Phone (505) 476-3441 • [www.emnr.state.nm.us/ocd](http://www.emnr.state.nm.us/ocd)

Administrative Order NSL – 9210  
Chevron U.S.A., Inc.  
Page 2 of 2

---

completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 330 feet for an **oil** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 100 feet for a well within the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 25 feet to the northern and southern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 34, T24S R32E, encroachment to the SE/4 SE/4  
Section 15, T25S, R32E, encroachment to the NE/4 NE/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location to allow for full and efficient development within the spacing unit in the Wolfcamp formation underlying the E/2 of Section 03 and the E/2 of Section 10, thereby preventing waste.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

---

**RE: Application of Chevron U.S.A. Inc. for administrative approval of unorthodox well location for its CO 3 10 Federal 636H well located in a 640-acre, more or less, horizontal spacing unit comprised of the E/2 of Sections 3 and 10, Township 25 South, Range 32 East, Lea County, New Mexico**

Dear Director Chang /OCD Engineering Bureau:

Pursuant to Division rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Chevron U.S.A. Inc. (“Chevron”) (OGRID No. 4323) seeks administrative approval of an unorthodox well location (“NSL”) for its CO 3 10 Federal 636H well (API No. 30-025-54280) (the “Well”) located in a 640-acre, more or less, standard<sup>1</sup> horizontal spacing unit comprised of the E/2 of Sections 3 and 10, Township 25 South, Range 32 East, Lea County, New Mexico, and will be in the WC-025 G-08 S253216D; UPR Wolfcamp Pool (Pool Code 98270). A C-102 for the Well is attached as Exhibit A.

Chevron is requesting this NSL to allow for full and efficient development of this acreage.

The horizontal spacing unit to which the Well will be dedicated is described as:

Description	Acres	Pool	Pool Code
E/2 Sections 3 and 10	640	WC-025 G-08 S253216D; UPR Wolfcamp	98270

The WC-025 G-08 S253216D; UPR Wolfcamp Pool is an oil pool subject to the state-wide rules, which establish a 100’ setback requirement for the first and last take points of a well to the outer boundary of the spacing unit. The Well’s **first and last take points** will be closer than 100’ from the outer boundary of the spacing unit, which requires an NSL approval. As shown on Exhibit A, this is a horizontal well that will be drilled as follows:

- Surface Hole Location: 675’ FNL & 416’ FEL (Unit A) of Section 3-T25S-R32E;

---

<sup>1</sup> The 640-acre, more or less, horizontal spacing unit in which the Well will be located is standard because there is a proximity tract well within the unit, which is the CO Bobcat 3 10 Fed P607 617H well (API 30-025-53546), with a completed lateral closer than 330’ from the quarter quarter section lines in the E/2 of Sections 3 and 10.

- Bottom Hole Location: 20' FSL & 990' FEL (Unit P) of Section 10-T25S-R32E;
- First Take Point: 25' FNL & 990' FEL (Unit A) of Section 3-T25S-R32E;
- Last Take Point: 25' FSL & 990' FEL (Unit P) of Section 10-T25S-R32E.

As discussed above, the Well's **first take point and last take point** will be closer than 100' from the outer boundary of the spacing unit. *See Exhibit A (C-102).* The unorthodox location will encroach towards the S/2SE/4 of Section 34, Township 24 South, Range 32 East and the N/2NE/4 of Section 15, Township 25 South, Range 32 East.

Chevron has provided a map of the area, attached as Exhibit B, which shows the tracts upon which the unorthodox location will encroach.

**Chevron is the operator and owns 100% of the working interest in the S S/2SE/4 of Section 34, Township 24 South, Range 32 East and the N/2NE/4 of Section 15, Township 25 South, Range 32 East.** Pursuant to Rule 19.15.4.12(A)(2) and Rule 19.15.2.7(A)(3), Chevron is thus only providing notice to the Bureau of Land Management. Proof of mailing along with a copy of the letter sent to the Bureau of Land Management are included in Exhibit C. Chevron's landman has provided a letter confirming the ownership in the S/2SE/4 of Section 34, Township 24 South, Range 32 East and the N/2NE/4 of Section 15, Township 25 South, Range 32 East, which is included as Exhibit D. Chevron has included as Exhibit E a letter explaining why this application is needed.

Your attention to this matter is appreciated.

Sincerely,

Deana M. Bennett

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Non-Standard Location Application  
CO 3 10 FEDERAL 636H  
Lea County, New Mexico

Non-Standard Location Application  
CO 3 10 FEDERAL 638H  
Lea County, New Mexico

Dear OCD Engineering Bureau:

I am a landman for Chevron U.S.A. Inc. ("Chevron"). Chevron has requested administrative approval of non-standard locations ("NSL") for the CO 3 10 FEDERAL 634H; CO 3 10 FEDERAL 636H; and CO 3 10 FEDERAL 638H wells (the "Wells"). As noted in the NSL application materials for these Wells, the Wells unorthodox location for the first take point will encroach towards the S/2SE/4 of Section 34, Township 24 South, Range 32 East, and the unorthodox location for the last take point will encroach towards the N/2NE/4 of Section 15, Township 25 South, Range 32 East.

As a landman for Chevron, I have knowledge of the ownership of the S/2SE/4 of Section 34, Township 24 South, Range 32 East and the N/2NE/4 of Section 15, Township 25 South, Range 32 East. I confirm that Chevron is the operator and owns 100% of the working interest in the S/2SE/4 of Section 34, Township 24 South, Range 32 East and is the operator and owns 100% of the working interest in the N/2NE/4 of Section 15, Township 25 South, Range 32 East, which are the tracts upon which the Wells will encroach.

Thank you for your consideration.

Sincerely,

Nicholas Angelle  
Land Representative

Re: Non-Standard Location Application  
CO 3 10 FEDERAL 636H  
Lea County, New Mexico

Dear Director /OCD Engineering Bureau:

Chevron U.S.A. Inc. ("Chevron"), OGRID No. 4323, respectfully requests administrative approval of a non-standard location ("NSL") for the following wells (the "Well"):

- CO 3 10 FEDERAL 636H (API No. 30-035-54280)

The Well will be completed within the WC-025 G-08 S253216D; Upper Wolfcamp (Pool Code: 98270).

Chevron is requesting non-standard location approval for the Well because the first take point and last take point of the Well will be less than 100' from the outer boundary of the horizontal spacing unit. The completed interval for the well is standard. Allowing Chevron to complete the well at this non-standard location will result in the greatest recovery of reserves from the unit and will reduce waste.

Thank you for your consideration. Should you have any questions, please contact me at [michaelchen@chevron.com](mailto:michaelchen@chevron.com) or (661) 859-8991.

Feel free to contact me if you have any questions or concerns.

Sincerely,

Michael Chen  
Reservoir Engineer
