APPLICATION OF WPX ENERGY PERMIAN, LLC FOR A COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 25203

#### **APPLICATION**

WPX Energy Permian, LLC ("WPX"), OGRID No. 246289, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying a standard 320-acre, more or less, spacing unit comprised of the S/2 S/2 of Sections 32 and 33, Township 23 South, Range 26 East, NMPM, Eddy County, New Mexico. In support of its Application, WPX states the following:

- 1. WPX is a working interest owner in the proposed horizontal spacing and proration unit ("HSU") and has a right to drill a well thereon.
- 2. WPX proposes and dedicates to the HSU the **Frontier 33-32 Fed Com 224H Well** as the initial well to be drilled to a sufficient depth to test the Bone Spring formation.
- 3. WPX proposes the **Frontier 33-32 Fed Com 224H Well,** an oil well, to be horizontally drilled from a surface location in the NE/4 SE/4 (Unit I) of Section 33 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 32.
- 4. The well proposed herein is orthodox in its location, and the take points and completed intervals comply with setback requirements under statewide rules.

5. WPX has sought in good faith, but has been unable to obtain, voluntary agreement

from all interest owners to participate in the drilling of the wells or in the commitment of their

interests to the wells for their development within the proposed HSU.

6. The pooling of all interests in the Bone Spring formation within the proposed HSU

will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights.

7. In order to provide for its just and fair share of the oil and gas underlying the subject

lands, WPX requests that all uncommitted interests in this HSU be pooled and that WPX be

designated the operator of the proposed horizontal wells and HSU.

WHEREFORE, WPX requests that this Application be set for hearing on March 13, 2025

before an Examiner of the Oil Conservation Division, and after notice and hearing as required by

law, the Division enter an order:

A. Pooling all uncommitted mineral interests in the Bone Spring formation, designated

as an oil pool, underlying a standard 320-acre, more or less, spacing unit comprised of the S/2 S/2

of Sections 32 and 33, Township 23 South, Range 26 East, NMPM, Eddy County, New Mexico.

B. Approving the **Frontier 33-32 Fed Com 224H Well** as the initial well for the HSU.

C. Designating WPX as operator of this HSU and the horizontal wells to be drilled

thereon;

D.

Authorizing WPX to recover its costs of drilling, equipping, and completing the

wells;

E. Approving actual operating charges and costs of supervision, to the maximum

extent allowable, while drilling and after completion, together with a provision adjusting the rates

pursuant to the COPAS accounting procedures; and

2

F. Setting a 200% charge for the risk assumed by WPX in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

# STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF WPX ENERGY PERMIAN, LLC FOR A COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 25203

#### SELF-AFFIRMED STATEMENT OF ANDY BENNETT

- I, Andy Bennett, state and affirm the following:
- 1. I am over the age of eighteen years and have the capacity to execute this Self-Affirmed Statement, which is based on my personal knowledge.
- 2. I am employed as an Advising Landman with WPX Energy Permian, LLC ("WPX"), an indirect subsidiary of Devon Energy Corporation and I am familiar with the subject application and the lands involved.
- 3. I have previously testified before the New Mexico Oil Conservation Division ("Division") as an expert witness in petroleum land matters and my credentials have been accepted by the Division and made a matter of record.
- 4. This Self-Affirmed Statement is submitted in connection with the filing by WPX of the above-referenced spacing and compulsory pooling applications pursuant to 19.15.4.12.A(1).
- 5. WPX an order pooling all uncommitted mineral interests in the Bone Spring formation ([WC-015 G-04 S232628M: Bone Spring]; Pool Code: [98056]) underlying a standard 320-acre, more or less, spacing unit comprised of the S/2 S/2 of Sections 32 and 33, Township 23 South, Range 26 East, NMPM, Eddy County, New Mexico.

- 6. Under <u>Case No. 25203</u>, WPX seeks to dedicate the **Frontier 33-32 State Fed Com 224H** (API 30-015-pending) an oil well, to be horizontally drilled from a surface location in the NE/4 SE/4 (Unit I) of Section 33 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 32; approximate TVD of 6,700'; approximate TMD of 16,700'; FTP in Section 33: 660' FSL, 100' FEL; LTP in Section 32: 660' FSL, 100' FWL.
  - 7. The proposed C-102 for each well is attached as **Exhibit A-1**.
- 8. A general location plat and a plat outlining the unit being pooled is attached hereto as **Exhibit A-2**, which show the location of the proposed well within the unit. The well location is orthodox, and it meets the Division's offset requirements.
- 9. The parties being pooled, their working interests interests, and their last known addresses are listed on **Exhibit A-2** attached hereto. **Exhibit A-2** includes information regarding the working interest owners, the overriding royalty interest owners, and the record title owners to be pooled.
  - 10. There are no depth severances in the Bone Spring formation in this acreage.
  - 11. A good faith review of records did not reveal any overlapping units.
- 12. I provided the law firm of Abadie & Schill P.C. a list of names and addresses for the uncommitted interest owners shown on **Exhibit A-2**. In compiling these addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the well is located, and of phone directories and did computer searches to locate the contact information for parties entitled to notification. The interest owners were locatable and sent notice. Notice for two (2) overriding royalty interest owners: XTO Holdings, LLC and Thomas M. Beall and Carolyn R. Beall, are still listed as Mailed. WPX published notice in the Carlsbad Current-Argus, a newspaper

of general circulation in Eddy County, New Mexico, to account for any unforeseen parties and cover any contingencies regarding notice.

- 13. WPX has made a good faith effort to negotiate with the interest owners, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for its development within the proposed horizontal spacing unit. **Exhibit A-4** provides a chronology and history of contacts with the owners.
- 14. The interest owners being pooled have been contacted regarding the proposed well but have failed or refused to voluntarily commit their interest in the well. However, WPX has been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between WPX and another interest owner or owners, WPX requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the prevention of waste, and protection of correlative rights.
- 15. **Exhibit A-3** is a sample proposal letter and the AFEs for the proposed well. The estimated cost of the well set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.
- 16. WPX requests overhead and administrative rates of \$10,000/month for drilling each well and \$1,000/month for producing each well. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. WPX requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

- 17. WPX requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners to the extent needed.
  - 18. WPX requests that it be designated operator of the unit and well.
- 19. The Exhibits to this Statement were prepared by me or compiled from WPX's company business records under my direct supervision.
- 20. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.
  - 21. The foregoing is correct and complete to the best of my knowledge and belief.

# STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

APPLICATION OF WPX ENERGY PERMIAN, LLC FOR A COMPULSORY POOLING, EDDY COUNTY, NEW MEXICO

Case No. 25203

#### **SELF-AFFIRMED STATEMENT OF JOE DIXON**

I, Joe Dixon, state and affirm the following:

- 1. I am over the age of 18, and I have personal knowledge of the matters stated herein
- 2. I am employed as a petroleum geologist for WPX Energy Permian, LLC ("WPX"), an indirect subsidiary of Devon Energy Corporation and I am familiar with the subject application and the geology involved.
- 3. I have testified previously by affidavit before the Oil Conservation Division ("Division") as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.
  - I have a Bachelor of Science Degree in Geology from Purdue
     University and a Master of Science Degree in Geology from
     Oklahoma State University.
  - b. I have worked on New Mexico Oil and Gas matters since November 2020.

- 4. This Self-Affirmed Statement is submitted in connection with the filing by WPX of the above-referenced compulsory pooling application pursuant to 19.15.4.12.A(1) NMAC.
- 5. **Exhibit B-1** is a structure map showing the depth (subsea) to the top of the 3<sup>rd</sup> Bone Spring Limestone formation, a marker that defines the base of the target interval for the proposed wells. Contour interval of 20°. The units being pooled are outlined by red rectangles. The structure map shows that there is a regional down-dip to the east-southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval.
- 6. **Exhibit B-2** is a stratigraphic cross-section flattened on the 3<sup>rd</sup> Bone Spring Limestone. The line of section is shown on Exhibit B-1. Each well in the cross-section contains a gamma ray, resistivity, and porosity log (resistivity log not ran on the Oxy Zephyr State 1). The cross-section demonstrates continuity and consistent thickness across the target zone. The well logs on the cross-section give a representative sample of the 2<sup>nd</sup> Bone Spring Sandstone. The landing zones are highlighted by the well numbers.
- 7. Additional exhibits for the benefit of the Division's review include **Exhibit-**3, a gross isochore from the top of 2<sup>nd</sup> Bone Spring Sandstone to the 3<sup>rd</sup> Bone Spring Limestone, as well as **Exhibits B-4 and B-5**. **Exhibit B-4** is a gun barrel representation of the unit, and **Exhibit B-5** is a structural cross section built along the wellbore trajectories. Exhibits B-1 through B-5 are the same for the WPX's applications in Case Nos. 25200, 25201 and 25202.
  - 8. I conclude from the attached exhibits that:

- a. The horizontal spacing and proration unit is justified from a geologic standpoint.
- b. There are no structural impediments or faulting that will interfere with horizontal development.
- c. Each quarter-quarter section in the unit will contribute more or less equally to production.
- 9. The preferred well orientation in this area is East-West so that the wells run sub-perpendicular to the inferred orientation of the maximum horizontal stress.
- 10. The Exhibits to this Self-Affirmed Statement were prepared by me or compiled from WPX's company business records under my direct supervision.
- 11. The granting of this Application is in the interests of conservation, the prevention of waste and the drilling of unnecessary wells, and the protection of correlative rights.
- 12. The foregoing is correct and complete to the best of my knowledge and belief.

[Signature page follows]

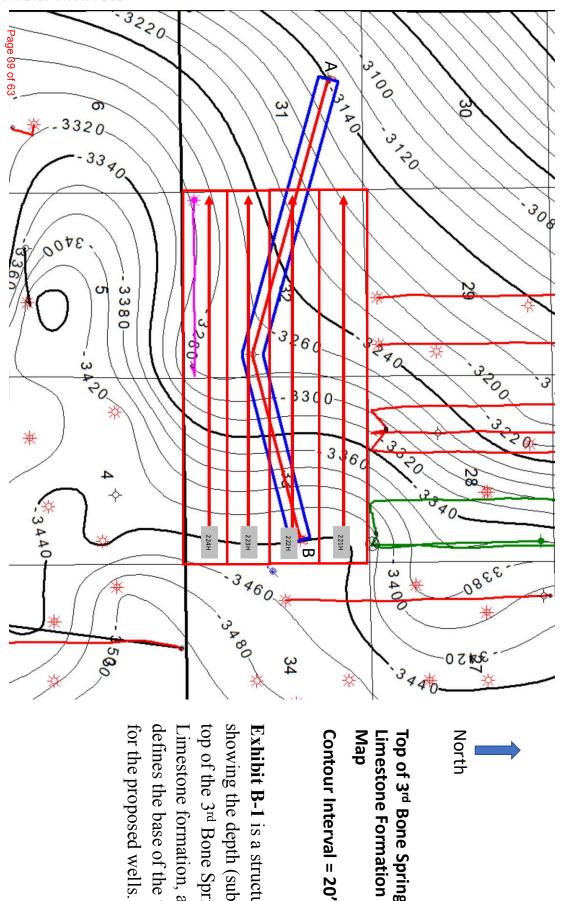

Signature page of Self-Affirmed Statement of Joe Dixon:

I understand that this Self-Affirmed Statement will be used as written testimony before the Division in Case No. 25203 and affirm that my testimony herein is true and correct, to the best of my knowledge and belief and made under penalty of perjury under the laws of the State of New Mexico.

Joe Dixon
