 3) located in SWSW (Unit M), Section 1, T-24N, R-10W on Enterprise Field Services Meter No. 98708 - Regulatory approvals granted for Juniper wells being added are CTB-528 & CTB-556, with similar approvals granted by the BLM & NMOSD
(CDP 4) located in SWSW (Unit M), Section 34, T-25N, R-10W on Enterprise Field Services Meter No. 85645
(CDP 5) located in NWNW (Unit D), Section 10, T-24N, R-10W on Enterprise Field Services Meter No. 88023
(CDP 6) located in NWNE (Unit B), Section 5, T-24N, R-10W on Enterprise Field Services Meter No. 88108 - **NOT IN SERVICE**
- 14 - Well was initially approved for operation on the Goodtimes Gathering System and upon completion of expansions to the Sesamee Street Gathering System, was transferred from the Goodtimes to the Sesamee Street Gathering System on 6/13/07 (14 wells, Hop Sing 1, Hoss Com 90, Hoss 91, 91S & 92, Mary Lou 90 & 90S, Mary Lou Com 91 & 91S, Pierre Com 90, 90S, 91 & 91S, Road Runner 90).
- 15 - NMOSD Administrative Order authorizing water disposal by underground Injection: Flo Jo 8 SWD (SWD-1006), Frazzle 1 SWD (SWD-1048), Herry Monster 3 SWD (SWD-994), Mary Lou 1 SWD (SWD-1318); Juniper SWD #1 (SWD-806-B); Juniper SWD #4 (SWD-1030); Juniper West SWD #1 (SWD-1055); Tash Tah SWD 1 (SWD-1087-A), Tash Tah SWD #11 (SWD-1063-A), Tash Tah SWD 36 (SWD-1053-B)

BTU Calculation

Average BTU value is calculated from production data from September 2021 through November 2021

Pool Production and Well Production

Pool Production is average daily sum total and average daily sum per well for September 2021 through November 2021

*** - Bisti Pictured Cliffs has had no production as of 5/05/22, pending C-104 approval**

CDP Gas Sales Meter 6: Enterprise Field Services Meter #88108 located @ NWNE 5, T-24N, R-10W *(not in service)*
San Juan County, New Mexico

Base Data:

U = Water Volume (BWPD) from Periodic Well Test x days operated during allocation period.

V = Water Volume (bbl) at Central Battery during allocation period.

W = Gas Volume (MCF) from allocation meters at individual wells and central battery separator during allocation period.

X = Gas Volume (MCF) from CDP Sales Meter during allocation period.

Y = BTU's from CDP Sales Meter during allocation period.

Allocation Period is typically a calendar month and will be the same for all wells.

1. Individual Well Gas Production = A + B + C + D + E + F

A = Allocated Sales Volume, MCF = $(W / \text{SUM } W) \times X$

B = On lease fuel usage, MCF. Determined from equipment specifications, operating conditions and days operated.

C = Purged and/or vented gas from well and/or lease equipment, MCF. Calculated using equipment specifications and pressures.

D = Allocated fuel from gathering system equipment, MCF. The total fuel required to operate gathering system equipment will be allocated to the individual wells benefiting from the equipment using allocation factors determined by $(W / \text{SUM } W)$ for the wells involved.

E = Allocated volume of gas lost and/or vented from the gathering system and/or gathering system equipment, MCF. The total volume will be determined using industry accepted procedures for the conditions existing at the time of the loss. All volumes corresponding to liquid condensation within the gathering system will also be determined. The total volume lost and/or vented will be allocated to the individual wells affected using factors determined by $(W / \text{SUM } W)$.

F = Allocated gas sales volume (MCF) associated with water production = (A) in mcf for the central battery separator multiplied by a factor of $(U / \text{SUM } U)$ for wells delivering gas and water to the central battery separator.

2. Allocated Individual Well BTU's = $((W \times \text{Individual well BTU}) / \text{Sum } (W \times \text{individual well BTU})) \times Y$.

Individual well gas heating values to be determined in accordance with BLM regulations (currently Onshore Order No. 5).

3. Individual Well Water Production = Allocated production volume, bbl = $(U / \text{Sum } U) \times V$.

Attachment #7 Facility Diagrams

Typical Facility Diagram for compression facilities on Dugan's Sesame Street Gathering System

Salt Water Disposal Facility Diagram

Attachment No. 8
Interest Ownership Notification
Dugan Production Corp.'s Application dated 5/5/22
Proposing the Addition of 9 Wells to
Dugan Production's Sesamee Street Gathering System

Presenting evidence that interest ownership in the Sesamee Street Gathering System and the 9 wells proposed to be added have been given notice of Dugan's application, attached is:

1. A copy of Dugan's transmittal letter dated 5/5/22 used to send copies of the subject application to the overriding royalty interest owners in the 9 wells/locations being added to the Sesamee Street Gathering System under NMOCD Commingling Order CTB-560-D. Each overriding royalty interest owner was offered a copy of our application should they desire to receive one. Of the 9 wells/locations being added, Dugan Production will be the operator of all wells and holds 100% of the working interest in all nine of the wells. Eleven of the wells are SWD wells. All letters were sent by certified mail with a return receipt requested. Upon receiving the receipts, copies will be sent to the NMOCD.
2. The royalty interest for all 9 wells/locations being added is either federal, Navajo Allotted, or state. There is no fee royalty. Since the subject application is addressed to the Farmington Field Office of the Bureau of Land Management (for federal leases), Federal Indian Minerals Office (for Navajo Allotted leases), and the New Mexico State Land Office (for state leases) a separate notice to royalty interest owners was not needed. The applications were sent by certified mail with a return receipt requested and upon receiving the receipts, copies will be sent to the NMOCD.
3. Copy of the "Affidavit of Publication" for our advertisement published in the Legal Notice section of the Thursday, September 23, 2021, issue of the Farmington Daily Times regarding the subject application to add 9 wells/locations and the Bisti Pictured Cliffs pool to Dugan's Sesamee Street Gathering System. This publication was made in anticipation that of the notice mailed to the interest owners, there will be at least one either returned for some reason or the return receipt will be lost in the mail.

Interest Owners
Wells currently approved for operation on
Dugan Production Corp. Sesamee Street Gathering System
(Address List Attached)

Re: Dugan Production's Application dated 5/5/22 to add 9 wells and 1 pool to
Sesamee Street Gathering System
San Juan County, New Mexico

Dear Interest Owner,

According to our records, you have an interest (working, royalty, or overriding royalty) in one or more of the wells that is currently approved for the Sesamee Street Gathering System. The wells and interest owners are listed on the attached address list. You are receiving this notice for your information as required by the New Mexico Oil Conservation Division (NMOCD) and this matter does not require any action on your part. The subject application to the New Mexico Oil Conservation Division (NMOCD), Bureau of Land Management (BLM) and the State Land Office (SLO), requests their approvals to add 9 wells and 1 pool (Bisti Pictured Cliffs) to Dugan's Sesamee Street Gathering System. This will require surface commingling of gas production from the subject wells, plus the sale of gas at an off-lease central delivery sales meter (CDP). Each well will be equipped with a meter to measure production for allocation purposes. Attached for your information is a copy of Attachments No. 2 from the subject application which provides detailed information for all wells to be added and all wells currently approved. Since your interest is in wells that are currently approved, there are no costs chargeable to you. The wells to be added should not affect production from wells that are currently connected to the gathering system. This in turn means you will not see an increase or decrease in royalty generated.

This matter does not require any action on your part. Current NMOCD regulations require that all interest owners (wells in the existing system and those being added) receive notice of proposed additions to gathering systems. Included in Dugan's application, as permitted in the NMOCD rules, is a request that for future additions to the gathering system, only the interest owners in the wells to be added will require notification, provided the proposed additions will not adversely affect the existing wells. This will greatly simplify adding wells to the gathering system and should not affect the interests previously authorized to operate on the gathering system. Should you have any questions, need additional information, desire to receive a complete copy of our application, or have any concern as to our proposal, please let me know. Should you have an objection to our proposal, please let me know, or you can contact the New Mexico Oil Conservation Division directly at 1220 South St. Francis Drive, Santa Fe, NM 87505, and we would appreciate receiving a copy of your objection. Objections should be filed within 20 days after the NMOCD receives our application.

Sincerely,

Kevin Smaka
Regulatory Engineer

DUGAN PRODUCTION COR P.
POBOX 420

FARMINGTON, NM 87499

I, being duly sworn say: **Farmington Daily Times**, a daily newspaper of general circulation published in English at Farmington, said county and state, and that the hereto attached Legal Notice was published in a regular and entire issue of the said DAILY TIMES, a daily newspaper duly qualified for the purpose within the State of New Mexico for publication and appeared in the internet at The Daily Times web site on the following days(s):

09/23/2021

Dugan Production Corp. is applying to the New Mexico Oil Conservation Division (NMOCD), the Bureau of Land Management (BLM) and the New Mexico State Land Office (NMSLO), for regulatory approvals to add 9 wells and 1 Pictured Cliffs pool to Dugan Production's Sesamee Street Gathering System (SSGS). This will require the surface commingling of produced natural gas and water plus the off-lease measurement and sale of natural gas. There will not be any commingling of oil or condensate. The wells to be added, associated leases and the existing gathering system are located within Sections 2, 10 & 16 of Township 23N, Range 11W; Sections 8 & 16 of Township 23N, Range 10W; and Section 36, T-25N, R-10W, all located in San Juan County, New Mexico. The system employs 5 CDP sales meters, operated Enterprise Field Services, located at the following: Meter No. 86238, Sec. 30, T-25N, R-10W; Meter No. 91083, Sec. 2, T-24N, R-10W; Meter No. 98708, Sec. 1, T-24N, R-10W; Meter No. 85645, Sec. 34, T-25N, R-10W; Meter No. 88023, Sec. 10, T-24N, R-10W. Produced gas will be commingled from the following pools: Basin Fruitland Coal (71629), Pinon Unit; Mancos (98102), WC D3; Pictured Cliffs (96928). Any person holding an interest in any of these leases or wells may contact Dugan Production Corp. for additional information. Inquiries should be directed to Kevin Smaka at 505-325-1821 or by mail at P. O. Box 420, Farmington, NM 87499. Any objection or request for a formal hearing should be filed in writing with the NMOCD's Santa Fe Office within 20 days from the date of this publication. In the absence of objection, Dugan Production Corp. is requesting that the NMOCD approve its application administratively. The NMOCD's address is 1220 South St. Francis Drive, Santa Fe, NM 87505.

Dear Stakeholder,

Dugan Production Corp. has applied to the NMOCD, BLM and NMSLO for administrative approval to commingle production from the Basin Fruitland Coal gas pool, the Mancos gas pool, and the Bisti Pictured Cliffs pool. The gas will be gathered into a pipeline, compressed, and sold. This action will not harm, damage or devalue any of the potential production, pools or reservoirs involved in this commingling action.

If you have concerns, please contact me.

Kevin Smaka

A handwritten signature in black ink, appearing to read 'Kevin Smaka', is written over the printed name.

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION FOR SURFACE COMMINGLING
SUBMITTED BY DUGAN PRODUCTION CORP**

ORDER NO. PLC-735-A

ORDER

The Director of the New Mexico Oil Conservation Division (“OCD”), having considered the application and the recommendation of the OCD Engineering Bureau, issues the following Order.

FINDINGS OF FACT

1. Dugan Production Corp (“Applicant”) submitted a complete application to surface commingle the gas production from the pools, leases, and wells as described in Exhibit A (“Application”).
2. Applicant proposed a method to allocate the gas production to the pools, leases, and wells to be commingled.
3. Applicant proposed recovering gas production from produced water prior to its injection into the wells identified in Exhibit E.
4. Applicant provided notice of the Application to all persons owning an interest in the gas production to be commingled, including the owners of royalty and overriding royalty interests, regardless of whether they have a right or option to take their interests in kind, and those persons either submitted a written waiver or did not file an objection to the Application.
5. Applicant provided notice of the Application to the Bureau of Land Management (“BLM”) or New Mexico State Land Office (“NMSLO”), as applicable.
6. Applicant certified the commingling of gas production from the pools, leases, and wells will not in reasonable probability reduce the value of the gas production to less than if it had remained segregated.
7. Applicant in the notice for the Application stated that it sought authorization to prospectively include additional pools, leases, and wells in accordance with 19.15.12.10 C.(4)(g) NMAC.
8. Applicant stated that it sought authorization to surface commingle and off-lease measure, as applicable, gas production from wells which have not yet been approved to be drilled, but will produce from a pool and lease as described in Exhibit A.

CONCLUSIONS OF LAW

9. OCD has jurisdiction to issue this Order pursuant to the Oil and Gas Act, NMSA 1978, §§ 70-2-6, 70-2-11, 70-2-12, 70-2-16, and 70-2-17, 19.15.12. NMAC, and 19.15.23. NMAC.

10. Applicant satisfied the notice requirements for the Application in accordance with 19.15.12.10 A.(2) NMAC, 19.15.12.10 C.(4)(c) NMAC, and 19.15.12.10 C.(4)(e) NMAC, as applicable.
11. Applicant satisfied the notice requirements for the Application in accordance with 19.15.23.9 A.(5) NMAC and 19.15.23.9 A.(6) NMAC, as applicable.
12. Applicant's proposed method of allocation, as modified herein, complies with 19.15.12.10 B.(1) NMAC or 19.15.12.10 C.(1) NMAC, as applicable.
13. Commingling of gas production from state, federal, or tribal leases shall not commence until approved by the BLM or NMSLO, as applicable, in accordance with 19.15.12.10 B.(3) NMAC and 19.15.12.10 C.(4)(h) NMAC.
14. Applicant satisfied the notice requirements for the subsequent addition of pools, leases, and wells in the notice for the Application, in accordance with 19.15.12.10 C.(4)(g) NMAC. Subsequent additions of pools, leases, and wells within Applicant's defined parameters, as modified herein, will not, in reasonable probability, reduce the commingled production's value or otherwise adversely affect the interest owners in the production to be added.
15. By granting the Application with the conditions specified below, this Order prevents waste and protects correlative rights, public health, and the environment.

ORDER

1. Applicant is authorized to surface commingle gas production from the pools, leases, and wells as described in Exhibit A.

Applicant is authorized to store and measure gas production off-lease from the pools, leases, and wells as described in Exhibit A at a central tank battery or gas title transfer meter described in Exhibit A.

Applicant is authorized to surface commingle gas production from wells not included in Exhibit A but that produce from a pool and lease as described in Exhibit A.

Applicant is authorized to store and measure gas production off-lease from wells not included in Exhibit A but that produce from a pool and lease as described in Exhibit A at a central tank battery or gas title transfer meter described in Exhibit A.

Applicant is authorized to surface commingle and off-lease measure, as applicable, gas production from the well(s) identified in Exhibit D that produce from a pool and lease as described in Exhibit A.

2. This Order supersedes Orders CTB-528, CTB-528-A, CTB-556, CTB-556-A, CTB-556-B, CTB-556-C, CTB-560, CTB-560-A, CTB-560-B, CTB-560-C, CTB-560-D, CTB-570 and PLC-735.

For matters of surface commingling and off-lease storing and measuring gas production and for the wells identified in Exhibit A, this Order supersedes Orders PLC-389, PLC-389-A, OLM-84, and OLM-84-A.

3. The allocation of gas production to wells not included in Exhibit A but that produce from a pool and lease as described in Exhibit A shall be determined in the same manner as to wells identified in Exhibit A that produce from that pool and lease, provided that if more than one allocation method is being used or if there are no wells identified in Exhibit A that produce from the pool and lease, then allocation of gas production to each well not included in Exhibit A shall be determined by OCD prior to commingling production from it with the production from another well.
4. The gas production for each well identified in Exhibit A shall be separated and metered prior to commingling it with production from another well.
5. Applicant shall measure and market the commingled gas at a well pad, central delivery point, central tank battery, or gas title transfer meter described in Exhibit A in accordance with this Order and 19.15.19.9. NMAC, provided however that if the gas is vented or flared, and regardless of the reason or authorization pursuant to 19.15.28.8 B. NMAC for such venting or flaring, Applicant shall measure or estimate the gas in accordance with 19.15.28.8 E. NMAC.
6. Applicant shall calibrate the meters used to measure or allocate gas production in accordance with 19.15.12.10 C.(2) NMAC.
7. If the commingling of gas production from any pool, lease, or well reduces the value of the commingled gas production to less than if it had remained segregated, no later than sixty (60) days after the decrease in value has occurred Applicant shall submit a new surface commingling application to OCD to amend this Order to remove the pool, lease, or well whose gas production caused the decrease in value. If Applicant fails to submit a new application, this Order shall terminate on the following day, and if OCD denies the application, this Order shall terminate on the date of such action.
8. Applicant may submit an application to amend this Order to add pools, leases, and subsequently drilled wells with spacing units adjacent to or within the tracts commingled by this Order by submitting a Form C-107-B in accordance with 19.15.12.10 C.(4)(g) NMAC, provided the pools, leases, and subsequently drilled wells are within the identified parameters included in the Application.
9. If a well is not included in Exhibit A but produces from a pool and lease as described in Exhibit A, then Applicant shall submit Forms C-102 and C-103 to the OCD Engineering Bureau after the well has been approved to be drilled and prior to off-lease measuring or commingling oil or gas production from it with the production from another well. The Form C-103 shall reference this Order and identify the well, proposed method to determine the allocation of gas production to it, and the location(s) that commingling of its production will occur.

10. Applicant shall not commence commingling oil or gas production from state, federal, or tribal leases until approved by the BLM or NMSLO, as applicable.
11. If OCD determines that Applicant has failed to comply with any provision of this Order, OCD may take any action authorized by the Oil and Gas Act or the New Mexico Administrative Code (NMAC).
12. OCD retains jurisdiction of this matter and reserves the right to modify or revoke this Order as it deems necessary.
