COMPULSORY POOLING CHECKLIST

COMPULSORY POOLING APPLICATION CHECKLIST	
ALL INFORMATION IN THE APPLICATION MUST BE SUPPORTED BY SIGNED AFFIDAVITS	
Case: 23175	APPLICANT'S RESPONSE
Hearing Date: 12/01/2022	
Applicant	Silverback Operating II, LLC
Designated Operator & OGRID (affiliation if applicable)	Silverback Operating II, LLC (OGRID #: 330968)
Applicant's Counsel:	Benjamin Holliday
Case Title:	Application of Silverback Operating II, LLC for Complusory Pooling creating standard 320-acre, more or less, overlapping horizontal spacing unit covering S/2 of Section 16-T19S-R25E, NMPM, Eddy County, NM
Entries of Appearance/Intervenors:	None
Well Family	Boyd X State Com #101H, Boyd X State Com #102H & Boyd X State Com #103H
Formation/Pool	
Formation Name(s) or Vertical Extent:	Yeso - North Seven Rivers Atoka Glorieta Yeso formation
Primary Product (Oil or Gas):	Oil
Pooling this vertical extent:	Yeso
Pool Name and Pool Code:	North Seven Rivers Atoka Glorieta Yeso formation (97565)
Well Location Setback Rules:	Statewide
Spacing Unit Size:	320-acre, more or less; S/2 of Section 16-T19S-R25E
Spacing Unit	
Type (Horizontal/Vertical)	Horizontal
Size (Acres)	320-acres, more or less
Building Blocks:	quarter - quarter: Three (3) tracts make up the S/2 unit: NW/4 SW/4; S/2 SW/4, NE/4 SW/4 & NE/4 SE/4; S/2 SE/4 & NW/4 SE/4
Orientation:	East / West - Laydown - S/2
Description: TRS/County	S/2 of Section 16-T19S-R25E, NMPM, Eddy County, NM
Standard Horizontal Well Spacing Unit (Y/N), If No, describe	Yes
Other Situations	
Depth Severance: Y/N. If yes, description	Yes; surface to the top of the Canyon formation located at 7,646' below surface in the Amole "AMM" State Com #2 well (API No. 30-015-28424). No depth severance in targeted formation.
Proximity Tracts: If yes, description	Yes. The completed interval of the Boyd X State Com #120H well will be located within 330' of the quarter-quarter section line separating the S/2 S/2 and N/2 S/2 of Section 16 to allow for the creation of a 320-acre standard horizontal spacing unit.
Proximity Defining Well: if yes, description	Boyd X State Com #102H (see below for well description info)
Applicant's Ownership in Each Tract	See information below for ownership tract info.
Well(s)	
Name & API (if assigned), surface and bottom hole location, footages, completion target, orientation, completion status (standard or non-standard)	Add wells as needed
Well #1	Boyd X State Com #101H (API No.: 30-015-49792) SHL: 598' FSL & 345' FWL of Section 15-T19S-R25E BHL: 350' FSL & 100' FWL of Section 16-T19S-R25E Target: Yeso Orientation: horizontal Completion status: standard TMD: 8330'; TVD: 3,552'; LL: 5,000'

APPLICATION AND COMPULSORY POOLING DOCKET SUMMARY

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES**

**APPLICATION OF SILVERBACK, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

CASE NO. _____

APPLICATION

Pursuant to NMSA § 70-2-17, Silverback Operating II, LLC (“Applicant”) (OGRID No. 330968), through its undersigned attorney, hereby files this Application with the Oil Conservation Division of the State of New Mexico (“Division”) for an order (1) creating a standard 320-acre, more or less, overlapping horizontal well spacing unit (“Unit”) comprised of the S2 Section 16, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico (“Unit”), and (2) pooling all uncommitted interest within the North Seven Rivers Glorieta Yeso Formation, designated as an oil pool, underlying said Unit. In support of its Application, Applicant states the following:

1. Applicant is a working interest owner in the Unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced Unit to the following wells, referred to collectively as the Wells:
 - a. **Boyd X State Com 101H**, API No. 30-015-49792, which is an oil well that has been horizontally drilled from a surface hole location in the SW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW4 SW4 of Section 16, Township 19 South, Range 25 East;
 - b. **Boyd X State Com 102H**, which is an oil well that has been horizontally drilled from a surface hole location in the SW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW4 SW4 of Section 16, Township 19 South, Range 25 East;
 - c. **Boyd X State Com 103H** (“Wells”), which is an oil well that has been horizontally drilled from a surface hole location in the NW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the NW4 SW4 of Section 16, Township 19 South, Range 25 East.

3. The completed interval of the Wells will be orthodox and remain within 330 feet of the adjoining quarter-quarter section (or equivalent) tracts to allow inclusion of these proximity tracts within the proposed Unit under NMAC 19.15.16.15(B)(1)(6).
4. The Unit will overlap the following existing vertical well spacing units covering portions of the subject acreage:
 - a. A compulsory pooling order dated April 8, 1993, issued in Case No. 10709, Order No. R-9883, forming a standard 160-acre spacing unit and pooling all mineral interests from the Surface to the Base of the Canyon Formation underlying the SW4 Section 16, Township 19 South, Range 25 East, NMPM;
 - b. A compulsory pooling order dated August 10, 1995, issued in Case No. 11310, Order No. R-10520, forming a standard 160-acre spacing unit and pooling all mineral interests from the Surface to the Base of the Canyon Formation underlying the SE4 Section 16, Township 19 South, Range 25 East, NMPM.
5. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Wells but has been unable to obtain voluntary agreements from all interest owners.
6. The approval of this overlapping Unit and pooling of uncommitted interests within the Unit will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
7. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant should be designated the operator of the Wells and Unit.

WHEREFORE, Applicant requests this Application be set for hearing November 3, 2022, and that after notice and hearing, the Division enter an order

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Wells in the Unit;
- C. Designating Applicant as operator of the Unit and the Wells;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the Wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

- F. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Wells against any working interest owner who does not voluntarily participate in the drilling of the Wells.

Respectfully submitted,

HOLLIDAY ENERGY LAW GROUP, PC

Counsel for Silverback Operating II, LLC

Proposed Hearing Notice – Case No. 21375

Application of Silverback Operating II, LLC for Compulsory Pooling, Eddy County, New Mexico. Applicant seeks an order pooling all uncommitted interests in the North Seven Rivers Glorieta Yeso Formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 Section 16, Township 19 South, Range 25 East, Eddy County, New Mexico (“Unit”). The Unit will be dedicated to the Boyd X State Com #101H well (“101H Well”), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19 South, Range 25 East, the Boyd X State Com #102H well (“102H Well”), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19 South, Range 25 East, and the Boyd X State Com 103H well (“103H Well”), which will be horizontally drilled from a surface hole location in the NW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 of Section 16, Township 19 South, Range 25 East. The 101H Well, 102H Well, and 103H Well are referred to collectively herein as the “Wells.” The completed interval of the Wells will be orthodox. Also to be considered will be the cost of drilling and completing the Wells and the allocation of the cost, the designation of Applicant as the operator of the Wells, and a 200% charge for the risk involved in drilling and completing the Wells. The Wells are located approximately 10 miles West of Lakewood, New Mexico.

EXHIBIT A

AFFIDAVIT OF LARRY COSHOW

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF SILVERBACK, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

CASE NO. 23175

AFFIDAVIT OF LARRY COSHOW

Larry Coshow, being first duly sworn and upon oath, deposes and states as follows:

1. My name is Larry Coshow, and I am a landman with Silverback Operating II, LLC (“Silverback”). I have worked horizontal developments in Oklahoma, New Mexico, and Texas. I am a graduate of the University of Oklahoma with a Bachelor’s in Petroleum Land Management, and a Master of Business Administration from Oklahoma City University. I am accredited as a Certified Professional Landman by the American Association of Professional Landmen, and am member in good standing of this organization and the Oklahoma City Association of Professional Landmen. I believe that my education and work experience qualify me to testify as an expert in oil and gas land matters. A copy of my resume is attached as Silverback Exhibit A-1.

2. I am submitting this affidavit in support of Silverback’s application in the above-referenced case pursuant to 19.15.14.12(A)(1) NMAC.

3. I am familiar with the application filed by Silverback in this case, and I am familiar with the status of the lands in the subject area. Copies of Silverback’s Application and the Proposed Hearing Notice are attached as Silverback Exhibit A-2.

4. None of the parties to be pooled in this case have indicated opposition to this matter proceeding by affidavit to the Division, and therefore I do not expect any opposition at the hearing.

5. In this case, Silverback seeks an order pooling all uncommitted interest owners in the following spacing unit:

- a. The proposed spacing unit is a 320-acre, more or less, standard horizontal spacing unit in the North Seven Rivers Atoka Glorieta Yeso Formation, Pool Code 97565, comprised of the S/2 of Section 16, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico (“Spacing Unit”). The Spacing Unit includes proximity tracts, and the defining well for proximity tract purposes is the Boyd X State Com 102H. The completed interval of the Boyd X State Com 102H well is within 330 feet of the adjoining quarter-quarter section tracts separating the N/2 S/2 and S/2 S/2 of Section 16 to allow inclusion of those tracts within the proposed 320-acre horizontal spacing unit under NMAC 19.15.16.15B(1)(b).
- b. The Spacing Unit will be initially dedicated to the following wells (collectively the “Wells”):
 - i. **Boyd X State Com 101H**, API No. 30-015-49792, which is an oil well that has been horizontally drilled into the North Seven Rivers Atoka Glorieta Yeso formation from a surface hole location in the SW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW4 SW4 of Section 16, Township 19 South, Range 25 East;
 - ii. **Boyd X State Com 102H**, API No. 30-015-49793, which is an oil well that has been horizontally drilled into the North Seven Rivers Atoka Glorieta Yeso formation from a surface hole location in the SW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW4 SW4 of Section 16, Township 19 South, Range 25 East;
 - iii. **Boyd X State Com 103H**, API No. 30-015-49793, which is an oil well that will be horizontally drilled into the North Seven Rivers Atoka Glorieta Yeso

formation from a surface hole location in the NW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the NW4 SW4 of Section 16, Township 19 South, Range 25 East.

6. Silverback Exhibit A-3 contains a general location map outlining the Spacing Unit being pooled in Case No. 23175 in relation to the surrounding area in Eddy County. The acreage in the Spacing Unit contains state lands.

7. Silverback Exhibit A-4 contains the form C-102s for the Wells. The Oil Conservation Division has placed the Wells in the North Seven Rivers Atoka Glorieta Yeso Formation, Pool Code 97565. The location of each of the Wells is orthodox and meets the Division's offset requirements.

8. Our records indicate that this Spacing Unit will overlap two existing deeper spacing units dedicated to vertical wells in the Canyon Formation as follows:

- a. A spacing unit created by Division Order No. R-9883, dated April 19, 1993, in Case No. 10709, ordering that all interests from the Surface to the Base of the Canyon formation underlying the SW/4 Section 16, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico, be pooled to form a standard 160-acre spacing and proration unit within said lands and depths. This spacing unit was dedicated to the Amole "AMM" State Com Well No. 1, API No. 30-015-27314, a vertical well in the North Dagger Draw-Upper Pennsylvanian Pool. Silverback is the current operator of the Amole "AMM" State Com Well No. 1.
- b. A spacing unit created by Division Order No. R-10520, dated November 20, 1995, in Case No. 11310, ordering that all interests from the Surface to the Base of the Canyon formation underlying the SE/4 Section 16, Township 19 South, Range 25

East, NMPM, Eddy County, New Mexico, be pooled to form a standard 160-acre spacing and proration unit within said lands and depths. This spacing unit was dedicated to the Boyd "X" Well No. 10, API No. 30-015-28541, a vertical well in the North Dagger Draw-Upper Pennsylvanian Pool. Spur Energy Partners, LLC is the current operator of the Boyd "X" Well No. 1. Silverback provided notice of the overlapping Spacing Unit to Spur Energy Partners, LLC, the operator. After twenty days, no objection was received.

- c. Notice of the Spacing Unit in this case was provided to all "affected persons" in the existing spacing unit and proposed overlapping horizontal spacing unit.
- d. Silverback Exhibit A-5 contains a plat depicting the two existing vertical well spacing units underlying the subject acreage in relation to the shallower proposed Spacing Unit.

9. There are no depth severances in the North Seven Rivers Atoka Glorieta Yeso Formation underlying the subject acreage.

10. Silverback Exhibit A-6 contains a plat outlining the Spacing Unit being pooled in Case No. 23175. This Exhibit also identifies each tract number, tract percentage interest, and Spacing Unit percentage interest for the interest owners being pooled and their last known addresses. The "uncommitted" working interest owners and overriding royalty interest owners that remain to be pooled in this case are marked in yellow. In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the wells are located, phone directories, internet databases, and performed internet searches to locate the contact information for parties entitled to notification. As is detailed on Silverback Exhibit A-7, various of the working interest owners were locatable, notice was provided, and a green card was returned.

Various other parties were deemed unlocatable after a diligent search, and Silverback caused notice to be published more than ten (10) business days prior to the compulsory pooling hearing in the Carlsbad Current Argus in accordance with 19.15.4.12(B) NMAC; Silverback Exhibit A-8 contains a copy of the legal advertisement, as well as the affidavit of publication. I provided the law firm of Holliday Energy Law Group, PC, with the name and addresses for all uncommitted interests.

11. Silverback sent well proposal letters for the Wells, together with corresponding AFEs, to the working interest owners in this case. Silverback Exhibit A-9 is a sample of the well proposal letter, along with the AFEs, sent to these working interest owners. The estimated costs of the Wells set forth in the AFEs are fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

12. Silverback requests overhead and administrative rates of \$8,000/month for drilling each well and \$800/month for producing each well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of New Mexico. Silverback respectfully requests that these administrative and overhead costs be incorporated into any orders entered by the Division in this case.

13. Silverback requests the maximum cost, plus 200% risk charge, be assessed against the non-consenting working interest owners.

14. Silverback requests that it be designated operator of the unit and Wells.

15. Silverback has been able to locate contact information for the working interest owners that it seeks to pool and has undertaken good faith efforts to reach an agreement with the locatable uncommitted interest owners. Silverback Exhibit A-10 contains a chronology of the

contacts with the working interest owners that Silverback seeks to pool. Silverback has made a good faith effort to obtain voluntary joinder of the working interest owners in the Wells.

16. The working interest owners being pooled either have been contacted regarding the Wells or have been provided notice by publication as set forth above, but in either case have failed or refused to voluntarily commit their interest in the Wells. If a mutually agreeable Joint Operating Agreement is reached between Silverback and an interest owner, I will inform the Division that Silverback is no longer seeking to pool that party, and Silverback requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent that the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the prevention of waste, and the protection of correlative rights.

17. Silverback Exhibits A-1 through A-10 were either prepared by me or compiled under my direction and supervision.

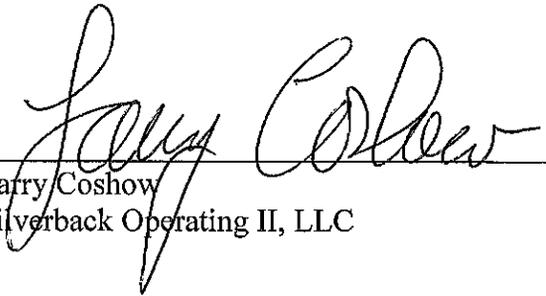

18. The granting of this application is in the best interest of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

19. I swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

[Remainder of the page intentionally left blank.]

FURTHER AFFIANT SAYETH NOT.

Dated this 29th day of November, 2022.

 Larry Coshow
 Silverback Operating II, LLC

LAND MANAGER

Accomplished Land Executive, Land Manager, Land Advisor, Land Director and landman with significant experience in overseeing and managing land activities, maintenance and acquisitions for leading oil & gas organizations. Background in planning and executing land acquisition and drilling programs, cultivating deal flow from prospect inception to gas/oil sales, recruiting, training, mentoring and aligning employees, managing and organizing small-to-large land staffs, negotiating and drafting leases, contracts and agreements and overseeing and managing mergers and acquisitions of up to \$6B. Core Competencies include:

Negotiations | Communications | Relationship Building | Strategic Planning | Contracts | Business Development

PROFESSIONAL EXPERIENCE

Silverback New Mexico, LLC, San Antonio/Oklahoma City

May 2022 - Present

Contract Land Professional, Eddy County Asset Team

- Oversee acquisition/divestiture of assets in Eddy County, New Mexico, including negotiation, preparation and execution of purchase and sale agreements, due diligence, closing documents.
- Liaison with legal counsel to obtain title opinions and requisite regulatory authority to drill and produce company assets.
- Draft and prepare diverse land contracts and agreements used in oil and gas operations in exploration, acquisitions, regulatory, title, etc.
- Oversee lease and prospect acquisitions, title procurement, acreage trades, and all matters related to developing Silverback's position in Eddy County.

BP America Production Company | BPX Energy, Inc, Oklahoma City/Houston/Denver

Sept. 2015 – May 2022

Land Director, Mid-Con Development Business Unit | Senior Land Advisor, Permian & Haynesville Development Business Units

Supervised, planned, directed and coordinated a land department staff of one Land Manager, four Staff Landmen, three contract landmen, one regulatory analyst, and one surface landman handling rig count from 2-5 rigs in Oklahoma and Texas Panhandle.

- Led recruiting, interviews and hiring of current staff in Oklahoma City office from relocating after Hurricane Harvey, involved in interviews with other land staff needs in the other company business units.
- Served as mentor, teacher, leader, guide, collaborator, etc. to the young land staff to help in their understanding and development in the land department and company.
- Reviewed existing BP land practices, processes and policies and put into play guidelines to make land department more effective internally and across the other company disciplines in Land Administration, division orders, regulatory, reserves, accounting and finance.
- Conducted weekly land team meetings and individual meetings with the land staff to discuss, share and set corporate, department and individual strategic priorities and goals on individual work projects, land related issues, land policies, rig schedule, lease maintenance issues, etc.
- Met with SVP of Development weekly to review and discuss land projects, business development opportunities, trade strategies, processes/practices, personnel, rig lines, land budget and spend, day-to-day responsibilities, etc. and update on department progress and performance.
- Worked with the Land Managers in the other Business Units to ensure practices, policies and processes are followed company-wide, discuss successes, failures and lessons learned,
- Planned, prepared and presented at monthly business review meetings with senior/executive leadership the previous month's land highlights, successes, land leasing activity, business development opportunities and land budget spend.
- Attended and participated in industry-sponsored events to network with industry partners, operators, landmen, business development and industry contacts and promote company.

ZaCale Resources Company, LLC, Oklahoma City, OK

April 2008 – Present

President/Owner-Landman consulting firm

Delivered outsourced in-house landman consulting services for small to large independent companies in Arkansas, Kansas, Louisiana, Montana, North Dakota, New Mexico, Wyoming, Colorado, Oklahoma and Texas from prospect inception to first sales.

- Provided consulting services to up to six clients.
- Delivered acquisition/divestiture services to oil and gas companies from negotiation, preparation and execution of purchase and sale agreement, due diligence, closing documents, preparation, working with third-party Buyer and Seller legal counsel, and closing and post-closing adjustments. Worked with acquisition and divestiture packages totaling over \$10B in the U.S., Canada, and South America. Researched and analyzed A&D opportunities and screened these opportunities for clients.
- Drafted and prepared diverse land contracts and agreements used in oil and gas operations in exploration, acquisitions, regulatory, title, etc.

- Handled lease and prospect acquisitions, title procurement and closing of these transactions.
- Analyzed a company organization, policies and procedures and aid in their efforts to streamline their company processes to become more effective and efficient and to cut any unnecessary expenses.
- Examined records of companies involved in a litigation dispute to obtain necessary documents required contract obligations and establish well files and system for client.
- Analyzed and aided in the research of various land/accounting-based computer software systems on the market to best fit the right program for the needs of the client.
- Worked geological generated prospects from prospect inception through seeing the well drilled and completed.
- Set up division order decks for a small company producer and worked with staff and IT department to monitor proper payment and updates as needed.
- Worked an area for a mid-size company to put wells together on their rig schedule by proposing wells, filing regulatory applications, negotiating and preparing oil and gas leases, contracts and agreements, settling surface damages, obtaining drilling permits, title procurement, assignments, etc.
- Acquired right-of-way and easements to get injection/disposal well-drilled and hooked up located in a housing addition.
- Prepared assignments to third-party obligations associated with contracts and agreements.

Matador Resources Company, Dallas, TX

May 2014 – May 2015

General Land Manager-Small public-traded Independent Oil & Gas Company in Mid-Continent area

Supervised a land department staff of six landmen, three land techs, two lease analysts and three-division order personnel handling rig schedules from 3-6 drilling rigs covering company assets in Louisiana/East Texas (Cotton Valley/Haynesville), South Texas (Eagle Ford, Buda, Austin Chalk), West Texas/New Mexico (Bone Springs, Wolfcamp, Spraberry, Clear Fork, Avalon, Brushy Canyon).

- Reviewed, recommended, and implemented best practices, procedures and policies to organize the land well files, lease records, land database and reporting to the other departments within the company. Upon arrival the company didn't have this system in place.
- Planned and led weekly land-legal meetings reviewing projects and tasks between land and legal department on land operations matters and presented weekly status of wells on the rig schedule as they are being worked by the land department and building inventory of wells getting them ready to drill.
- Conducted land team meetings and individual meetings with the land staff to discuss individual work projects, land-related issues, land policies, rig schedule, lease maintenance issues, etc.
- Created a landforms template system on company server so that land staff personnel would have access to land and legal approved title curative forms, assignment forms, lease forms, lease provisions, operating agreement, farmout/farmin agreement, surface use agreement, ROW/Easement agreement, regulatory forms, etc. Upon arrival the company didn't have a system like this in place.
- Prepared, updated and maintained various reports for land department tracking company oil and gas leases owned and being acquired, assignment obligations, consent to assign, contract/agreement obligations, surface contract report, pre-drill checklist report, lease expiration reports, lease obligation report, critical/must spud dates and issued weekly and monthly reports and built a well property list of company-operated and non-operated wells.
- Created and maintained a virtual well file system on company server that contains all of the information electronically and digitally on the company hard copy oil and gas lease files, contract files, assignment files and land well files for company-operated and non-operated wells. Upon arrival the company didn't have this system in place.
- Reviewed daily regulatory hearing applications on company-operated and non-operated wells and incorporated the appropriate action as needed based on team lead directives.
- Monitored competitor activity for opportunities and acquire interest to participate in wells being planned by third-party operators in areas defined by the management team that the company wants to be involved in.
- Reviewed and screened acquisition opportunities and third-party prospect deals for the company and make recommendations to CEO on deals worth pursuing possible participation by company.
- Coordinated and participated in company due diligence duties in acquisition data rooms the company is pursuing and reported finding to CEO and other company personnel.
- Designed and set up land administration and division order policies and procedures and training within the company.
- Drafted and prepared for execution of all types of land contracts and agreements used in oil and gas operations in exploration, acquisitions, regulatory, title, etc.

CASE NO. 21375 APPLICATION AND NOTICE SUMMARY

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES**

**APPLICATION OF SILVERBACK, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

CASE NO. _____

APPLICATION

Pursuant to NMSA § 70-2-17, Silverback Operating II, LLC (“Applicant”) (OGRID No. 330968), through its undersigned attorney, hereby files this Application with the Oil Conservation Division of the State of New Mexico (“Division”) for an order (1) creating a standard 320-acre, more or less, overlapping horizontal well spacing unit (“Unit”) comprised of the S2 Section 16, Township 19 South, Range 25 East, NMPM, Eddy County, New Mexico (“Unit”), and (2) pooling all uncommitted interest within the North Seven Rivers Glorieta Yeso Formation, designated as an oil pool, underlying said Unit. In support of its Application, Applicant states the following:

1. Applicant is a working interest owner in the Unit and has the right to drill thereon.
2. Applicant seeks to dedicate the above-referenced Unit to the following wells, referred to collectively as the Wells:
 - a. **Boyd X State Com 101H**, API No. 30-015-49792, which is an oil well that has been horizontally drilled from a surface hole location in the SW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW4 SW4 of Section 16, Township 19 South, Range 25 East;
 - b. **Boyd X State Com 102H**, which is an oil well that has been horizontally drilled from a surface hole location in the SW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW4 SW4 of Section 16, Township 19 South, Range 25 East;
 - c. **Boyd X State Com 103H** (“Wells”), which is an oil well that has been horizontally drilled from a surface hole location in the NW4 SW4 of Section 15, Township 19 South, Range 25 East, to a bottom hole location in the NW4 SW4 of Section 16, Township 19 South, Range 25 East.

3. The completed interval of the Wells will be orthodox and remain within 330 feet of the adjoining quarter-quarter section (or equivalent) tracts to allow inclusion of these proximity tracts within the proposed Unit under NMAC 19.15.16.15(B)(1)(6).
4. The Unit will overlap the following existing vertical well spacing units covering portions of the subject acreage:
 - a. A compulsory pooling order dated April 8, 1993, issued in Case No. 10709, Order No. R-9883, forming a standard 160-acre spacing unit and pooling all mineral interests from the Surface to the Base of the Canyon Formation underlying the SW4 Section 16, Township 19 South, Range 25 East, NMPM;
 - b. A compulsory pooling order dated August 10, 1995, issued in Case No. 11310, Order No. R-10520, forming a standard 160-acre spacing unit and pooling all mineral interests from the Surface to the Base of the Canyon Formation underlying the SE4 Section 16, Township 19 South, Range 25 East, NMPM.
5. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Wells but has been unable to obtain voluntary agreements from all interest owners.
6. The approval of this overlapping Unit and pooling of uncommitted interests within the Unit will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
7. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant should be designated the operator of the Wells and Unit.

WHEREFORE, Applicant requests this Application be set for hearing November 3, 2022, and that after notice and hearing, the Division enter an order

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Wells in the Unit;
- C. Designating Applicant as operator of the Unit and the Wells;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the Wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

- F. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Wells against any working interest owner who does not voluntarily participate in the drilling of the Wells.

Respectfully submitted,

HOLLIDAY ENERGY LAW GROUP, PC

Counsel for Silverback Operating II, LLC

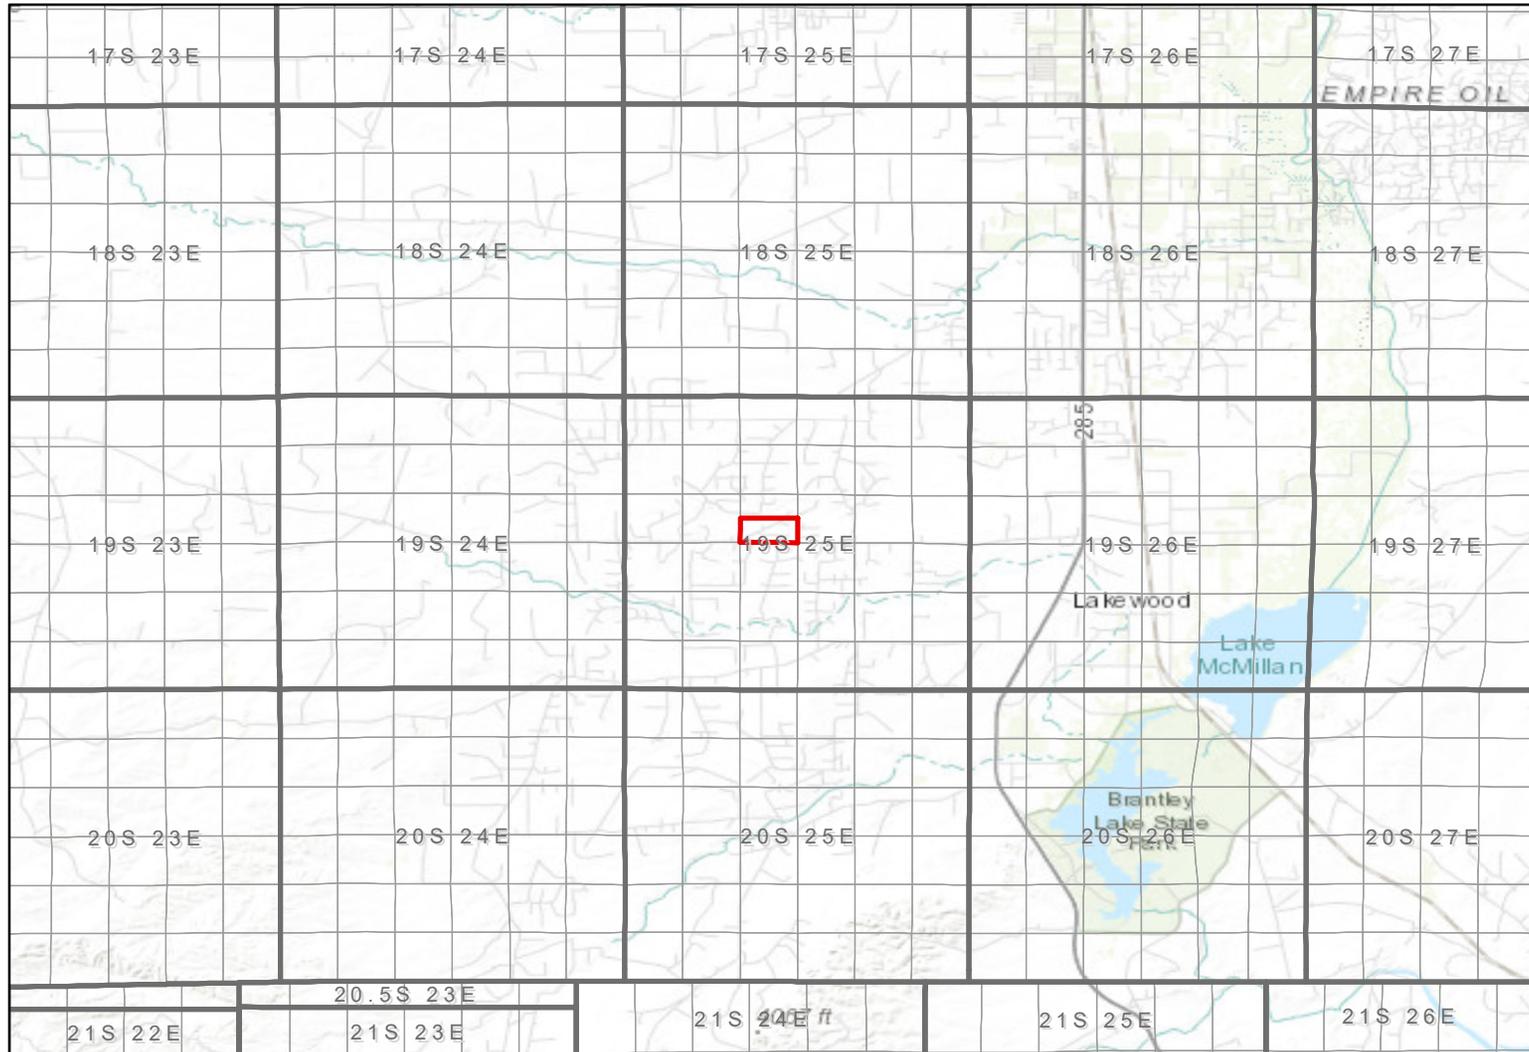

Proposed Hearing Notice – Case No. 21375

Application of Silverback Operating II, LLC for Compulsory Pooling, Eddy County, New Mexico. Applicant seeks an order pooling all uncommitted interests in the North Seven Rivers Glorieta Yeso Formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 Section 16, Township 19 South, Range 25 East, Eddy County, New Mexico (“Unit”). The Unit will be dedicated to the Boyd X State Com #101H well (“101H Well”), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19 South, Range 25 East, the Boyd X State Com #102H well (“102H Well”), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19 South, Range 25 East, and the Boyd X State Com 103H well (“103H Well”), which will be horizontally drilled from a surface hole location in the NW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 of Section 16, Township 19 South, Range 25 East. The 101H Well, 102H Well, and 103H Well are referred to collectively herein as the “Wells.” The completed interval of the Wells will be orthodox. Also to be considered will be the cost of drilling and completing the Wells and the allocation of the cost, the designation of Applicant as the operator of the Wells, and a 200% charge for the risk involved in drilling and completing the Wells. The Wells are located approximately 10 miles West of Lakewood, New Mexico.

This is not an invoice

THE ENERGY LAW GROUP
4040 BROADWAY ST , SUITE 350

SAN ANTONIO, TX 78209

I, a legal clerk of the **Carlsbad Current Argus**, a newspaper published daily at the City of Carlsbad, in said county of Eddy, state of New Mexico and of general paid circulation in said county; that the same is a duly qualified newspaper under the laws of the State wherein legal notices and advertisements may be published; that the printed notice attached hereto was published in the regular and entire edition of said newspaper and not in supplement thereof in editions dated as follows:

11/16/2022

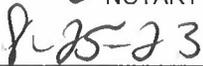

Legal Clerk

Subscribed and sworn before me this November 16, 2022:

State of WI, County of Brown
NOTARY PUBLIC

My commission expires

SHELLY HORA
Notary Public
State of Wisconsin

Ad # 0005486072
PO #: 5486072
of Affidavits 1

This is not an invoice

This is to notify the following entities, individuals, their heirs, personal representatives, trustees, successors or assigns, and any other uncommitted mineral owners:

Ernie Bello; Francis B. Bunn; J.W. Gendron Estate; David Goodnow; Joseph R. Hodge; Sanford Hodge III; EG Holden Testamentary Trust; Dr. Isaac A. Kawaski; Betsy H. Keller; Charles Cline Moore; Yates Employees '87, Ltd.; Adolph Schuman Marital Trust; Space Building Corp.; J. Frederick Van Vranken; Brown Brothers Harriman Trust Company of Texas, Successor Trustee of the Robert A. Oliver Trust; Brown Brothers Harriman Trust Company of Texas, Successor Trustee of the Judith C. Devine; Brown Brothers Harriman Trust Company of Texas, Successor Trustee of the Brian D. Woehler Trust; Brown Brothers Harriman Trust Company of Texas, Successor Trustee of the Agnes Cluth Oliver Trust; Nearburg Exploration Company; BAS Energy, LP; and Richard Norman.

Case No. 23175, Application of Silverback Operating II, LLC for the Compulsory Pooling of the S/2 Section 16, Township 19 South, Range 25 East Eddy County, New Mexico, as to the Glorieta Yeso Formation is set for hearing on Thursday, December 1, 2022 at 8:15 a.m. before a Division Examiner at the New Mexico Oil Conservation Division. Hearing may be viewed online by going to <https://www.emnrd.nm.gov/ocd/hearing-info/>. Applicant's attorney is Benjamin Holliday, Holliday Energy Law Group, 4040 Broadway, Suite 350, San Antonio, TX 78209, ben@theenergylawgroup.com, and the Application is on behalf of Silverback Operating II, LLC, whose address is 19707 West IH 10, Suite 201, San Antonio, Texas, 78257. Applicant seeks an order pooling all uncommitted interests in the North Seven Rivers Glorieta Yeso Formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 Section 16, Township 19 South, Range 25 East, Eddy County, New Mexico ("Unit"). The Unit will be dedicated to the Boyd X State Com #101H well ("101H Well"), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19 South, Range 25 East, the Boyd X State Com #102H well ("102H Well"), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19

South, Range 25 East, and the Boyd X State Com 103H well ("103H Well"), which will be horizontally drilled from a surface hole location in the NW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 of Section 16, Township 19 South, Range 25 East. The 101H Well, 102H Well, and 103H Well are referred to collectively herein as the "Wells." The completed interval of the Wells will be orthodox. Also to be considered will be the cost of drilling and completing the Wells and the allocation of the cost, the designation of Applicant as the operator of the Wells, and a 200% charge for the risk involved in drilling and completing the Wells. The Wells are located approximately 10 miles West of Lakewood, New Mexico.

RE: Horizontal Well Proposals
Silverback Operating II, LLC: **Boyd X State Com 101H, Boyd X State Com 102H and Boyd X State Com 103H**
S/2 of Section 16-T19S-R25E
Eddy County, New Mexico

Dear Working Interest Owner,

Silverback Operating II, LLC ("SILVERBACK"), an affiliate of Silverback New Mexico, LLC, hereby proposes to drill and complete the **Boyd X State Com 101H, Boyd X State Com 102H and Boyd X State Com 103H** wells to the approximate total vertical depths as referenced below as horizontal Yeso wells (the "Subject Wells") at the following proposed locations (subject to change upon staking and survey).

Boyd X State Com 101H - Horizontal Yeso Well, Eddy County, NM

- Proposed Surface Hole Location - 598' FSL & 345' FWL, Section 15, T19S-R25E
- Proposed Bottom Hole Location - 350' FSL & 100' FWL, Section 16, T19S-R25E
- AVG TYO: 3,552'

Boyd X State Com 102H- Horizontal Yeso Well, Eddy County, NM

- Proposed Surface Hole Location – 618' FSL & 345' FWL, Section 15, T19S-R25E
- Proposed Bottom Hole Location – 1,150' FSL & 100' FWL, Section 16, T19S-R25E
- AVG TYO: 3,552'

Boyd X State Com 103H- Horizontal Yeso Well, Eddy County, NM

- Proposed Surface Hole Location – 1,950' FSL & 95' FWL, Section 15, T19S-R25E
- Proposed Bottom Hole Location – 1,950' FSL & 100' FWL, Section 16, T19S-R25E
- AVG TYO: 3,469'

19707 IH 10 West, Suite 201, San Antonio, Texas 78257-1748
Phone: (405) 312-3930 Email: lcoshow@silverbackexp.com

SILVERBACK proposes to form a Drilling Spacing Unit ("DSU") covering the S/2 of Section 16, T19S-R25E, Eddy County, New Mexico, containing 320.00 acres of land, more or less, from the surface to the base of the Yeso formation. In this 320.00-acre DSU covering the S/2 of Section 16, SILVERBACK plans to drill the **Boyd X State Com 101H, Boyd X State Com 102H and Boyd X State Com 103H** wells.

It is known that the proposed DSU lands are governed by two (2) existing Joint Operating Agreements covering the proposed depths and lands herein. Joint Operating Agreement dated February 15, 1993 ("JOA 1993"), covers the SW/4 of Section 16 from the base of San Andres formation to 100' below total depth drilled by and between Yates Petroleum Corporation, as Operator and American National Petroleum Company, et als, as non-operators (covers Amole AMM State #1, #2 & #3 wells). Joint Operating Agreement dated August 25, 1995 ("JOA 1995"), covers the SE/4 of Section 16 from the base of San Andres formation to 100' below total depth drilled by and between Yates Petroleum Corporation, as Operator and Unit Petroleum Company, et als, as non-operators (covers Boyd X State Com #10 & #11 wells).

Additionally, there is a Compulsory Pooling Order No. R-9883 (Case No. 10709) covering the SW/4 of Section 16 for individuals/parties that didn't sign or subject to the JOA 1993 and interest and rights are under this pooling order. There is a Compulsory Pooling Order No. R-10520 (Case No. 11310 & 11311) covering the SE/4 of Sec. 16 for individuals/parties that didn't sign or subject to the JOA 1995 and their interests and rights are under this pooling order.

The AFEs are an estimate only and those parties electing to participate in the Subject Wells shall be responsible for their share of actual well costs, whether more or less than those shown on the enclosed AFEs. Your estimated working interest in the proposed 320-acre DSU is shown on Exhibit "A" enclosed herewith.

SILVERBACK respectfully requests that you select one (1) of the following three (3) options regarding your interest in each of the proposed wells:

- **Option 1:** Participate in the drilling and completion of the proposed well under terms and conditions under JOA 1993 and/or JOA 1995 and/or pooling orders; or
- **Option 2:** Not participate in the proposed well (an election of "Non-Consent"); or
- **Option 3 - Term Assignment:** Assign your leasehold working interest in the S/2 of Section 16, T19S-R25E, exclusive of existing wellbores, to SILVERBACK through a term assignment with a primary term of two (2) years and as long thereafter as production is obtained in paying quantities, and a bonus consideration of \$750 per net mineral acre, delivering a 80% leasehold net revenue interest (limited to the surface to the base of the Yeso formation) reserving an ORRI equal to the difference between existing leasehold burdens of record and 20%, proportionally reduced; or

- **Option 4 - Assignment:** Assign your leasehold working interest in the S/2 Section 16, T19S-R25E, exclusive of existing wellbores, to SILVERBACK for a bonus consideration of \$ 1,500 per net mineral acre, delivering an 80% leasehold net revenue interest (all rights owned) reserving an ORRI equal to the difference between existing leasehold burdens of record and 20%, proportionally reduced.

Should you elect **Option 1** or **Option 2**, said election will be pursuant to the terms and conditions of governing operating agreements and/or pooling orders. In the event you elect to assign your leasehold interest under the terms outlined above in **Option 3 - Term Assignment**, or **Option 4 - Assignment**, please so indicate by signing the enclosed Assignment Election page. Upon receipt, SILVERBACK will submit an Assignment to you for your review and execution.

SILVERBACK looks forward to working with you on this matter. However, if an agreement cannot be reached within thirty (30) days of the receipt date of this proposal, please be advised SILVERBACK may apply to the New Mexico Oil Conservation Division for additional Compulsory Pooling of any uncommitted interest owners into a spacing unit for the proposed wells.

Please indicate your elections as to each of the Subject Wells in the spaces provided below and execute and return one (1) copy of this letter (together with a signed copy of each AFE for any well(s) you elect to participate in) to the undersigned within thirty (30) days of receipt of this proposal.

Should you have any questions regarding this proposal, please contact Larry K. Coshow at 405-312-3930 or lcoshow@silverbackexp.com. Thank you very much for your assistance and cooperation.

Sincerely,

SILVERBACK NEW MEXICO, LLC

Larry K. Coshow, CPL

 Lateral Length: 5,000
 Stages: 25

Project Description:

The proposed AFE is for the Boyd X State Com #101H, a single, 1 section Paddock horizontal well to be drilled in Eddy County, NM. The well is a 2 string casing design consisting of the following: 12.25" surface hole drilled on Water to 1210' and 9.625" 36# J-55 BTC casing set and cemented in place; 8.75" production hole will then be drilled on Cut Brine to TD at 8500' and a split string of 7" 32# L-80 HC PIXS and 5.5" 20# L-80HC PIXS string of casing will be set and cemented in place. There will be 5000' of treatable lateral and the completions design will consist of +/-25 stages.

AFFIDAVIT OF GEOLOGIST

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES**

**APPLICATION OF SILVERBACK, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

CASE NO. 23175

AFFIDAVIT OF NATHANIEL GILBERTSON

1. My name is Nathaniel Gilbertson. I work for Silverback Operating II, LLC (“Silverback”) as a Geologist. I am familiar with the application filed by Silverback in this case, and I have conducted a geologic study of the lands in the subject area.
2. I have not previously testified before the Oil Conservation Division. My resume is attached as Silverback Exhibit B-1. I graduated from the Colorado School of Mines in 2002 with a Bachelor of Science degree in Geological Engineering and subsequently in 2006 with a Master of Science degree in Geology. I have over sixteen years of experience working for small- and mid-sized oil and gas companies. I have worked horizontal developments in North Dakota, Utah, and Texas. I am a member in good standing of the American Association of Petroleum Geologists and of the Rocky Mountain Association of Geologists. I have been accepted as an expert by the North Dakota Industrial Commission in matters of petroleum geology. I believe that my education and work experience qualify me to testify as an expert in petroleum geology matters.
3. In this case, Silverback is targeting the Yeso formation.
4. Silverback Exhibit B-2 is a base map that shows the location of the proposed horizontal well spacing unit, the path of the proposed/drilled wellbores, and the offsetting well bores. Marked on Exhibit B-2’s map is the location of the four wells in Cross Section A-A’. These wells penetrate the targeted interval, are of good quality, and are representative of the geology in the subject area.
5. Silverback Exhibit B-3 is a subsea structure map of the top of the Glorieta/Yeso with a 25-foot contour interval. The Yeso Formation structure is dipping gently to the east-southeast. The formation appears consistent across the proposed spacing unit. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling within the proposed spacing unit. This map also shows line B-B’, which is depicted in a gun barrel diagram in Silverback Exhibit B-5.
6. Silverback Exhibit B-4 is a structural cross-section that I prepared with data from open-hole logs collected over the target formation in the representative wells denoted from A to A’. For each well in the cross-section, the exhibit shows the following logs: gamma ray, deep resistivity, neutron porosity, and bulk density. The targeted zone for each well is

labeled and marked on the cross-section. The logs in the cross-section demonstrate that the targeted zones are continuous and consistent through the proposed spacing unit.

7. Silverback Exhibit B-5 is a gun barrel diagram from B to B' illustrating Silverback's intended development in the Yeso formation across the proposed spacing unit. Each proposed or existing well is identified relative to the different intervals within the Yeso formation.
8. In my opinion, the East-West orientation of the proposed wells in the preferred orientation for horizontal well development in this area and is appropriate to efficiently and effectively develop the subject acreage.
9. Based on my geologic study of the area, the targeted interval underlying the proposed spacing unit is suitable for development by horizontal wells, and tracts comprising the proposed spacing unit will contribute more or less equally to the production of the wells.
10. The granting of this application is in the best interest of conservation, the prevention of waste, and the protection of correlative rights and will avoid the drilling of unnecessary wells.
11. Silverback Exhibits B-1 through B-5 were either prepared by me or compiled under my direction and supervision.

NATE GILBERTSON RESUME

Nathaniel J. Gilbertson

19707 IH 10 West Suite 201
San Antonio, TX 78257

(210) 585-3316
ngilbertson@silverbackexp.com

Sixteen years of diversified experience as a geologist for exploration, acquisition, field-development and operation of assets in Texas, New Mexico and Rocky Mountain basins. Proven track record of adding value through acquisitions, field extensions, recompletion programs and increases in operational efficiency. Served in technical and leadership roles with teams ranging from small new ventures groups to large, multi-disciplinary development teams.

Geologic Advisor – Silverback Exploration II, LLC: November 2021 – present

Geologist responsible for appraisal and development of assets in Eddy County, New Mexico. Planned and executed 9-well horizontal drilling program designed to gather data, test geologic targets, well-spacing and aid in full-field development planning. Incorporated results from pilot-hole into regional stratigraphic and petrophysical model to identify future drilling targets. Worked with engineers to identify optimal DSU development.

Geologist/Co-Owner – *pondi* Resources, LLC: June 2020 – present

Consulting geologist for oil and mining-related projects. Generated basin-scale play and activity maps to provide focus-area recommendations for a client seeking to raise funds for investment. Prepared structure and reservoir quality maps and recommended well locations for a client interested in rejuvenating an abandoned CBM field for agriculture/domestic water production.

Geoscience Team Lead – Hawkwood Energy, LLC: May 2018 – May 2020

Supervised a team of five geoscientists to appraise and develop Hawkwood's acreage in the East Texas Basin while meeting budget, production, and play-assessment goals. Designed and executed data-gathering programs including coring, logging, geochemical analysis, and seismic reprocessing. Worked with engineering team to evaluate well-performance and tie results to regional geologic interpretation. Eagle Ford, Woodbine and Austin Chalk play characterization including geologic, economic evaluation and risking for drilling location selection and investment decisions.

Senior Geologist – Hawkwood Energy, LLC: March 2013 – May 2018

East Texas Basin, Texas: 2015-2018

Geologist responsible for initial acquisition evaluations and subsequently for appraisal and development of assets in Burlson, Brazos and Robertson counties, Texas. Planned and executed 2-3 rig horizontal drilling program targeting Eagle Ford shale and Woodbine sand.

- Regional play-mapping and integration of geologic, reservoir, seismic, gravity, geochemical, drilling and completions data
- Horizontal target zone analysis and refinement for increased drilling and completions efficiency and increased EUR
- Provided geologic and reservoir data for integrated geology and engineering analytics projects
- Optimization of development area-specific completion design and well-spacing
- Detailed geologic mapping and depositional model development of Woodbine sand

Rocky Mountain Basins: 2013-2015

Geologist responsible for regional mapping and analysis of Rocky Mountain basins to identify and quantify opportunities for investment in unconventional plays. Planned and executed a two-well exploration program for Paleozoic carbonates on 115,000 acres in Sioux County, Nebraska.

Geologist – Newfield Exploration Company: June 2005 – March 2013

Central Basin Team, Uinta Basin: 2011-2013

Geologist focused on developing vertical and horizontal Wasatch oil plays in the Uinta Basin, Utah.

- Identified oil targets in the Wasatch formation in a previously undeveloped part of the basin
- Located, planned and drilled the first two Wasatch horizontal oil wells in Uinta Basin
- Executed a 1-2 rig vertical and horizontal appraisal program
- Central Basin production increased from 650 BOEPD to 7500 BOEPD over two years

Greater Monument Butte Unit: 2009-2011

Worked with development team to execute 3-5 rig drilling program. Incorporated new well data in geologic maps, worked with production and reservoir engineers to maximize production and optimize waterflood, identified behind-pipe pay, tested unconventional zones and worked with permitting and regulatory staff to maintain sufficient inventory of drilling permits for continuous operations. Provided analysis and recommendation for acquisition opportunities in the Uinta Basin.

Acquisitions/New Ventures: 2005-2009

Conducted field studies and regional mapping in several Rocky Mountain basins. Reviewed and evaluated marketed deals in Rocky Mountain Basins and prepared unsolicited bids for several producing fields in the Powder River Basin. Performed geologic assessment and risking for the evaluation of several large-marketed asset deals.

Other

Member of campus recruiting team. Mentor summer interns and new-hires. Organize and co-lead company field trips to the Book Cliffs and Uinta Basin. Active Volunteer at the Denver Earth Resources Library.

Basins & Plays Worked

Permian Basin, Texas: Wolfcamp, Bone Spring
 East Texas Basin, Texas: Austin Chalk, Woodbine, Eagle Ford
 Uinta: Entrada/Navajo, Uinta, Green River, Wasatch
 DJ/Las Animas Arch: Paleozoic carbonates & organic-rich shale
 Williston Basin: Madison, Bakken/Three Forks, Red River
 Powder River: Teckla/Teapot, Parkman, Turner, Muddy, Niobrara, Mowry

Education:

 §
COUNTY OF BEXAR §

I, Benjamin B. Holliday, attorney for SILVERBACK OPERATING II, LLC. (“Silverback”), the Applicant in the above-captioned matters, being first duly sworn, states the following:

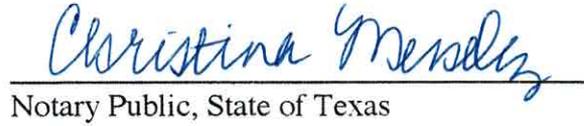

I caused notice of the applications to be sent by certified mail through the United States Postal Service on November 4, 2022, to all the interest owners sought to be pooled in these proceedings. Evidence of mailing to all such owners is attached hereto as Exhibit “C-1.” Various working interest owners in the proposed horizontal spacing unit were deemed unlocatable after a diligent search, and notice was also directed to all such owners by publication more than ten (10) business days in advance of the December 1, 2022 hearing dated in accordance with 19.15.4.12 NMAC. This notice by publication was run in the Carlsbad Current Argus on November 16, 2022, which is reflected in the Affidavit of Publication attached hereto as Exhibit “C-2.” Exhibit “C-2” demonstrates to my satisfaction that those owners who did not receive personal notice through the certified mailing were properly served by publication.

Silverback has conducted a good faith, diligent effort to find the names and correct addresses for the interest owners entitled to received notice of the Applications filed herein.

BENJAMIN B. HOLLIDAY
Counsel for Silverback Operating II, LLC

SUBSCRIBED AND SWORN to before me this 29 day of November, 2022.

Christina Mendez
Notary Public, State of Texas

Case No. 23175, Application of Silverback Operating II, LLC for the Compulsory Pooling of the S/2 Section 16, Township 19 South, Range 25 East Eddy County, New Mexico, as to the Glorieta Yeso Formation is set for hearing on Thursday, December 1, 2022 at 8:15 a.m. before a Division Examiner at the New Mexico Oil Conservation Division. Hearing may be viewed online by going to <https://www.emnrd.nm.gov/ocd/hearing-info/>. Applicant's attorney is Benjamin Holliday, Holliday Energy Law Group, 4040 Broadway, Suite 350, San Antonio, TX 78209, ben@theenergylawgroup.com, and the Application is on behalf of Silverback Operating II, LLC, whose address is 19707 West IH 10, Suite 201, San Antonio, Texas, 78257. Applicant seeks an order pooling all uncommitted interests in the North Seven Rivers Glorieta Yeso Formation underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 Section 16, Township 19 South, Range 25 East, Eddy County, New Mexico ("Unit"). The Unit will be dedicated to the Boyd X State Com #101H well ("101H Well"), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19 South, Range 25 East, the Boyd X State Com #102H well ("102H Well"), which has been horizontally drilled from a surface hole location in the SW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the SW/4 SW/4 of Section 16, Township 19

South, Range 25 East, and the Boyd X State Com 103H well ("103H Well"), which will be horizontally drilled from a surface hole location in the NW/4 SW/4 Section 15, Township 19 South, Range 25 East, to a bottom hole location in the NW/4 SW/4 of Section 16, Township 19 South, Range 25 East. The 101H Well, 102H Well, and 103H Well are referred to collectively herein as the "Wells." The completed interval of the Wells will be orthodox. Also to be considered will be the cost of drilling and completing the Wells and the allocation of the cost, the designation of Applicant as the operator of the Wells, and a 200% charge for the risk involved in drilling and completing the Wells. The Wells are located approximately 10 miles West of Lakewood, New Mexico.
