DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**AMENDED APPLICATION OF PRIDE ENERGY COMPANY
FOR COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO**

Case No. 23327

AMENDED APPLICATION

Pride Energy Company, (“Pride”), OGRID No. 151323, through its undersigned counsel Montgomery & Andrews, P.A. (Sharon T. Shaheen and Samantha H. Catalano), hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17 (1977), seeking an order pooling all uncommitted mineral interests in the Bone Spring formation (Tonto; Bone Spring [59475]) in a standard 240-acre, more or less, horizontal spacing unit (“HSU”) comprised of the W/2 E/2 of Section 16 and the W/2 NE/4 of Section 21, all in Township 19 South, Range 33 East, Lea County, New Mexico. In support of its application, Pride states as follows:

1. In Case No. 22879, Pride previously filed an application seeking to pool the uncommitted mineral interest owners in a 160-acre HSU comprised of the W/2 E/2 of Section 16, Township 19 South, Range 33 East, Lea County, New Mexico. Case No. 22879 is currently set for a contested hearing on March 16, 2023, along with Pride’s companion application in Case No. 22880 and competing applications filed by Mewbourne Oil Company in Case Nos. 23176-23179. *See generally* Amended Pre-Hearing Order, Nos. 22879-22880, 23176-23179 (Dec. 2, 2022) (“Amended Pre-Hearing Order”). Pride files this amended application now seeking to pool uncommitted interests in the 240-acre HSU proposed herein.

2. Pride is a working interest owner in the proposed HSU and has the right to drill thereon.

3. Pride proposes to drill the **Tonto 16-21 State Federal Com. Well No. 201H** to a depth sufficient to test the Bone Spring formation and to dedicate the HSU thereto. The well will have a first take point in the NW/4 NE/4 of Section 16 and a last take point in the SW/4 NE/4 of Section 21, all in Township 19 South, Range 33 East.

4. Pride has in good faith sought and been unable to obtain the voluntary joinder of all other mineral interest owners in the HSU for the development of these minerals.

5. The pooling of all uncommitted mineral interest owners in the proposed HSU will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

6. In order to permit Pride to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this HSU should be pooled and Pride should be designated the operator of the HSU.

WHEREFORE, Pride requests that this amended application be set for hearing before an examiner of the Oil Conservation Division on the March 2, 2023 docket. Pride will file a motion to substitute and a motion for continuance to add this amended application to the Pre-Hearing Order for hearing on March 16, 2023. *See generally* Amended Pre-Hearing Order. Pride further requests that, after notice and hearing as required by law, the Division enter an order:

A. Creating a standard 240-acre, more or less, horizontal spacing and proration unit comprised of the W/2 E/2 of Section 16 and the W/2 NE/4 of Section 21, all in Township 19 South, Range 33 East, in Lea County, New Mexico;

B. Pooling all uncommitted mineral interests in the Bone Spring formation underlying the HSU;

- C. Allowing the drilling of the **Tonto 16-21 State Federal Com. Well No. 201H** in the proposed HSU;
- D. Designating Pride as operator of the HSU and the well(s) to be drilled thereon;
- E. Authorizing Pride to recover its costs of drilling, equipping, and completing;
- F. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- G. Setting a 200% charge for the risk assumed by Pride in drilling, completing, and equipping the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

MONTGOMERY & ANDREWS, P.A.

Attorneys for Pride Energy Company

Application of Pride Energy Company for compulsory pooling, Lea County, New Mexico.

Pride Energy Company seeks an order pooling all uncommitted mineral interest owners in the Bone Spring formation (Tonto; Bone Spring [59475]) in a horizontal spacing unit underlying the W/2 E/2 of Section 16 and the W/2 NE/4 of Section 21, all in Township 19 South, Range 33 East, NMPM, Lea County, New Mexico. The unit will be dedicated to the Tonto 16-21 State Federal Com. Well No. 201H, a horizontal well with a first take point in the NW/4 NE/4 of Section 16 and a last take point in the SW/4 NE/4 of Section 21, all in Township 19 South, Range 33 East. Also to be considered will be the cost of drilling, completing, and equipping the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling, completing, and equipping the well. The unit is located approximately 9 miles northeast of Halfway, New Mexico.

Case No. 23327

**AMENDED APPLICATION OF PRIDE ENERGY COMPANY
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

Case No. 23328

AFFIRMATION OF LANDMAN MATTHEW PRIDE

I, being duly sworn on oath, state the following:

1. I am over the age of 18, and have the capacity to execute this Affirmation, which is based on my personal knowledge.

2. This affirmation is submitted in connection with the filing by Pride of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

3. I am the land manager for Pride Energy Company (“Pride”). I am familiar with the subject applications and the lands involved.

4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record. A brief summary of my education and work experience is as follows: I graduated from Oral Roberts University with a bachelor’s degree in Accounting. After graduation, I worked as a Landman in excess of 25 years obtaining oil and gas leases, reviewing title and legal matters, overseeing regulatory land matters among other various land related duties. I have worked on New Mexico land matters for approximately 25 years.

5. The purpose of this application is to force pool working interest owners into the horizontal spacing units (“HSU”) described below and in the wells to be drilled in the HSUs.

6. In **Case No. 23327**, Applicant seeks an order from the Division pooling all uncommitted mineral interests in the Bone Spring formation (Tonto; Bone Spring [59475]) in a standard 240-acre, more or less, horizontal spacing unit (“HSU”) comprised of the W/2 E/2 of Section 16 and the W/2 NE/4 of Section 21, all in Township 19 South, Range 33 East, Lea County, New Mexico. Applicant proposes to dedicate the HSU to the **Tonto 16-21 Fed Com. Well No. 201H**, to be horizontally drilled from an approximate surface hole location 2412’ FSL and 1625’ FEL of Section 21, T19S-R33E, to an approximate bottom hole location 100’ FNL and 1980’ FEL of Section 16, T19S-R33E. The first take point will be located at approximately 2740’ FSL and 1980’ FEL of Section 21, T19S-R33E. The last take point will be located at approximately 100’ FNL and 1980’ FEL of Section 16, T19S-R33E.

7. In **Case No. 23328**, Applicant seeks an order from the Division pooling all uncommitted mineral interests in the Bone Spring formation (Tonto; Bone Spring [59475]) in a standard 240-acre, more or less, horizontal spacing unit (“HSU”) comprised of the E/2 E/2 of Section 16, and the E/2 NE/4 of Section 21, all in Township 19 South, Range 33 East, Lea County, New Mexico. Applicant proposes to dedicate the HSU to the **Tonto 16-21 Fed Com. Well No. 202H**, to be horizontally drilled from an approximate surface hole location 2412’ FSL and 1605’ FEL of Section 21, T19S-R33E, to an approximate bottom hole location 100’ FNL and 660’ FEL of Section 16, T19S-R33E. The first take point will be located at approximately 2740’ FSL and 660’ FEL of Section 21, T19S-R33E. The last take point will be located at approximately 100’ FNL and 660’ FEL of Section 16, T19S-R33E.

8. The first and last take points and completed intervals for all proposed wells will meet the setback requirements set forth in the statewide rules for horizontal oil wells.

9. A general location map is attached as **Exhibits A-1**.

10. Maps illustrating the tracts in the proposed HSUs and the ownership of each individual tract are attached as **Exhibits A-2**.

11. Maps illustrating the unit ownership are attached as **Exhibits A-3**.

12. The ownership breakdowns of interests, the parties to be pooled, and lists of pertinent leases are attached as **Exhibits A-4**. There are no depth severances in the formation being pooled.

13. A chronology of contacts with the interest owners to be pooled is attached as **Exhibits A-5**.

14. In Case No. 23327, upon information and belief, Mewbourne Oil Company (“Mewbourne”) will have transferred its interest in Tract 3 to Yates Energy Company (“Yates”) and Jalapeno Corporation (“Jalapeno”) by the time of hearing, and Mewbourne will no longer have a working interest in the proposed unit.¹ Consequently, Pride anticipates that Mewbourne will dismiss its competing application in Case No. 23177 and that Mewbourne will be pooled as an overriding royalty owner and not a working interest owner. Mewbourne has no interest in Case No. 23328.

15. The locations of the proposed wells within the respective HSUs are depicted in the C-102 forms attached as **Exhibits A-6 and in Exhibits B-6**. The C-102 forms also indicate the locations of each surface hole, bottom hole, and the first and last take points.

16. Pride conducted a diligent search of the public records in Lea County, New Mexico, where the wells will be located, and conducted phone directory and computer searches to obtain contact information for parties entitled to notification. Pride mailed all parties well proposals, including an Authorization for Expenditure (“AFE”) for each well.

¹ Both Yates and Jalapeno are voluntarily participating under a joint operating agreement.

17. **Exhibits A-7** include copies of the well proposal letter and AFEs for the proposed wells. The estimated costs of the wells set forth in the AFEs are fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.

18. **Exhibits A-8** include copies of sample notice letters that were sent to all interested parties.

19. Pride has made a good faith effort to obtain voluntary joinder of all interest owners in the proposed wells.

20. Pride requests the Division to approve operating charges and costs of supervision while drilling of \$8,000/month and, after completion, \$800/month, together with a provision adjusting the rates pursuant to the COPAS accounting procedures.

21. Pride requests the maximum cost, plus 200% risk charge, be assessed against non-consenting working interest owners.

22. Pride requests that it be designated operator of the wells.

23. The Exhibits hereto were prepared by me, or compiled from Pride's business records.

24. The granting of the Applications is in the interests of conservation, the prevention of waste, and the protection of correlative rights.

25. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

and No closer than 100' from the North line of Section 16.
Lea County, New Mexico

Dear Mr. Jolly,

In reference to the above, this well proposal and AFE amends the well proposal and AFE for the Tonto 16-21 State Com #201H Well that was originally located in the W/2 E/2 of Section 16, Township 19 South, Range 33 East. Pride Energy Company ("Pride") hereby proposes to drill the Tonto 16-21 State Federal Com #201H well, a horizontal well to be located in the W/2 E/2 of Section 16, Township 19 South, Range 33 East and W/2 NE/4 of Section 21-19S-33E, Lea County, New Mexico, to a depth sufficient to test the 2nd Bone Spring formation. This well will be drilled from a surface location in the NW/4 NE/4 of Section 16, Township 19 South, Range 33 East to a bottom-hole location in the SW/4 NE/4 of Section 21-19S-33E, with an estimated True Vertical Depth (TVD) of 10,056', and projected 7,820' horizontal lateral across the W/2 E/2 of Section 16-19S-33E and the W/2 NE/4 of Section 21-19S-33E, approximately 17,876' Total Measured Depth (TMD).

Our records indicate you own, or may claim to own, an oil and gas leasehold interest in the W/2 E/2 of Section 16-19S-33E and/or W/2 NE/4 of Section 21-19S-33E. Pride respectfully requests that you elect one of the following options:

1. Participate in drilling the proposed Tonto 16-21 State Federal Com #201H well to the full extent of your interest. Our AFE is enclosed with an estimated dry hole cost of \$2,525,665, and total completed well cost of \$8,413,663. Your proportionate share of well costs will be based upon your actual ownership interest in the spacing unit (being a 240-acre spacing unit).

2. Assign all of your oil and gas leasehold rights in the W/2 E/2 of Section 16, Township 19 South, Range 33 East and/or W/2 NE/4 of Section 21, Township 19 South, Range 33 East, Lea County, New Mexico to Pride for \$1,000.00 (one thousand dollars) per net acre and delivering to Pride an 81.25% (eighty-one and one-fourth percent) Net Revenue Interest.
3. No cash bonus with a 1/4th royalty (delivering to Pride a 75.00% (seventy-five percent) net revenue interest).

Please indicate your election in the space provided below and return (1) copy of this letter to my attention. This offer is subject to our verification of your title and that you own an oil and gas leasehold interest within the subject tract of land (outside of any existing wellbores), and have the right to participate in the proposed well.

Thank you, and if there are any questions, please feel free to contact me at (918) 524-9200.

Sincerely,

Pride Energy Company

Matthew L. Pride

AGREED TO AND ACCEPTED THIS _____ DAY OF _____, 2022.

1. _____ The undersigned hereby elects Option No. 1, which is to participate in the drilling and completion of the subject well.
2. _____ The undersigned hereby elects Option No. 2, which is to assign all of the oil and gas leasehold rights in the W/2 E/2 of Section 16, Township 19 South, Range 33 East and W/2 NE/4 of Section 21, Township 19 South, Range 33 East, Lea County, New Mexico to Pride for \$1,000.00 (one thousand dollars) per net acre and delivering to Pride an 81.25% (eighty-one and one-fourth percent) Net Revenue Interest.
3. _____ The undersigned hereby elects Option No. 3, which is to not participate in the drilling and completion of the subject well, and in lieu thereof, to accept a no cash bonus and delivering Pride a 75.0% (seventy-five percent) Net Revenue Interest on the leasehold interest owned in the W/2 E/2 of Section 16, Township 19 South, Range 33 East and W/2 NE/4 of Section 21, Township 19 South, Range 33 East.

Re: Case No. 23327 – Amended Application of Pride Energy Company, (“Pride”) for Compulsory Pooling, Lea County, New Mexico – Tonto 16-21 State Federal Com. Well No. 201H.

Dear Interest Owner:

This will advise that pursuant to NMSA 1978, § 70-2-17, Pride has filed an amended application with the New Mexico Oil Conservation Division for an order regarding the proposed well described below. You are receiving this notice because you may have an interest in this well.

Case No. 23327. Amended Application of Pride Energy Company for Compulsory Pooling, Lea County, New Mexico. Case No. 23327 replaces previous Case No. 22879, Application of Pride Energy Company for Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled case seeks an order from the Division pooling all uncommitted interests in the Bone Spring formation (Tonto; Bone Spring [59475]) in a standard 240-acre, more or less, horizontal spacing unit (“HSU”) comprised of the W/2 E/2 of Section 16 and the W/2 NE/4 of Section 21, all in Township 19 South, Range 33 East, Lea County, New Mexico. The HSU is to be dedicated to the following well: Tonto 16-21 State Federal Com. Well No. 201H well, to be horizontally drilled from a first take point in the NW/4 NE/4 of Section 16, to a last take point in the SW/4 NE/4 of Section 21, all in Township 19 South, Range 33 East.

Also to be considered are the costs of drilling, completing, and equipping the well and the allocation of the costs thereof, as well as actual operating costs and charges for supervision, designation of Applicant as operator of the well, and a 200% charge for the risk involved in drilling, completing, and equipping the well. The unit is located approximately 9 miles northeast of Halfway, New Mexico.

The attached amended application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division. During the COVID-19 Public Health Emergency, state

buildings are closed to the public and hearings will be conducted remotely. The hearing will be conducted on **March 16, 2023**, beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <http://www.emnrd.state.nm.us/OCD/hearings.html>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony.

Failure to appear at that time and become a party of record will preclude you from challenging this amended application at a later time. If you intend to present testimony or evidence at the hearing, you must enter your appearance by **February 22, 2023**, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement by **February 23, 2023 by 5:00 p.m.**, in accordance with Division Rule 19.15.4.13 NMAC.

Please feel free to contact me if you have any questions about this Amended Application.

Very truly yours,

Case No. 23328

AFFIRMATION OF GEOLOGIST HARVIN L. BROUGHTON

I, Harvin Broughton, being first duly sworn on oath, state the following:

1. I am over the age of 18, and have the capacity to execute this affirmation, which is based on my personal knowledge.

2. This affirmation is submitted in connection with the filing by Pride of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.

3. I am employed as a contract geologist for Pride Energy Company (“Pride” or “Applicant”), and I am familiar with the subject applications and the lands involved.

4. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have previously been accepted by the Division and made a matter of record. My education and work experience are as follows: I have a Bachelor’s Degree in Petroleum Engineering Technology from Oklahoma State University and a Master’s Degree in Geology from the University of Texas of the Permian Basin. I have been working continuously as a professional geologist since 2000, first with Schlumberger Oilfield Services (“Schlumberger”) and thereafter with Concho Resources, until 2019. Prior to 2000, I worked for Schlumberger as a field engineer for seventeen years. Since

2019, I have worked with various companies as an independent consultant on petroleum geology matters.

5. **Exhibits B-1** show the regional setting for the proposed wells.
6. **Exhibits B-2** include a general stratigraphic column showing the target zone.
7. **Exhibits B-3** are subregional structure maps with 50' contour intervals, which illustrate the cross-section reference line and structural data points for the Second Bone Spring interval.
8. **Exhibits B-4** are a structural cross section indicating that the horizontal section of these wells that will be placed in a primary sand body that has an estimated gross interval thickness of approximately 200'. This gross thickness is being calculated from the top of that sand body to the base of the that sand body. The total thickness of the Second Bone Spring interval in this area is approximately 600'.
9. **Exhibits B-5** are structural maps indicating the location of the proposed wells and spacing units, in addition to nearby existing Bone Spring wells.
10. **Exhibits B-6** include the acreage of interest detail and locations of the surface and bottom holes for the proposed wells.
11. **Exhibits B-7** include a type log with the target landing interval.
12. **Exhibits B-8** are gunbarrel views with a wellbore profile.
13. The measured depths and true vertical depths for each well are approximately as follows:

Case No.		MD	TVD
23327:	Tonto 16-21 Fed Com 201H	17,876'	10,056'
23328:	Tonto 16-21 Fed Com 202H	17,876'	10,056'

14. Based on my geologic study of the area, I conclude the following:
 - a. The horizontal spacing and proration units are justified from a geologic standpoint.
 - b. There are no structural impediments or faults that will interfere with horizontal development.
 - c. Each quarter-quarter section in the HSU will contribute more or less equally to production.
 - d. The most efficient way to develop the acreage in each case is as proposed. There is no known and generally accepted preferential drilling orientation based on present-day stress regime or other geological factors that would counter the proposed South-North well orientation. Successfully developed Bone Spring formation horizontal wells oriented South-North have been drilled in the region, so an established trend is present. This orientation also fits our lease boundaries and aligns with the remainder of Pride's planned development in the adjoining tracts. This preferred well orientation does not strand any acreage or reserves.
15. The exhibits attached hereto were prepared by me or compiled from Pride's business records.
16. The granting of the applications is in the interests of conservation, the prevention of waste, and the protection of correlative rights.
17. The foregoing is correct and complete to the best of my knowledge and belief.

I affirm under penalty of perjury under the laws of the State of New Mexico that this

statement is true and correct.

AFFIRMATION OF NOTICE

I, Sharon T. Shaheen, attorney for Applicant in the above-captioned matters, state the following:

I caused notice of the applications to be sent by certified mail through the United States Postal Service on February 10, 2023, to all interest owners sought to be pooled in this proceeding. Evidence of mailing to all such owners is attached hereto as Exhibit A. Notice was also directed to all such owners by publication in the Hobbs News-Sun on February 15, 2023, which is reflected in the Affidavit of Publication attached hereto as Exhibit B. Exhibit B demonstrates to my satisfaction that those owners who did not receive personal notice through the certified mailing were properly served by publication.

Pride has conducted a good faith, diligent effort to find the names and correct addresses for the interest owners entitled to receive notice of the Application filed herein.

I affirm under penalty of perjury under the laws of the State of New Mexico that this statement is true and correct.

LEGAL NOTICE
February 15, 2023

To the following entities, individuals, their heirs, personal representatives, trustees, successors or assigns, and any other uncommitted interest owners:

ZPZ Delaware I, LLC; Apache Corporation; Earthstone Permian, LLC; Timothy R. MacDonald; Maverick Oil & Gas Corporation; Oxy USA WTP Limited Partnership; Occidental Permian Limited Partnership; Oxy USA, Inc.; Oxy Y-1 Company; Yates Energy Company; Jalapeno Corporation; MRC Delaware Resources, LLC; MRC Spiral Resources, LLC; MRC Explorers Resources, LLC; Nadel & Gussman Capitan, LLC; Mewbourne Oil Company; New Mexico State Land Office; and Bureau of Land Management.

Pride Energy Company, has filed an application with the New Mexico Oil Conservation Division as follows:

Case No. 23327. Amended Application of Pride Energy Company for Compulsory Pooling, Lea County, New Mexico. Case No. 23327 replaces previous Case No. 22879, Application of Pride Energy Company for Compulsory Pooling, Lea County, New Mexico. Applicant in the above- styled case seeks an order from the Division pooling all uncommitted interests in the Bone Spring formation (Tonto; Bone Spring [59475]) in a standard 240-acre, more or less, horizontal spacing unit ("HSU") comprised of the W/2 E/2 of Section 16 and the W/2 NE/4 of Section 21, all in Township 19 South, Range 33 East, Lea County, New Mexico. Applicant proposes to drill the following well: **Tonto 16-21 State Federal Com. Well No. 201H** well, to be horizontally drilled from a first take point in the NW/4 NE/4 of Section 16, to a last take point in the SW/4 NE/4 of Section 21, all in Township 19 South, Range 33 East. The completed intervals and first and last take points for the well will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Also to be considered are the costs of drilling, completing, and equipping the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling, completing, and equipping the well. The unit is located approximately 9 miles northeast of Halfway, New Mexico.

This amended application will be set for hearing before a Division Examiner at the New Mexico Oil Conservation Division in Santa Fe, New Mexico **on March 2, 2023, at 8:15 a.m.** During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely. To participate in the electronic hearing, see the instructions posted on the docket for the hearing date: <http://www.emnrd.state.nm.us/OCD/hearings.html>. You are not required to attend this hearing, but as an owner of an interest that may be affected, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging this application at a later time. If you intend to attend the hearing and present testimony or evidence, you must enter your appearance by **February 22, 2023**, and serve the Division, counsel for the Applicant, and other parties with a pre-hearing statement by February 23, 2023 by 5:00 p.m., in accordance with Division Rule 19.15.4.13 NMAC. For further information, contact the applicant's attorney, Sharon T. Shaheen, Montgomery & Andrews, P.A., 325 Paseo de Peralta, Santa Fe, New Mexico 87501, (505) 986-2678.
