RE: Administrative Order SWD-2649 First Extension of Injection Authority

Well: FPNM SWD No. 6
Surface location: 1,964 feet FNL and 2,170 feet FWL, Unit F of Section 17,
Township 26 South, Range 38 East, NMPM, Lea County, New Mexico
Lat: 32.045044, Long: -103.084142; NAD83
Order Date: April 30, 2025
Injection formation: Glorieta Sandstone Formation, 5,400 feet to 5,775 feet

Dear Deana,

Reference is made to your March 10, 2026, request on behalf of WaterBridge Stateline, LLC (the current “operator”) to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after issuance of the order: April 30, 2026.

The Oil Conservation Division (“OCD”) has reviewed your correspondence which states that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the one-half mile Area of Review (“AOR”). One new Affected person has been identified within the one-half mile AOR that has been notified of this extension request and no protests were received. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby extended until April 30, 2027.**

SWD-2649: First Extension of Injection Authority
WaterBridge Stateline, LLC
Page 2 of 2

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order, and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

Date: 05/22/2026
