	Case Number	Description
1.	24798	<p>Application of Permian Resources Operating, LLC for Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order from the Oil Conservation Division pooling all uncommitted mineral interests in the Bone Spring formation in a standard 320-acre, more or less, horizontal spacing and proration unit ("HSU") comprised of the S/2 N/2 of Sections 14 and 13, T22S-R26E, in Eddy County, New Mexico. Applicant proposes to drill the following 2-mile wells in the HSU: Outlaw 14 Fed Com 122H well (SBSG), to be horizontally drilled from an approximate surface hole location within the E/2 NE/4 of Section 15, T22S-R26E, to an approximate bottom hole location 100' FEL and 1650' FNL of Section 13, T22S-R26E; and Outlaw 14 Fed Com 132H well (TBSG), to be horizontally drilled from an approximate surface hole location within the E/2 NE/4 of Section 15, T22S-R26E, to an approximate bottom hole location 100' FEL and 1650' FNL of Section 13, T22S-R26E. The completed intervals and first and last take points will meet the setback requirements set forth in the statewide rules for horizontal oil wells. Additional considerations will be the cost of drilling and completing the wells and allocation of such costs, the designation of Applicant as operator of the HSU and wells to be drilled thereon, and a 200% charge for the risk involved in drilling and completing the wells. The wells and lands are located approximately 1 mile West of Carlsbad, New Mexico.</p> <p>Setting: Contested Hearing Joined with Cases: 24800, 24803, 24804</p>
