Administrative Order NSL – 9182

Chevron U.S.A., Inc.

Page 2 of 2

19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 330 feet for an **oil** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 100 feet for a well within the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 25 feet to the northern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 35, encroachment to the SW/4 SE/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location to allow for full and efficient development of acreage within the Bone Spring formation underlying entire Section 02, thereby preventing waste.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

**Albert C.S. Chang**

Division Director

**RE: Application of Chevron U.S.A. Inc. for administrative approval of unorthodox well location for its MR 2 State Com 608H well located in a 640-acre, more or less, horizontal spacing unit comprised of Section 2, Township 24 South, Range 32 East, Lea County, New Mexico**

Dear Director Chang /OCD Engineering Bureau:

Pursuant to Division rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Chevron U.S.A. Inc. ("Chevron") (OGRID No. 4323) seeks administrative approval of an unorthodox well location ("NSL") for its MR 2 State Com 608H well (API No. 30-025-53830) (the "Well") located in Section 2, Township 24 South, Range 32 East, Lea County, New Mexico, and will be in the WC-025 G-08 S243217P; UPR Wolfcamp Pool (Pool Code 98248). A C-102 for the Well is attached as Exhibit A.

Chevron is requesting this NSL to allow for full and efficient development of this acreage.

The horizontal spacing unit to which the Well will be dedicated is described as:

Description	Acres	Pool	Pool Code
Section 2	640	WC-025 G-08 S243217P; UPR Wolfcamp	98248

The WC-025 G-08 S243217P; UPR Wolfcamp Pool is an oil pool subject to the state-wide rules, which establish a 100' setback requirement for the first and last take points of a well to the outer boundary of the spacing unit. The Well's **first take point** will be closer than 100' from the outer boundary of the spacing unit, which requires an NSL approval. As shown on Exhibit A, this is a horizontal well that will be drilled as follows:

- Surface Hole Location: 441' FNL & 2534' FWL (Unit C) of Section 2-T24S-R32E;
- Bottom Hole Location: 25' FSL & 2310' FEL (Unit O) of Section 2-T24S-R32E;
- First Take Point: 25' FNL & 2310' FEL (Unit B) of Section 2-T24S-R32E;
- Last Take Point: 100' FSL & 2310' FEL (Unit O) of Section 2-T24S-R32E.

Chevron applied for, and received, an order approving the 640-acre, more or less, non-standard unit, which is Order NSP-2304. Chevron has identified Order NSP-2304 on the C-102 in the cell labeled "Order Numbers" and Order NSP-2304 is attached as Exhibit E for your convenience.

Chevron has provided a map of the area, attached as Exhibit B, which shows the tracts upon which the unorthodox location will encroach.

As discussed above, the Well's **first take point** will be closer than 100' from the outer boundary of the spacing unit. See Exhibit A (C-102). The unorthodox location will encroach towards the S/2E/2 of Section 35, Township 23 South, Range 32 East.

**Chevron is the operator and owns 100% of the working interest in the S/2E/2 of Section 35, Township 23 South, Range 32 East.** Pursuant to Rule 19.15.4.12(A)(2) and Rule 19.15.2.7(A)(3), Chevron is thus only providing notice to the Bureau of Land Management. Proof of mailing along with a copy of the letter sent to the Bureau of Land Management are included in Exhibit C. Chevron's landman has provided a letter confirming the ownership in the S/2E/2 of Section 35, Township 23 South, Range 32 East., which is included as Exhibit D.

Your attention to this matter is appreciated.

Sincerely,

Deana M. Bennett

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

See Sheet 1 of 2 for notes & certification.

Dear Sir or Madam:

Enclosed is a copy of the above referenced applications filed with the New Mexico Conservation Division on this date. Any objections that you have to these applications must be filed in writing with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, within twenty (20) days from the date the Division receives the above-referenced applications. If no objection is received within this twenty-day period, the applications may be approved administratively by the Division.

Sincerely,

Deana M. Bennett

Dear OCD Engineering Bureau:

I am a landman for Chevron U.S.A. Inc. ("Chevron"). Chevron has requested administrative approval of non-standard locations ("NSL") for the wells referenced above (the "Wells"). As noted in the NSL application materials for these Wells, the Wells unorthodox location for the first take point will encroach towards the East half of Section 35, Township 23 South, Range 32 East.

As a landman for Chevron, I have knowledge of the ownership of the East half of Section 35, Township 23 South, Range 32 East. I confirm that Chevron is the operator and owns 100% of the working interest in the East half of Section 35, Township 23 South, Range 32 East, which is the tract upon which the Wells will encroach.

Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink that reads "Douglas C. Crawford".

MR 2 State Com Well No. 610H [API No. 30-025-53832]  
MR 2 State Com Well No. 611H [API No. 30-025-53833]

**HSU: Section 2, T24S R32E, Lea County**

Reference is made to your application received on May 28<sup>th</sup>, 2025.

You have requested approval of a non-standard horizontal spacing unit to be included in your proposed horizontal spacing unit, as follows:

**Proposed Increased Horizontal Spacing Unit:**

<b>Description</b>	<b>Acres</b>	<b>Pool</b>	<b>Pool Code</b>
Section 02	640	Wildcat; UPR Wolfcamp	98248

NSP - 2304  
Chevron U.S.A., Inc.  
Page 2 of 2

You have requested an exception pursuant to Rule 19.15.16.15(A)(3) NMAC, to approve a non-standard horizontal spacing unit consisting of the entire area described above as the horizontal spacing unit. The proposed horizontal spacing unit does not consist of a quarter - quarter section or equivalent in both sections, as required by Rule 19.15.16.15(B)(1) NMAC.

We understand that you are seeking this exception for an allowance to create a non-standard horizontal spacing unit, comprised of the Proposed Horizontal Spacing Unit referenced above within Lea County, New Mexico.

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in Paragraph (8) Subsection A of 19.15.2.7 NMAC, in all adjoining units which are to be being included.

You have requested this non-standard horizontal spacing unit to allow efficient development of acreage, to minimize surface disturbance by consolidating facilities, and to promote effective well spacing all while protecting the correlative rights within Wolfcamp formation. Therefore, preventing waste underlying all of Section 02 within the referenced Horizontal Spacing Unit.

Pursuant to the authority conferred by Division Rule 19.15.16.15(B)(5) NMAC, the above-described **non-standard horizontal spacing unit is hereby approved**. Further, the Applicant may add additional wells to the non-standard spacing unit, the well(s) must be in the same horizontal spacing unit and pool/formation. The new well's APD shall reference this NSP order number on Form C-102 with an adjacent letter stating this request.

### **General Provisions**

The above approvals are subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 19.15.5.9 NMAC.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.
