APPLICANT’S STATEMENT OF THE CASE

In Case No. 24252, Cimarex seeks an order pooling all uncommitted mineral interests in the Bone Spring formation underlying a standard 484.63-acre, more or less, horizontal spacing unit comprised of Lots 1, 2, 3 and 4 (the N/2 N/2 equivalent) of Sections 2 and 1, Township 20 South, Range 29 East; and Lots 1, 2, 3 and 4 (the N/2 N/2 equivalent) of Section 6, Township 20 South, Range 30 East; NMPM, Eddy County, New Mexico. Sections 2, 1, and 6 are irregular sections with correction lots.

Cimarex proposes and dedicates to the HSU the **Crest 2-1-6 State Fed Com 1H Well** as the initial well to be drilled to a sufficient depth to test the Bone Spring formation.

Cimarex proposes the **Crest 2-1-6 State Fed Com 1H Well**, an oil well, to be horizontally drilled from a surface location in the SW/4 NW/4 (Unit E) of Section 2 to a bottom hole location in the Lot 1 (aka NE/4 NE/4) of Section 6.

The well is orthodox, and the completed interval and first and last take points for the well meet the setback requirements set forth in the Division’s statewide rules and regulations for horizontal oil wells.

There exists one overlapping unit involving the Superior Federal 10H (API 30-015-38465), operated by Cimarex, covering the W/2 W/2 of Section 1. Cimarex seeks approval for this overlapping unit pursuant to Rule 19.15.16.15(B)(9)(b).

APPLICANT’S PROPOSED EVIDENCE

WITNESS	ESTIMATED TIME	EXHIBITS
Landman: Pat Gray	Approx. 10 min	Approx. 5
Geologist: Samir Jreij	Approx. 10 min	Approx. 4

PROCEDURAL MATTERS

Since the unit in this Case No. 24252 is within the same section and adjacent to the unit proposed by Cimarex in Case No. 24253, Cimarex requests that the two cases be consolidated. No protests or objections have been filed and Devon does not anticipate any at this time; consequently, Cimarex plans to conduct the hearing by affidavit.

Respectfully submitted,

ABADIE & SCHILL, PC
