FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 23529

APPLICATION

Read & Stevens, Inc. (“Applicant”), through undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 160-acre, more or less, horizontal well spacing unit comprised of the E/2 W/2 of Section 10, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico. In support of its application, Read & Stevens, Inc. states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to designate Permian Resources Operating, LLC (OGRID No. 372165) as the operator of the proposed horizontal spacing unit.
3. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the proposed **Riddler 10 Federal Com 172H** and the **Riddler 10 Federal Com 132H** wells, both to be horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 10 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 10.
4. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

5. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on June 1, 2023, and, after notice and hearing as required by law, the Division enter an order:

- A. Approving the horizontal well spacing unit and pooling all uncommitted interests therein;
- B. Designating Permian Resources Operating, LLC as operator of this horizontal spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the wells;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

HOLLAND & HART LLP

ATTORNEYS FOR READ & STEVENS, INC.

CASE _____: **Application of Read & Stevens, Inc. for Compulsory Pooling, Lea County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 160-acre, more or less, horizontal well spacing unit comprised of the E/2 W/2 of Section 10, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico. Said unit will be initially dedicated to the proposed **Riddler 10 Federal Com 172H** and the **Riddler 10 Federal Com 132H** wells, both to be horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 10 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 10. Also, to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Permian Resources Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 25 miles southwest of Hobbs, New Mexico.

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATIONS OF READ & STEVENS, INC.
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NOS. 23528–23529

SELF-AFFIRMED STATEMENT OF TRAVIS MACHA

1. My name is Travis Macha. I work for Permian Resources Operating, LLC (“Permian”) as a Senior Landman.

2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.

3. I am familiar with the applications filed by Read & Stevens, Inc. (“Read & Stevens”) in these cases, and I am familiar with the status of the lands in the subject area.

4. None of the uncommitted parties in these cases have indicated opposition to proceeding by self-affirmed statement and, therefore, I do not expect any opposition at the hearing.

5. Under these consolidated cases, Read & Stevens seeks orders pooling all uncommitted mineral interests in the Bone Spring formation underlying the referenced acreage all in Township 20 South, Range 34 East, NMPM, Lea County, New Mexico, as follows:

- Under **Case No. 23528**, Read & Stevens seeks to pool a standard 160-acre, more or less, horizontal well spacing unit comprised of the W/2 W/2 of Section 10, and initially dedicate this Bone Spring spacing unit to the proposed **Riddler 10 Federal Com 171H** and **Riddler 10 Federal Com 131H** wells, both to be horizontally

drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 10 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 10.

- Under **Case No. 23529**, Read & Stevens seeks to pool a standard 160-acre, more or less, horizontal well spacing unit comprised of the E/2 W/2 of Section 10, and initially dedicate this Bone Spring spacing unit to the proposed **Riddler 10 Federal Com 172H** and the **Riddler 10 Federal Com 132H** wells, both to be horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 10 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 10.

6. **Read & Stevens Exhibit A-1** contains a draft Form C-102 for the wells in these spacing units. These forms demonstrate that the completed interval for the each of the wells will comply with statewide setbacks for oil wells. The exhibit shows that the wells will be assigned to the Teas; Bone Spring (58960).

7. **Read & Stevens Exhibit A-2** identifies the tracts of land comprising the horizontal spacing units, the ownership interests in each tract, and a recapitulation of the Riddler 10 Unit ownership (W/2). The interest owners that Read & Stevens seeks to pool are highlighted in yellow. The subject acreage is comprised of federal lands.

8. **Read & Stevens Exhibit A-3** contains a sample of the well proposal letter and AFE for each well that was sent to owners with a working interest. The costs reflected in the AFE are consistent with what Read & Stevens and other operators have incurred for drilling similar horizontal wells in the area in this formation.

9. Read & Stevens requests that the overhead and administrative costs for drilling and producing the proposed wells be set at \$8,000 per month while drilling and \$800 per month while

producing. These costs are consistent with what other operators are charging in this area for similar wells.

10. **Read & Stevens Exhibit A-4** contains a general summary of the contacts with the uncommitted interest owners. As indicated in the exhibit, Read & Stevens has made a good faith effort to locate and has had communications with the majority of the parties that it seeks to pool in these cases in an effort to reach voluntary joinder. In my opinion, Read & Stevens has undertaken good faith efforts to reach an agreement with the uncommitted interest owners.

11. Read & Stevens has provided the law firm of Holland & Hart LLP with the names and addresses of the parties that Read & Stevens seeks to pool and instructed that they be notified of this hearing. Read & Stevens has conducted a diligent search of all public records in the county where the property is located, reviewed telephone directories, and conducted computer searches to locate contact information for each interest owner.

12. **Read & Stevens Exhibits A-1 through A-4** were either prepared by me or compiled under my direction and supervision.

13. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in these cases. This statement is made on the date next to my signature below.

Travis Macha

RE: Riddler 3-10 Federal Com & Riddler 10 Federal Com – Well Proposals
Sections 3 & 10, T20S-R34E
Lea County, New Mexico

To Whom It May Concern:

Permian Resources Operating, LLC, as operator for Read & Stevens, Inc. (“Permian”), hereby proposes the drilling and completion of the following seventeen (17) wells, the Riddler 3-10 and Riddler 10 Federal Com wells at approximate locations within Township 20 South, Range 34 East:

1. Riddler 3-10 Federal Com 111H – Northwest Pad

SHL: 280’ FNL & 1,560’ FWL (or at a legal location within Lot 3) of Section 3
BHL: 10’ FSL & 330’ FWL of Section 10
FTP: 100’ FNL & 330’ FWL of Section 3
LTP: 100’ FSL & 330’ FWL of Section 10
TVD: Approximately 9,625’
TMD: Approximately 19,910’
Proration Unit: Lot 4, SWNW, W2SW of Section 3 and W2W2 of 10 of T20S-R34E
Targeted Interval: 1st Bone Spring
Total Cost: See attached AFE

2. Riddler 3-10 Federal Com 112H – Northwest Pad

SHL: 280’ FNL & 1,650’ FWL (or at a legal location within Lot 3) of Section 3
BHL: 10’ FSL & 1,650’ FWL of Section 10
FTP: 100’ FNL & 1,650’ FWL of Section 3
LTP: 100’ FSL & 1,650’ FWL of Section 10
TVD: Approximately 9,625’
TMD: Approximately 19,910’
Proration Unit: Lot 3, SENW, E2SW of Section 3 and E2W2 of 10 of T20S-R34E
Targeted Interval: 1st Bone Spring
Total Cost: See attached AFE

3. Riddler 3-10 Federal Com 113H – Northeast Pad

SHL: 250’ FNL & 1,030’ FEL (or at a legal location within Lot 1) of Section 3
BHL: 10’ FSL & 2,310’ FEL of Section 10
FTP: 100’ FNL & 2,310’ FEL of Section 3
LTP: 100’ FSL & 2,310’ FEL of Section 10
TVD: Approximately 9,645’
TMD: Approximately 19,930’
Proration Unit: Lot 2, SWNE, W2SE of Section 3 and W2E2 of 10 of T20S-R34E
Targeted Interval: 1st Bone Spring
Total Cost: See attached AFE

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. A-3
Submitted by: Read & Stevens, Inc.
Hearing Date: June 1, 2023
Case No. 2352-

4. Riddler 3-10 Federal Com 114H – Northeast Pad

SHL: 250' FNL & 997' FEL (or at a legal location within Lot 1) of Section 3
BHL: 10' FSL & 990' FEL of Section 10
FTP: 100' FNL & 990' FEL of Section 3
LTP: 100' FSL & 990' FEL of Section 10
TVD: Approximately 9,645'
TMD: Approximately 19,930'
Proration Unit: Lot 1, SENE, E2SE of Section 3 and E2E2 of 10 of T20S-R34E
Targeted Interval: 1st Bone Spring
Total Cost: See attached AFE

5. Riddler 3-10 Federal Com 121H – Northwest Pad

SHL: 280' FNL & 1,626' FWL (or at a legal location within Lot 3) of Section 3
BHL: 10' FSL & 330' FWL of Section 10
FTP: 100' FNL & 330' FWL of Section 3
LTP: 100' FSL & 330' FWL of Section 10
TVD: Approximately 10,350'
TMD: Approximately 20,635'
Proration Unit: Lot 4, SWNW, W2SW of Section 3 and W2W2 of 10 of T20S-R34E
Targeted Interval: 2nd Bone Spring
Total Cost: See attached AFE

6. Ridder 3-10 Federal Com 122H – Northwest Pad

SHL: 280' FNL & 1,659' FWL (or at a legal location within Lot 3) of Section 3
BHL: 10' FSL & 990' FWL of Section 10
FTP: 100' FNL & 990' FWL of Section 3
LTP: 100' FSL & 990' FWL of Section 10
TVD: Approximately 10,000'
TMD: Approximately 20,285'
Proration Unit: Lot 4, SWNW, W2SW of Section 3 and W2W2 of 10 of T20S-R34E
Targeted Interval: 2nd Bone Spring
Total Cost: See attached AFE

7. Ridder 3-10 Federal Com 123H – Northwest Pad

SHL: 280' FNL & 1,692' FWL (or at a legal location within Lot 3) of Section 3
BHL: 10' FSL & 1,650' FWL of Section 10
FTP: 100' FNL & 1,650' FWL of Section 3
LTP: 100' FSL & 1,650' FWL of Section 10
TVD: Approximately 10,360'
TMD: Approximately 20,655'
Proration Unit: Lot 3, SENW, E2SW of Section 3 and E2W2 of 10 of T20S-R34E
Targeted Interval: 2nd Bone Spring
Total Cost: See attached AFE

8. Ridder 3-10 Federal Com 124H – Northwest Pad

SHL: 280' FNL & 1,725' FWL (or at a legal location within Lot 3) of Section 3
BHL: 10' FSL & 2,310' FWL of Section 10
FTP: 100' FNL & 2,310' FWL of Section 3
LTP: 100' FSL & 2,310' FWL of Section 10
TVD: Approximately 10,015'
TMD: Approximately 20,300'
Proration Unit: Lot 3, SENW, E2SW of Section 3 and E2W2 of 10 of T20S-R34E
Targeted Interval: 2nd Bone Spring
Total Cost: See attached AFE

9. Ridder 3-10 Federal Com 125H – Northeast Pad

SHL: 250' FNL & 964' FEL (or at a legal location within Lot 1) of Section 3

TVD: Approximately 10,980'
TMD: Approximately 16,265'
Proration Unit: W2W2 of Section 10 of T20S-R34E
Targeted Interval: Wolfcamp XY
Total Cost: See attached AFE

[Continued on Next Page]

The locations, TVDs, and targets are approximate and subject to change dependent on surface or subsurface issues encountered. These locations do fall within an approved potash drill island, so any surface changes remain subject to BLM approval. Permian is proposing to drill these wells under the modified terms of the 1989 AAPL Operating Agreement and a form of said Operating Agreement is enclosed. The Operating Agreement has the following general provisions:

- 100%/300%/300% non-consent provisions
- \$8,000/\$800 drilling and producing rates
- Permian Resources Operating, LLC named as Operator

Note that communitization agreements for each spacing unit shall be sent in a separate mailing.

Please indicate your election to participate in the drilling and completion of the proposed wells in the space provided below. Please sign and return one copy of this letter, a signed copy of the proposed AFE, and your geologic well requirements.

In the interest of time, should we not reach an agreement within thirty (30) days of the date of your receipt of this letter, Permian will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed well. If you do not wish to participate, Permian would be interested in acquiring your interest in the subject lands which is subject to further mutually agreeable negotiation.

Thank you for your time and consideration, if you have any questions at all, please don't hesitate to contact me at 432.400.1037 or by email at travis.macha@permianres.com

Respectfully,

Travis Macha
Senior Landman

The costs on this AFE are estimates only and may not be construed as ceilings on any specific item or the total cost of the project. Tubing installation approved under the AFE may be delayed up to a year after the well has been completed. In executing this AFE, the Participant agrees to pay its proportionate share of actual costs incurred, including, legal, curative, regulatory, brokerage and well costs under the terms of the applicable joint operating agreement, regulatory order or other agreement covering this well. Participants shall be covered by and billed proportionately for Operator's well control and general liability insurance unless participant provides Operator a certificate evidencing its own insurance in an amount acceptable to the Operator by the date of sign.

OIL CONSERVATION DIVISION

APPLICATIONS OF READ & STEVENS, INC.
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.

CASE NOS. 23528–23529

SELF-AFFIRMED STATEMENT OF IRA BRADFORD

1. My name is Ira Bradford. I work for Permian Resources Operating, LLC (“Permian”) as a Geologist.

2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.

3. I am familiar with the applications filed by Read & Stevens, Inc. (“Read & Stevens”) in these cases, and I have conducted a geologic study of the lands in the subject area.

4. Read & Stevens has targeted the Bone Spring formation in these cases.

5. **Read & Stevens Exhibit B-1** is a regional locator map that identifies the Riddler project area, in proximity to the Capitan Reef within the Delaware Basin, for the Bone Spring horizontal spacing units that are the subject of these applications.

6. **Read & Stevens Exhibit B-2** is a cross section location map for the proposed horizontal spacing units (“units”) within the Bone Spring formation. The approximate locations of the proposed units are outlined in blue. Existing producing wells in the targeted intervals are represented by solid lines. This map identifies the cross-section running from A-A’ with the cross-section well names and a black line in proximity to the proposed wells.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B
Submitted by: Read & Stevens, Inc.
Hearing Date: June 1, 2023
Case No. 23529

7. **Read & Stevens Exhibit B-3** is a subsea structure map that I prepared for the Third Bone Spring Sand formation, with a contour interval of 50 feet. The structure map shows the Bone Spring gently dipping to the Southeast. The Bone Spring structure appears consistent across the wellbore paths. I do not observe any faulting, pinchouts, or other geologic impediments in the spacing units. This map also shows the relative location of the two proposed Harkey Sand wells as dashed red lines, as well as the offset producers as solid red lines.

8. **Read & Stevens Exhibit B-4** is a subsea structure map that I prepared for the Third Bone Spring Sand formation, with a contour interval of 50 feet. The structure map shows the Bone Spring gently dipping to the Southeast. The Bone Spring structure appears consistent across the wellbore paths. I do not observe any faulting, pinchouts, or other geologic impediments in the spacing units. This map also shows the relative location of the two proposed Third Bone Spring Sand wells as dashed red lines, as well as the offset producers as solid red lines.

9. **Read & Stevens Exhibit B-5** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Bone Spring from the representative wells denoted from A to A'. For each well in the cross-section, the exhibit shows the following logs: gamma ray, resistivity, and porosity. The interval is labeled and marked. The logs in the cross-section demonstrate that the interval is continuous across each spacing unit.

10. **Read & Stevens Exhibit B-6** is a gun-barrel diagram showing the proposed development of the Harkey sand and the Third Bone Spring Sand in the Riddler 3-10 Fed Com Unit with the individual pooled units outlined in blue.

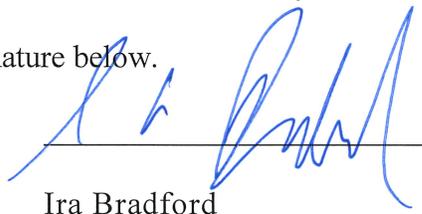

11. In my opinion, standup orientation of the proposed wells is the appropriate orientation for horizontal well development in this area because it is near perpendicular to the maximum horizontal stress of the area.

12. Based on my geologic study, the Bone Spring formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing units will contribute more-or-less equally to the production from the wellbores. I have not identified any geologic impediments to drilling horizontal wells in the area of the spacing unit proposed.

13. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery, and that approving Read & Stevens's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

14. **Read & Stevens Exhibits B-1 through B-6** were either prepared by me or compiled under my direction and supervision.

15. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in these cases. This statement is made on the date next to my signature below.

SELF-AFFIRMED STATEMENT OF
PAULA M. VANCE

1. I am attorney in fact and authorized representative of Read & Stevens, Inc., (“Read & Stevens”), the Applicant herein. I have personal knowledge of the matter addressed herein and am competent to provide this self-affirmed statement.

2. The above-referenced application and notice of the hearing on this application was sent by certified mail to the affected parties on the date set forth in the letter attached hereto.

3. The spreadsheet attached hereto contains the names of the parties to whom notice was provided.

4. The spreadsheet attached hereto contains the information provided by the United States Postal Service on the status of the delivery of this notice as of May 24, 2023.

5. I caused a notice to be published to all parties subject to this compulsory pooling proceeding. An affidavit of publication from the publication’s legal clerk with a copy of the notice publication is attached as Exhibit D.

6. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS

**Re: Application of Read & Stevens, Inc. for Compulsory Pooling, Lea County,
New Mexico: Riddler 10 Federal Com #172H & #132H wells**

Ladies & Gentlemen:

This letter is to advise you that Read & Stevens, Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on June 1, 2023, and the status of the hearing can be monitored through the Division’s website at <https://www.emnrd.nm.gov/ocd/>.

The hearing will be conducted on June 1, 2023, beginning at 8:15 a.m. Due to ongoing construction and associated space limitations at the Wendell Chino Building, Parties, Counsel for Parties, and the public are encouraged to attend/participate via the Webex Meeting platform. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Travis Macha at (432) 400-1037 or travis.macha@permianres.com.

Sincerely,

Paula M. Vance

LEGAL NOTICE May 17, 2023

STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION
SANTA FE, NEW MEXICO

The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division ("Division") hereby gives notice that the Division will hold public hearings before a hearing examiner on the following case. The hearing will be conducted remotely on Thursday, June 1, 2023, beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted below. The docket may be viewed at <https://www.emnrd.nm.gov/ocd/hearing-info/> or obtained from Marlene Salvidrez, at Marlene.Salvidrez@emnrd.nm.gov. Documents filed in the case may be viewed at <https://ocdimage.emnrd.nm.gov/Imaging/Default.aspx>. If you are an individual with a disability who needs a reader, amplifier, qualified sign language interpreter, or other form of auxiliary aid or service to attend or participate in a hearing, contact Marlene Salvidrez at Marlene.Salvidrez@emnrd.nm.gov, or the New Mexico Relay Network at 1-800-659-1779, no later than May 22, 2023.

Persons may view and participate in the hearings through the following link:

Jensen Family Trust; and Sunburst Energy, LLC.

Case No. 23529: Application of Read & Stevens, Inc. for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order pooling all uncommitted interests in the Bone Spring formation underlying a standard 160-acre, more or less, horizontal well spacing unit comprised of the E/2 W/2 of Section 10, Township 20 South, Range 34 East, NMPM, Lea County, New Mexico. Said unit will be initially dedicated to the proposed Riddler 10 Federal Com 172H and the Riddler 10 Federal Com 132H wells, both to be horizontally drilled from a surface location in the NW/4 NW/4 (Unit D) of Section 10 to a bottom hole location in the SE/4 SW/4 (Unit N) of Section 10. Also, to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Permian Resources Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 25 miles southwest of Hobbs, New Mexico.
